NUCLEAR REGULATORY COMMISSION

10 CFR Parts 50 and 72

RIN 3150–AG52

Decommissioning Trust Provisions

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations relating to decommissioning trust provisions for nuclear power plants. For licensees that are no longer rate-regulated, or no longer have access to a non-bypassable charge for decommissioning, the NRC is requiring that decommissioning trust agreements be in a form acceptable to the NRC in order to increase assurance that an adequate amount of decommissioning funds will be available for their intended purpose. Until recently, direct NRC oversight of the terms and conditions of the decommissioning trusts was not necessary because rate regulators typically exercised this type of oversight authority. With deregulation, this oversight may cease and the NRC needs to take a more active oversight role.

EFFECTIVE DATE: December 24, 2003.

SUPPLEMENTARY INFORMATION:

I. Background

In a staff requirements memorandum (SRM) dated August 10, 1999, the Commission directed the NRC staff to initiate a rulemaking to require that decommissioning trust agreements be in a form acceptable to the NRC in order to increase assurance that an adequate amount of decommissioning funds will be available for their intended purpose. This SRM was in response to SECY–99–170 (July 1, 1999), “Summary of Decommissioning Fund Status Reports,” in which the NRC staff noted that it intended to continue to review decommissioning trust agreements in license transfers on a case-by-case basis and impose appropriate conditions in the orders approving these transfers. In response to the SRM, the NRC staff issued a rulemaking plan for Decommissioning Trust Provisions, SECY–00–0002, on December 30, 1999. The plan called for amending 10 CFR 50.75 and revising Regulatory Guide
