INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1021 (Preliminary)]

Malleable Iron Pipe Fittings From China

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (Commission) determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is threatened with material injury, by reason of imports from China of malleable iron pipe fittings, provided for in subheading 7307.19.90 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Commencement of Final Phase Investigation

Pursuant to § 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigation. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in § 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of an affirmative preliminary determination in the investigation under section 733(b) of the Act, or, if the preliminary determination is negative, upon notice of an

affirmative final determination in that investigation under section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigation need not enter a separate appearance for the final phase of the investigation. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

Background

On October 30, 2002, a petition was filed with the Commission and Commerce by Anvil International, Inc. of Portsmouth, NH, and Ward Manufacturing, Inc. of Blossburg, PA, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of malleable iron pipe fittings from China. Accordingly, effective October 30, 2002, the Commission instituted antidumping duty investigation No. 731-TA-1021 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of November 6, 2002 (67 FR 67645). The conference was held in Washington, DC, on November 20, 2002, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on December 16, 2002. The views of the Commission are contained in USITC Publication 3568 (December 2002), entitled Malleable Iron Pipe Fittings from China: Investigation No. 731-TA-1021 (Preliminary).

By order of the Commission.

Issued: December 16, 2002.

BILLING CODE 4410-11-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Marion "Molly" Fry, M.D.; Revocation of Registration

On March 7, 2002, the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration (DEA), issued an Order to Show Cause to Marion "Molly" Fry, M.D. (Dr. Fry), proposing to revoke her DEA Certificate of Registration, BM4859178, and deny any pending

applications for registration as a practitioner under 21 U.S.C. 823(f). The Order to Show Cause alleged that Dr. Fry's continued registration is inconsistent with the public interest as that term is used in 21 U.S.C. 823(f) and 824(a)(4). The show cause order also notified Dr. Fry that should no request for a hearing be filed within 30 days, her hearing right would be deemed waived.

The Order to Show Cause was sent by certified mail to Dr. Fry at her registered location in Cool, California, and DEA received a signed receipt indicating that it was received on March 12, 2002. A second copy of the Order to Show Cause was sent by certified mail to Dr. Fry at her residence in Greenwood, California (the Greenwood residence). However, the second copy was returned to DEA as "not deliverable." DEA's Sacramento District Office then sent the Order to Show Cause to Dr. Fry's residence by Federal Express.

DEA has not received a request for hearing or any other reply from Dr. Fry or anyone purporting to represent her in this matter. Therefore, the Deputy Administrator, finding that (1) 30 days have passed since the receipt of the Order to Show Cause, and (2) no request for a hearing having been received, concludes that Dr. Fry is deemed to have waived her hearing right. After considering material from the investigative file in this matter, the Deputy Administrator now enters his final order without a hearing pursuant to 21 CFR 1301.43(d) and (e) and 1301.46.

The Deputy Administrator's review of the investigative file reveals that Dr. Fry graduated from Western Washington University in Bellingham, Washington with a bachelor's degree in both chemistry and biology. Dr. Fry subsequently graduated from the University of California—Irvine in 1985 with a degree in medicine. Shortly thereafter, Dr. Fry obtained a medical license in the State of California where she initially specialized in general medicine. Dr. Fry is currently licensed to practice medicine in the State of California.

In October 1999, Dr. Fry and her husband Dale Schafer (Mr. Schafer) opened the California Medical Research Center located in Cool, California. Cool is a small mountain community in El Dorado County, California. The investigative file reveals that Mr. Schafer is an attorney, licensed to practice law in the State of California.

The Deputy administrator finds that as a result of a routine DEA interdiction operation in August 2000, an individual was arrested on an Amtrak train possessing ten pounds of processed
