Title: Notices of Arrival of Pesticides and Devices (OMB Control No. 2070-0020, EPA ICR No. 0152.07). This is a request to renew an existing approved collection scheduled to expire on December 31, 2002. Under the OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The U.S. Customs regulations at 19 CFR 12.112 require that an importer desiring to import pesticides into the United States shall, prior to the shipment's arrival, submit a Notice of Arrival of Pesticides and Devices (EPA Form 3540-1) to EPA who will determine the disposition of the shipment. After completing the form, EPA returns the form to the importer, or his agent, who must present the form to Customs upon arrival of the shipment at the port of entry. This is necessary to insure that EPA is notified of the arrival of pesticides and devices as required by the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) section 17(c) and has the ability to examine such shipments to determine that they are in compliance with FIFRA. The information is used by EPA Regional pesticide enforcement and compliance staffs, OECA, and the Department of Treasury. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain,

or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Importers of Pesticide and Devices.
Estimated Number of Respondents: 18,500.

Frequency of Response: 1.
Estimated Total Annual Hour Burden: 5,550 hours.

Estimated Total Annual Cost: \$396,085.

Changes in the Estimates: There is an increase of 3,450 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an adjustment in the number of respondents, based on a survey of responses reported to the EPA Regions in calendar year 2002.

Dated: December 2, 2002.

Director, Collection Strategies Division.
