ENVIRONMENTAL PROTECTION AGENCY

[OPPT-2002-0080; FRL-7282-8]

Lead-Based Paint Activities; State of North Dakota Lead-Based Paint Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; requests for comments and opportunity for public hearing.

SUMMARY: On October 4, 2002, EPA received an application from the State of North Dakota requesting authorization to administer a Program in accordance with section 402 of the Toxic Substances Control Act (TSCA). Included in the application was a letter signed September 26, 2002, by the Governor of North Dakota, stating that the State's Lead-Based Paint Abatement Program is at least as protective of human health and the environment as the Federal program under TSCA section 402. Also, included was a letter from the Attorney General of North Dakota, certifying that the laws and regulations of the State provided adequate legal authority to administer and enforce TSCA section 402. North Dakota certifies that its program meets the requirements for approval of a State program under section 404 of TSCA and that North Dakota has the legal authority and ability to implement the appropriate elements necessary to enforce the program. Therefore, pursuant to section 404, the program is deemed authorized as of the date of submission. If EPA finds that the program does not meet the requirements for approval of a State program, EPA will disapprove the program, at which time a notice will be issued in the **Federal Register** and the Federal program will be established. Today's notice announces the receipt of North Dakota's application, provides a 45-day public comment period, and an opportunity to request a public hearing on the application.

DATES: Comments on the application must be received on or before February 24, 2003.

ADDRESSES: Submit all written comments and/or requests for a public hearing identified by docket ID number 2002-0080 (in duplicate) to: Amanda Hasty, Environmental Protection Agency, Region VIII, 8P-P3T, 999 18th St., Suite 300, Denver, CO 80202-2466.

Comments, data, and requests for a public hearing may also be submitted electronically to: hasty.amanda@epa.gov. Follow the instructions under Unit V. of this

document. No information claimed to be Confidential Business Information (CBI) should be submitted through e-mail.

SUPPLEMENTARY INFORMATION:

I. General

A. Does this Notice Apply to Me?

This notice is directed to the public in general. This notice may, however, be of interest to firms and individuals engaged in lead-based paint activities in North Dakota. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by the notice. If you have any questions regarding the applicability of this notice to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What is the Agency's Authority for Taking this Action?

On October 28, 1992, the Housing and Community Development Act of 1992, Public Law 102-550, became law. Title X of that statute was the Residential Lead-Based Paint Hazard Reduction Act of 1992. The Act amended TSCA (15 U.S.C. 2601 *et seq.*) by adding Title IV (15 U.S.C. 2681-92), titled "Lead Exposure Reduction."

Section 402 of TSCA (15 U.S.C. 2682) authorizes and directs EPA to promulgate final regulations governing lead-based paint activities in target housing, public and commercial buildings, bridges and other structures. On August 29, 1996 (61 FR 45777) (FRL-5389-9), EPA promulgated final TSCA section 402/404 regulations governing lead-based paint activities in target housing and child-occupied facilities (a subset of public buildings). These regulations are to ensure that individuals engaged in such activities are properly trained, that training programs are accredited, and that individuals engaged in these activities are certified and follow documented work practice standards. Under section 404 (15 U.S.C. 2684), a State or Indian Tribe may seek authorization from EPA to administer and enforce its own lead-based paint activities program.

States and Tribes that choose to apply for program authorization must submit a complete application to the appropriate Regional EPA Office for review. EPA will review those applications within 180 days of receipt of the complete application. To receive
