

of these carriers have been issued farm license plates. ODOT's Driver and Motor Vehicle Services Division has issued approximately 37,000 farm license plates for trucks operating in Oregon. However, because of the seasonal nature of farm work, it is estimated that only 13,000 farm plates are valid at any given time. The difference between the number of farmers and the number of farm license plates arises because the plates are issued for seasons, and depending on what the farmers are growing they only operate CMVs during certain times of the year.

Method to Ensure an Equivalent or Greater Level of Safety

ODOT believes the level of safety for farmers operating under the exemption would be equivalent to the level of safety that would be provided by the Federal safety regulations because the State would continue to enforce its rules of the road and equipment regulations applicable to all motorists and motor vehicles. Farm vehicles are currently required to comply with State requirements related to parts and accessories, including brakes, lights, mudguards and fenders, emissions and exhaust, windows, horns, mirrors, etc. Furthermore, ODOT has the authority to inspect any vehicle to verify compliance. By publication of this notice the FMCSA hopes to receive data enabling the agency to determine whether to grant or deny this exemption.

Potential Impacts If the Exemption is Not Granted

ODOT believes that if the exemption is not granted, the State would no longer

be eligible for participation in MCSAP. For fiscal year 2003, it is estimated that Oregon will receive \$2,009,000 in basic grant funds and an additional \$437,481 in incentive funds.

Request for Comments

In accordance 49 U.S.C. 31315(b)(4) and 31136(e), FMCSA requests public comment from all interested parties on ODOT's application for an exemption from all the Safety requirements of Subchapter B to Chapter III, title 49 of the CFR. The agency may grant or deny the application based on the comments received, and any other relevant information that is available to the agency.

Office of Hazardous Materials Safety; Notice of Applications for Modification of Exemptions

AGENCY: Research and Special Programs Administration, DOT.

ACTION: List of applications for modification of exemptions.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Safety has received

the applications described herein. This notice is abbreviated to expedite docketing and public notice. Because the sections affected, modes of transportation, and the nature of application have been shown in earlier **Federal Register** publications, they are not repeated here. Requests for modifications of exemptions (*e.g.*, to provide for additional hazardous materials, packaging design changes, additional mode of transportation, *etc.*) are described in footnotes to the application number. Application numbers with the suffix "M" denote a modification request. These applications have been separated from the new applications for exemptions to facilitate processing.

DATES: Comments must be received on or before January 10, 2003.

ADDRESS COMMENTS TO: Records Center, Research and Special Programs Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the exemption number.
