

byproduct material. The higher allowed exposure limit to these adult caregivers for minor patients allows for a more positive overall outcome and lower risk to the patient.

Environmental Impacts of the Proposed Action

There will be no significant environmental impact or undue hazard to life or property from the proposed action due to the fact that no material is being released into the environment and all of the operations involving the byproduct material will follow normal operating procedures followed prior to the request for the exemption.

During operations, the radiation dose rates from the minor patient will not be different than occurs normally for the prescribed medical treatment. The doses to the adult caregiver could be higher than doses allowed for members of the public by 10 CFR 20.1301 as a result of the closer proximity to the minor patient necessary to allow participation in many of the daily tasks for the children during their isolation. The University indicated it will identify these caregivers and treat them as though they are radiation workers; they will receive the same training and monitoring as required of other radiation workers, including instructions in maintaining their doses as low as reasonably achievable. In addition, standard radiation protection practices of minimizing time, maximizing distance and use of shielding will be employed to the extent practicable.

Alternatives to the Proposed Action

As required by section 102(2)(E) of NEPA (42 U.S.C. 4322(2)(E)), possible alternatives to the final action have been considered. The only alternative is to deny the exemption. This option would not produce a substantial gain in protecting the human environment. University employee caregivers would be providing the care that will be provided by the family adult caregiver. Allowing the family adult caregiver to perform some of the minor patient care tasks improves the outcome of the treatment.

Alternative Use of Resources

No alternative use of resources was considered due to the reasons stated above.

Agencies and Persons Consulted

NRC consulted the Commonwealth of Pennsylvania, Department of Environmental Protection, Bureau of Radiation Protection regarding this matter. The Commonwealth of

Pennsylvania has no objection to NRC approval of the proposed exemption request or the conclusions of this environmental assessment.

Identification of Sources Used

Letters from the University to NRC, Region I, dated March 15, 2002, and April 11, 2002.

Finding of No Significant Impact

The environmental impacts of the proposed action have been reviewed in accordance with the requirements set forth in 10 CFR part 51. Based on the foregoing environmental assessment, the Commission finds that the proposed action of granting the exemption from 10 CFR 20.1301 will not significantly impact the quality of the human environment. Accordingly, the Commission has determined that an environmental impact statement for the proposed exemption is not warranted.

Further Information: The request for an exemption was docketed under 10 CFR part 20, License Number 37-00118-07. For further details with respect to this action, see the exemption request letters dated March 15, 2002, and April 11, 2002. The NRC maintains an Agencywide Documents Access and Management System (ADAMS) which provides text and image files of NRC's public documents. These documents may be accessed through the NRC Public Electronic Reading Room on the Internet at <http://nrc.gov/NRC/ADAMS/index.html>. If you do not have access to ADAMS or if there are problems in accessing documents located in ADAMS, contact the NRC Public Document Room Reference staff at 1-800-397-4209, (301) 415-4737, or by e-mail to pdr@nrc.gov.

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8698]

Notice of Amendment Request and Consideration of Proposed Reclamation Plan for the Shootaring Canyon Uranium Project, Ticaboo, Utah, and Opportunity to Provide Comments and to Request a Hearing

I. Introduction

The Nuclear Regulatory Commission (NRC) has received, by letter dated October 24, 2002, a request from Plateau Resources Limited (PRL) to (1) amend Source Materials License SUA-1371 for the Shootaring Canyon Uranium Project to change its status from "operational" to "reclamation;" and (2) review and approve PRL's proposed reclamation plan for this facility.

The uranium mill at Shootaring Canyon operated for only three months in 1982, generating a small amount of mill tailings (the byproduct material wastes produced by extraction of uranium from ore). The mill has been on standby status since that time and PRL has decided to permanently cease operational activities at Shootaring Canyon and initiate decommissioning and reclamation of the mill site. Consistent with this decision, PRL has

submitted a tailings reclamation and decommissioning plan for the Shooting Canyon Uranium Project.

II. Opportunity To Provide Comments

The NRC is providing notice to individuals in the vicinity of the facility that the NRC is in receipt of this request, and will accept comments concerning this action within 30 days of the publication of this notice in the **Federal Register**. The comments may be provided to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room T-6 D59, Two White Flint North, 11545 Rockville Pike, Rockville, MD 20852, from 7:30 a.m. until 4:15 p.m. on Federal workdays.

