

SUPPLEMENTARY INFORMATION:**I. Abstract**

Fishermen and processors wishing to participate in regulated fisheries in the Exclusive Economic Zone off Alaska must obtain either a Federal Fisheries Permit, a Federal Processor Permit, a High-Seas Power Troller Permit, or an Experimental Fishing Permit. A holder of an Experimental Fishing Permit must file a progress and final report. The application and report information is used to identify participants in the fishery, aid enforcement of fishery regulations, and analyze activity within the fisheries.

II. Method of Collection

Paper forms are used.

III. Data

OMB Number: 0648-0206.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations, individuals or households, and not-for-profit institutions.

Estimated Number of Respondents: 931.

Estimated Time Per Response: 21 minutes for Federal Fisheries Permit application; 21 minutes for Federal Processor Permit application; 20 minutes for a High-Seas Power Troller Permit application; 20 hours for Exempted Fisheries Permit application; 5 hours for an Exempted Fisheries Permit progress report; and 10 hours for an Exempted Fisheries Permit final report.

Estimated Total Annual Burden Hours: 483.

Estimated Total Annual Cost to Public: \$1,329.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection;

they also will become a matter of public record.

Dated: December 20, 2002.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[I.D. 120202B]

Marine Mammal Authorization Program Integration of Registration for Selected Atlantic Ocean, Gulf of Mexico, and Caribbean Fisheries

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of expansion of integrated registration program.

SUMMARY: NMFS is providing notice that it is increasing the number of fisheries for which the Marine Mammal Authorization Program (MMAP) registration is integrated with existing Federal fishery licensing and permitting programs. NMFS is integrating MMAP registration at this time for Category I or II federal fisheries permitted through the NMFS Southeast Regional office. Fishers who participate in a Category I or II fishery for which registration is not integrated must continue to register as specified in the List of Fisheries.

ADDRESSES: For east coast fisheries, registration information and marine mammal injury/mortality reporting forms may be obtained from the following regional offices:

NMFS, Northeast Region, Protected Resources Division, One Blackburn Drive, Gloucester, MA 01930-2298, Attn: Marcia Hobbs.

NMFS, Southeast Region, 9721 Executive Center Drive North, St. Petersburg, FL 33702, Attn: Teletha Griffin.

FOR FURTHER INFORMATION CONTACT: Patricia Lawson, Office of Protected Resources, 301-713-2322; Marcia Hobbs, Northeast Regional Office, 978-281-9328; or Teletha Griffin, Southeast Regional Office, 727-570-5312.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service at 1-800-877-8339 between 8 a.m. and 4 p.m. Eastern time, Monday through Friday, excluding Federal holidays.

SUPPLEMENTARY INFORMATION:**Background**

According to the Marine Mammal Protection Act (MMPA), all fishers who participate in a Category I or II fishery as provided in the List of Fisheries (67 FR 2410, January 17, 2002) must be registered in the MMAP. The MMAP provides an authorization for commercial fishers which allows the incidental (i.e., non-intentional) taking of marine mammals pursuant to the MMPA during the course of commercial fishing operations. To qualify for this authorization, fishers who participate in a Category I or II fishery must register in the MMAP. (For a complete description of requirements for Category I and II fisheries, consult 50 CFR 229.4). A complete description of the purpose and history of the MMAP integration process can be found in 67 FR 42237 (June 21, 2002).

The goals of the expanded integration program include assuring consistency in registration procedures across a greater number of fisheries, increasing the number of registrants to better reflect the level of participation in the fisheries for monitoring purposes, and conducting outreach to the fishing industry with regard to MMPA requirements. By using data from existing fishery licensing programs, the MMAP integration will reduce the registration burden on the fishing industry while better facilitating the protection and conservation of marine mammals. In a licensing system that is integrated with the MMAP, fishers will no longer have to submit an MMAP registration form, current fishery permit holders registration form, renewal form, or processing fee to NMFS in order to receive or validate their MMAP Authorization Certificates.

NMFS is pursuing the integration of MMAP registration based on the fishery listings in the 2002 LOF. Southeast fisheries permitted through the Southeast Regional Federal Permits office which will be integrated include Coastal Migratory Pelagics, Rock Shrimp, Shark, Snapper-Grouper, High Seas, and Swordfish. Of those fisheries, only those permit holders who indicated use of gear types that fall within the 2002 LOF will be integrated. These gear types include portions of the gillnet, longline, and trawl fisheries.

A database has been established to query the license-holder information from the Federal permit database. Using this information, NMFS will mail MMAP Authorization Certificates and marine mammal injury/mortality reporting forms to each permit or license-holder. The certificates will

provide an MMAP authorization for all fishers who participate in an integrated Category I or II fishery, provided that the fisher holds a valid Federal fishing permit or license for the affected regulated fishery.

A fisher who participates in state and/or Federal fisheries not yet integrated with the MMAP registration system must continue to send in the registration form to NMFS.

Dated: December 16, 2002.

Rebecca Lent,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

DEPARTMENT OF ENERGY

National Nuclear Security Administration

Record of Decision for the Final Environmental Impact Statement for the Relocation of Technical Area 18 Capabilities and Materials at the Los Alamos National Laboratory

AGENCY: Department of Energy, National Nuclear Security Administration.

ACTION: Record of Decision.

SUMMARY: The Department of Energy's (DOE) National Nuclear Security Administration (NNSA) is issuing this Record of Decision on the proposed relocation of Technical Area 18 (TA-18) capabilities and materials at the Los Alamos National Laboratory in the State of New Mexico. This Record of Decision is based on the information and analysis contained in the TA-18 Relocation

Environmental Impact Statement (DOE/EIS-319), and other factors, such as programmatic and technical risk, construction requirements, and cost. NNSA has decided to implement the Preferred Alternative, which would relocate Security Category I/II missions and related materials to the Device Assembly Facility at the Nevada Test Site. This alternative includes facility modification and transportation of special nuclear materials and equipment required to support Security Category I/II missions. Regarding Security Category III/IV alternatives, NNSA has determined that additional studies are required and thus is not making a decision on this set of missions.

FOR FURTHER INFORMATION CONTACT: For further information on the TA-18 Relocation EIS or Record of Decision, or to receive a copy of the TA-18 Relocation EIS, contact: James J. Rose, Document Manager, National Nuclear Security Administration (NA-53), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-5484. For information on the DOE National Environmental Policy Act (NEPA) process, contact: Carol M. Borgstrom, Director, Office of NEPA Policy and Compliance (EH-42), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, (205) 586-4600, or leave a message at (800) 472-2756.

SUPPLEMENTARY INFORMATION:

Background

The DOE's NNSA prepared this Record of Decision pursuant to the regulations of the Council on Environmental Quality for implementing NEPA (40 CFR parts 1500-1508) and DOE's NEPA Implementing Procedures (10 CFR part 1021). This Record of Decision is based, in part, on DOE's TA-18 Relocation EIS (DOE/EIS-319).

NNSA is responsible for providing the Nation with nuclear weapons, ensuring the safety and reliability of those nuclear weapons, and supporting programs that reduce global proliferation. These missions are accomplished with a core team of highly trained nuclear experts. One of the major training facilities for those personnel is located at Technical Area 18 (TA-18) within the Los Alamos National Laboratory (LANL), Los Alamos, New Mexico. The operations at TA-18 enable DOE and other government personnel to gain knowledge and expertise in advanced nuclear technologies that support the following: (1) Nuclear materials
