AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of extension of an information collection (1010-0041).

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), we are inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns the paperwork requirements in the regulations under 30 CFR 250, subpart K "Oil and Gas Production Rates."

DATES: Submit written comments by February 4, 2003.

ADDRESSES: Mail or hand carry comments to the Department of the Interior; Minerals Management Service; Attention: Rules Processing Team; Mail Stop 4024; 381 Elen Street; Herndon, Virginia 20170-4817. If you wish to e-mail comments, the address is: rules.comments@mms.gov. Reference "Information Collection 1010-0041" in your e-mail subject line and mark your message for return receipt. Include your name and return address in your message.

FOR FURTHER INFORMATION CONTACT: Arlene Bajusz, Rules Processing Team,

(703) 787-1600. You may also contact Arlene Bajusz to obtain a copy, at no cost, of the regulations and form MMS-140 that require the subject collection of information.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR Part 250, Subpart K, Oil and Gas Production Rates.

OMB Control Number: 1010-0041.

Form Number: Form MMS-140.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

Section 1334(g)(2) states “* * * the lessee shall produce such oil or gas, or both, at rates * * * to assure the maximum rate of production which may be sustained without loss of ultimate

recovery of oil or gas, or both, under sound engineering and economic principles, and which is safe for the duration of the activity covered by the approved plan.” This authority and responsibility are among those delegated to the Minerals Management Service (MMS). The regulations at 30 CFR part 250, subpart K, concern oil and gas production rates and implement these statutory requirements. The information collection requirements in subpart K and form MMS-140 are the subject of this notice.

We use the information collected to determine if produced gas can be economically put to beneficial use, to analyze the risks of transporting the liquid hydrocarbons against the value of the resource, and to account for volumes of flared gas and burned liquid hydrocarbons. The MMS uses the information in its efforts to conserve natural resources, prevent waste, and protect correlative rights including the Government's royalty interest. Specifically, MMS uses the information to review records of burning liquid hydrocarbons and venting and flaring actions to ensure that they are not excessive; to determine maximum production and maximum efficient rates; to compare the volume of hydrogen sulfide (H₂S) flared and the sulphur dioxide (SO₂) emitted to the specified amounts in approved

contingency plans; to monitor monthly atmospheric emissions of SO₂ for air quality; to review applications for downhole commingling to ensure that action does not result in undervalued royalties; and to ensure that operations are effective and result in optimum ultimate recovery.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR 250.196, “Data and information to be made available to the public.” No items of a sensitive nature are collected. Responses are mandatory.

Frequency: On occasion or monthly.

Estimated Number and Description of Respondents: Approximately 130 Federal OCS oil and gas lessees.

Estimated Reporting and Recordkeeping “Hour” Burden: The currently approved annual reporting burden for this collection is 14,189 hours. The following chart details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it

displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before an ICR is submitted to OMB, PRA section 3506(c)(2)(A) requires each agency *** to provide notice *** and otherwise consult with members of the public and affected agencies concerning each proposed collection of information ***.

Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the "non-hour cost" burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Policy: Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There may be circumstances in which we would withhold from the record a respondent's

identity, as allowable by the law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

ACTION: Notice of request for extension of a currently approved information collection

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the National Park Service's intention to request an extension for a currently approved information collection in support of its Concession Management Program.

DATES: Comments in this notice must be received no later than January 6, 2003.

ADDRESSES: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for the Interior Department, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503. Please also send a copy of your comments to Cynthia L. Orlando, Concession Program Manager, National Park Service, Department of the Interior, 1849 C Street, NW (2410), Washington, DC 20240.

SUPPLEMENTARY INFORMATION:

Title: Proposed Sale of Concession Operations.

OMB Number: 1024-0126.

Expiration Date of Approval: November 30, 2002.

Type of Request: Extension of a currently approved information collection.

Abstract: The National Park Service (NPS) authorizes private businesses known as concessioners to provide necessary and appropriate visitor

facilities and services in areas of the National Park System. Concession authorizations may be assigned, sold, transferred or encumbered by the concessioner subject to prior written approval of the NPS. The NPS requires that certain information be submitted for review prior to the consummation of any sale, transfer, assignment, or encumbrance.

16 U.S.C. 5957 provides that no concessions contract or leasehold surrender interest may be transferred, assigned or sold, or otherwise conveyed or pledged by a concessioner without prior written notification to, and approval by, the Secretary. Regulations at 36 CFR part 51, subpart J, require that certain information be submitted for review by the NPS prior to the consummation of any sale, transfer, assignment or encumbrance.

The information requested is used to determine whether or not the proposed transaction will result in an adverse impact on the protection, conservation, or preservation of the resources of the unit of the National Park System, decreased services to the public, the lack of a reasonable opportunity for profit over the remaining term of the authorization, or rates in excess of existing approved rates to the public. In addition, pursuant to the regulations at 36 CFR part 51, the value of rights for intangible assets such as the concession contract, right of preference in renewal, user days, or low fees, belong to the Government.

If any portion of the purchase price is attributable either directly or indirectly to such assets, the transaction may not be approved. The amount and type of information to be submitted varies with the type and complexity of the proposed transaction. Without such information, the NPS would be unable to determine whether approval of the proposed transaction would be adequate.

Estimate of Burden: Approximately 80 hours per response.

Estimated Number of Respondents: Approximately 20.

Estimated number of Responses per Respondent: One.

Estimated Total Annual Burden on Respondents: 1600 Hours.

A list of information required to be submitted with a request for sale, assignment, transfer or encumbrance of a concession authorization is set forth at 36 CFR part 51, subpart J.

Send comments regarding the accuracy of the burden estimate, ways to minimize the burden, including the use of automated collection techniques or other forms of information technology, or any other aspect of this collection to the Office of Management and Budget at
