

II. Comments

The agency is soliciting public comment, but is implementing this guidance immediately because the agency has determined that prior public participation is not feasible or appropriate. FDA made this determination because vaccination programs may start soon, and blood establishments need to clarify the suitability of donors who have been recently vaccinated or who have been infected through close contact with a recently vaccinated person. Interested persons may submit to the Dockets Management Branch (see **ADDRESSES**) written or electronic comments regarding this guidance document. Two copies of any comments are to be submitted, except individuals may submit one copy. Comments should be identified with the docket number found in the brackets in the heading of this document. A copy of the document and received comments are available for public examination in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Health Resources and Services Administration (HRSA) publishes abstracts of information collection requests under review by the Office of Management and Budget (OMB), in compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35). To request a copy of the clearance requests submitted to OMB for review, call the HRSA Reports Clearance Office on (301) 443-1129.

The following request has been submitted to the Office of Management

and Budget for review under the Paperwork Reduction Act of 1995:

Proposed Project: Emergency Medical Services for Children (EMSC) Grantee Survey—NEW

HRSA is planning to conduct a needs assessment to obtain information about the characteristics of State EMS systems, and the degree to which they have been adapted to address the needs of children. The results of this assessment will be used to determine funding priorities, including development of appropriate guidelines and provision of technical assistance to States, demonstration grants, information collection and sharing among State agencies, and training programs for health professionals.

HRSA has included national performance measures for EMSC in this survey in accordance with the requirements of the "Government Performance and Results Act (GPRA) of 1993" (Pub. L. 103-62). This act requires the establishment of measurable goals for Federal programs that can be reported as part of the budgetary process, thus linking funding decisions with performance.

The estimated response burden is as follows:

Collection activity	Number of respondents	Responses per respondent	Total responses	Average time per response	Total burden hours
Questionnaire	56	1	56	10	560

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: John Morrall, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: December 27, 2002.
Jon L. Nelson,
Associate Administrator for Management and Program Support.
