

application. If such information is provided, the Department will require end-use certification only for the product(s) (or specification(s)) for which evidence is provided that such products are being used in a covered application as described above. For example, if, based on evidence provided by petitioner, the Department finds a reasonable basis to believe or suspect that seamless pipe produced to the A-335 specification is being used in an A-106 application, it will require end-use certifications for imports of that specification. Normally the Department will require only the importer of record to certify to the end-use of the imported merchandise. If it later proves necessary for adequate implementation, the Department may also require producers who export such products to the United States to provide such certification on invoices accompanying shipments to the United States.

Although the HTSUS subheadings are provided for convenience and U.S. Customs Service ("Customs") purposes, the written description of the merchandise subject to this scope is dispositive.

Rescission of First Administrative Review

We provided interested parties with an opportunity to comment on the preliminary results. As noted above, however, we received no comments from any party. As discussed in detail in the preliminary results, because TAMSA made no entries, exports or sales of the subject merchandise to the U.S. during the POR, we determined that it was a non-shipper. In accordance with 19 CFR 351.213(d)(3) and consistent with Department practice, we are rescinding our review of TAMSA (see, e.g., *Certain Non-Frozen Apple Juice Concentrate from the People's Republic of China: Final Results of 1999-2001 Administrative Review and Partial Rescission of Review*, 67 FR 68987 (November 14, 2002); see also, *Frozen Concentrated Orange Juice From Brazil: Final Results and Partial Rescission of Antidumping Duty Administrative Review*, 67 FR 40913 (June 14, 2002)).

This notice also serves as a reminder to parties subject to an administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations

and the terms of an APO are sanctionable violations.

This determination is issued and published pursuant to sections 751(a) and 777(i) of the Act.

Dated: December 24, 2002.

Holly A. Kuga,

Acting Deputy Assistant Secretary for Import Administration.
