SUPPLEMENTARY INFORMATION: *Title:* "Royalty-in-Kind (RIK) Pilot Program—Directed Communications by Operators of Federal Oil and Gas Leases."

OMB Control Number: 1010-0126.

Abstract: The Department of the Interior (DOI) is responsible for matters relevant to mineral resource development on Federal and Indian Lands and the Outer Continental Shelf (OCS). The Secretary of the Interior (Secretary) under the Mineral Leasing Act (30 U.S.C. 192) and the OCS Lands Act (43 U.S.C. 1353) is responsible for managing the production of minerals

from Federal and Indian lands and the OCS; collecting royalties from lessees who produce minerals; and distributing the funds collected in accordance with applicable laws. MMS performs the royalty management functions for the Secretary.

Most royalties are now paid in value. For example, when a company or individual enters into a contract to develop, produce, and dispose of minerals from Federal lands, that company or individual agrees to pay the United States a share (royalty) of the full value received for the minerals taken from leased lands. MMS has undertaken several pilot programs to study the feasibility of taking the Government's royalty in the form of production, that is, as RIK.

Collection of RIK requires communication between MMS and the operators of a lease to assure accurate and timely delivery of MMS's royalty share of production volumes.

MMS, as responsible steward of oil and gas royalties, must direct operators of affected MMS leases to carry out three types of communication to take MMS's RIK crude oil or natural gas. The types of information that operators must provide are as follows:

(1) About 8-10 days before end of the month, report initial information about the projected volumes and qualities of RIK production the operator expects to make available in the next month, and corrections to those projected volumes and qualities for the month, submitted at varying frequencies during the month;

(2) When needed, report billing information about transportation/billing arrangements for the RIK to the delivery point, and

(3) Report month-end summary information (lease imbalance statement) about total RIK volumes and qualities needed to carry over to the next month to resolve aggregated imbalances that have incurred in prior months of RIK deliveries.

Experience with the Wyoming and Texas 8(g) Pilots demonstrate directed communication requirements differed according to the needs of each pilot situation. For example, in the Wyoming Pilot, RIK was delivered to the purchasers at the lease. Therefore, the direction to make transportation arrangements was included in "Dear Operator" letters issued to those operators. For these reasons, we are not requesting OMB approval of specific "Dear Operator" letters to operators but, instead, requesting OMB approval to continue collecting the three kinds of reporting requirements concerning communications between operators and
