

(202) 566-1514. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice, and according to the following detailed instructions: (1) Submit your comments to EPA online using EDOCKET (our preferred method), by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mailcode: 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) Mail your comments to OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to www.epa.gov/edocket.

Title: NSPS for Kraft Pulp Mills—subpart BB (OMB Control Number 2060-0021 and EPA ICR Number 1055.07). This is a request to renew an existing approved collection that is scheduled to expire on February 28, 2003. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The NSPS for Kraft Pulp Mills, published at 40 CFR part 60,

subpart BB, was proposed on September 24, 1976, and promulgated on February 23, 1978. Revisions to the standards were promulgated on May 20, 1986. This rule addresses total reduced sulfur (TRS) and particulate matter emissions from new, modified and reconstructed Kraft Pulp Mills.

In addition to the monitoring, recordkeeping and reporting requirements listed in the General Provisions (40 CFR part 60, subpart A), Kraft Pulp Mills are required to continuously monitor and record at least once per shift specific parameters at the applicable affected facilities: The opacity of the gases discharged into the atmosphere from any recovery furnace; the concentration of TRS emissions on a dry basis and the percent of oxygen by volume on a dry basis in the gases discharged to the atmosphere; for an incinerator, the combustion temperature at the point of incineration of effluent gases being emitted by the affected facilities; and for any lime kiln or smelt discharge tank using a scrubber emission control device, the pressure loss of the gas stream through the control equipment and the scrubbing liquid pressure to the control equipment. Sources are also required to record on a daily basis 12-hour average TRS concentrations and oxygen concentrations (for the recovery furnace and lime kiln) for two consecutive periods of each operation. Sources must report semiannually measurements of excess emissions as defined by the standard for the applicable affected facility.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 62.4 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able

to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Kraft Pulp Mills/brown stock washer systems, recovery furnaces, smelt dissolving tanks, lime kilns, black liquor oxidation systems and condensate stripper systems.

Estimated Number of Respondents: 92.

Frequency of Response: Initial, semiannual and on occasion.

Estimated Total Annual Hour Burden: 12,107.

Estimated Total Annual Non-labor Cost: \$3,143,600, includes \$300,000 annualized capital costs and \$2,844,000 annualized O&M costs.

There is an increase of 2,148 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an increase and a more accurate estimate of the number of kraft pulp mills in the United States. The estimates on the number of existing and new sources were based on the active ICR, **Federal Register** publications on other sector-related rules, consultation with OAQPS and industry, and queries conducted on two EPA databases including the Sector Facility Index Project and the Aerometric Information Retrieval System Facility Subsystem.

Dated: December 10, 2002.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities; Submission for OMB for Review and Approval; Comment Request; NSPS for Hot Mix Asphalt Facilities, ICR Number 1127.07, OMB Number 2060-0083

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NSPS for Hot Mix Asphalt Facilities (40 CFR part 60, subpart I),

(OMB Control Number 2060-0083, EPA ICR Number 1127.07). The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before January 23, 2003.

ADDRESSES: Follow the detailed instructions in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT:

Gregory Fried, Compliance Assessment and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, D.C. 20460; telephone number: (202) 564-7016; fax number: (202) 564-0050; E-mail address: fried.gregory@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 20, 2002 (67 FR 41981), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OECA-2002-0005, which is available for public viewing at the Enforcement and Compliance Docket and Information Center (ECDIC) in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the ECDIC is (202) 566-1514. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice, and according to the following detailed instructions: (1) Submit your comments to EPA online using EDOCKET (our preferred method), by E-mail to: docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code: 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) Mail your comments to OMB at: Office of Information and Regulatory Affairs,

Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: NSPS for Hot Mix Asphalt Facilities (40 CFR part 60, subpart I) (OMB Control Number 2060-0083, EPA ICR Number 1127.07). This is a request to renew an existing approved collection that is scheduled to expire on January 31, 2003. Under the OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The New Source Performance Standards (NSPS) for Hot Mix Asphalt Facilities were proposed on June 11, 1973, and promulgated on July 25, 1977. These regulations apply to the following facilities in 40 CFR part 60, subpart I: Dryers; systems for screening, handling, storing, and weighing hot aggregate; systems for loading, transferring, and storing mineral filler; systems for mixing hot mix asphalt; and the loading, transfer, and storage systems associated with emission control systems. The Administrator has judged that Particulate Matter (PM) emissions from hot mix asphalt facilities cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Therefore, the purpose of this NSPS is to control the emissions of particulate matter (PM) from hot mix asphalt facilities. The standards limit particulate emissions to 90 milligrams per dry standard cubic meter (mg/DCM) and a 20% opacity. This information is being collected to

assure compliance with 40 CFR part 60, subpart I. In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. Owners/operators of hot mix asphalt facilities must notify EPA of construction, modification, or reconstruction of a new or existing facility and submit a notification and the results of an initial performance test. In addition, a facility subject to this NSPS must record any startups, shutdowns or malfunctions. The purpose of the notifications is to inform the Agency or delegated authority when a source becomes subject to this standard. Performance tests are conducted to ensure that the new plants operate within the boundaries outlined in the standard. In the absence of such information, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act. Under this standard the data collected by the affected industry is retained at the facility for a minimum of two years and made available for inspection by the Administrator.

The only type of industry costs associated with the information collection activity in the standards are labor costs.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Hot Mix Asphalt Facilities.

Estimated Number of Respondents: 2,835.

Frequency of Response: Initial and on occasion.

Estimated Total Annual Hour Burden: 10,303 hours.

Estimated Total Annual Labor Cost: \$588,507.

Changes in the Estimates: There is an increase of 3,413 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an increase in the number of existing facilities that will undergo modifications such that they will be required to submit notifications and conduct the appropriate performance tests required by the standard.

Dated: December 10, 2002.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Voluntary Customer Satisfaction Surveys

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Voluntary Customer Satisfaction Surveys, OMB Control Number 2090-0019, expiring March 31, 2003. The ICR describes the nature of the information collection and its expected burden and cost, where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before January 23, 2003.

ADDRESSES: Send comments, referencing EPA ICR No. 1711.04 and OMB Control No 2090-0019 to the following addresses: Susan Auby, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001, and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725

17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Susan Auby at EPA by phone at 202-566-1672, by e-mail at auby.susan@epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No 1711.04. For technical questions about the ICR contact: Patricia Bonner by phone at 202-566-2204 or by e-mail at bonner.patricia@epa.gov.

SUPPLEMENTARY INFORMATION: *Title:* Voluntary Customer Satisfaction Surveys, OMB Control No. 2090-0019, EPA ICR Number 1711.04 expiring March 31, 2003. This is a request for extension of a currently approved collection.

Abstract: EPA uses voluntary surveys to learn how satisfied EPA customers are with our services, and how we can improve services, products and processes. EPA surveys individuals who use services or could have. During the next three years, EPA plans up to 185 surveys, and will use results to target/measure service delivery improvements. By seeking renewal of the generic clearance for customer surveys, EPA will have the flexibility to gather the views of our customers to better determine the extent to which our services, products and processes satisfy their needs or need to be improved. The generic clearance will speed the review and approval of customer surveys that solicit opinions from EPA customers on a voluntary basis, and do not involve "fact-finding" for the purposes of regulatory development or enforcement.

An Agency may conduct or sponsor, and a person is not required to respond to, a collection of information unless it has a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this information collection was published July 26, 2002 (FR 67 48893); no comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 5 minutes to 2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing

and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Individuals or households.

Estimated Number of Respondents: 58,827.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 2,966.

Estimated Total Annualized Capital, O&M Cost Burden: 0.

Send comments on the Agency's need for this information, the accuracy of burden estimates, and any suggested methods for minimizing respondent burden, including use of automated collection techniques, to the following addresses. Please refer to EPA ICR No. 1711.04 and OMB Control No. 2090-0019 in any correspondence.

Dated: December 10, 2002.