III. Opportunity to Request a Hearing

The NRC hereby provides notice that this is a proceeding on an application for an amendment of a license falling within the scope of subpart L, "Informal Hearing Procedures for Adjudications in Materials and Operator Licensing Proceedings" of NRC's rules and practice for domestic licensing proceedings in 10 CFR part 2. Whether or not a person has or intends to provide comments as set out in section II above, pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(d). A request for a hearing must be filed within 30 days of the publication of this **Federal Register** notice.

The request for a hearing must be filed with the Office of the Secretary, either:

(1) By delivery to the Rulemaking and Adjudications Staff of the Office of the Secretary of the Commission at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852; or

(2) By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Rulemaking and Adjudications Staff. Because of continuing disruptions in the delivery of mail to United States government offices, it is requested that requests for hearing also be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101, or by e-mail to hearingdocket@nrc.gov.

In accordance with 10 CFR 2.1205(f), each request for a hearing must also be

served, by delivering it personally or by mail, to:

(1) The applicant, Plateau Resources Limited, 877 North 8th West, Riverton, Wyoming 82501, Attention: Fred Craft; and

(2) The NRC staff, by delivery to the General Counsel, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or by mail addressed to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Because of continuing disruptions in the delivery of mail to United States government offices, it is requested that requests for hearing also be transmitted to the Office of the General Counsel, either by means of facsimile transmission to 301-415-3725, or by email to OGCMailCenter@nrc.gov.

In addition to meeting other applicable requirements of 10 CFR part 2 of the NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

- (1) The interest of the requestor;
- (2) How that interest may be affected by the results of the proceeding, including the reasons why the requestor should be permitted a hearing, with particular reference to the factors set out in § 2.1205(h);
- (3) The requestor's areas of concern about the licensing activity that is the subject matter of the proceeding; and
- (4) The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205(d).

IV. Further Information

The application for the license amendment and proposed decommissioning and reclamation plan are available for inspection at NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Number ML023090073). Documents may also be examined and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. Any questions with respect to this action should be referred to Rick Weller, Fuel Cycle Facilities Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Mail Stop T8-A33, Washington, DC 20555-0001. Telephone: (301) 415-7287, Fax: (301) 415-5390.

Dated in Rockville, Maryland, this 13th day of December, 2002.

For the Nuclear Regulatory Commission.

Daniel M. Gillen,

Chief, Fuel Cycle Facilities Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards.

POSTAL SERVICE

Notice of Availability of Annual Report of Compliance With Alternative Fuel Vehicle Acquisition Requirements of the Energy Policy Act of 1992

AGENCY: Postal Service.

ACTION: Notice.

SUMMARY: By this action, the United States Postal Service is making available to the public its annual report of compliance with the Energy Policy Act of 1992 (EPAct) alternative fuel vehicle (AFV) acquisition requirements. The EPAct specifies minimum numbers of AFVs that Federal agencies must acquire when purchasing or leasing light-duty vehicles. For Fiscal Year 1999 and beyond, at least 75 percent of Federal agency light-duty vehicle acquisitions must be AFVs (law enforcement, security, and emergency vehicles are exempt). The Energy Conservation Reauthorization Act of 1998 requires each Federal agency to report annually on the percentage of AFVs acquired. It also requires that each agency's report be placed on a publicly available Web site on the Internet, and that the availability of the report (including the Web site address) be published in the Federal Register.

ADDRESSES: Address all comments concerning this notice to Marguerite A. Downey, Environmental Specialist, Environmental Management Policy, United States Postal Service, 475 L'Enfant Plaza SW., Room 1P830, Washington, DC 20260-2810.

FOR FURTHER INFORMATION CONTACT: Marguerite A. Downey, 202-268-5073.

SUPPLEMENTARY INFORMATION: Interested parties may view the United States Postal Service's annual report at the following Internet Web site: <http://www.usps.com/environment/envnews/compliance.htm>. You may submit comments and data by sending electronic mail (e-mail) to: MDOWNEY1@email.usps.gov.

Authority: Sec. 310, Pub. L. 105-388.
