SUPPLEMENTARY INFORMATION:

History

On November 1, 2002, a notice proposing to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by establishing Class E airspace extending upward from 700 feet above the surface within a 6-mile radius of Crisfield Municipal Airport, Crisfield, MD was published in the **Federal Register** (67 FR 66592–66593). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA on or before December 2, 2003. No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace area designations for airspace extending upward from the surface of the earth are published in paragraph 6005 of FAA Order 7400.9K, dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR

71.1. The Class E airspace designation listed in this document will be published in the Order.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR part 71) provides controlled Class E airspace extending upward from 700 feet above the surface for aircraft conducting IFR operations within a 6-mile radius of Crisfield Municipal Airport, Crisfield, MD.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Amendment of Class E Airspace; Philadelphia, PA

AGENCY: Federal Aviation Administration [FAA] DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace at Philadelphia, PA. The proliferation of airports within a thirty mile radius of Philadelphia International Airport with approved Instrument Flight Rules (IFR) operations and the resulting overlap of designated Class E-5 airspace has made this action necessary. This action consolidates the Class E-5 airspace designations for twenty six airports and results in the rescission of fourteen separate Class E-5 descriptions through separate rulemaking action. The area will be depicted on aeronautical charts for pilot reference.

EFFECTIVE DATE: 0901 UTC March 20, 2003.
