

of Reclamation, the U.S. Army Corps of Engineers, and Bonneville Power Administration for the operation of the Federal Columbia River Power System. The BIOP included a Reasonable and Prudent Alternative (RPA), of which action 31 advised Reclamation to "assess the likely environmental effects of operation of Banks Lake up to 10 feet down from full pool during August."

Reclamation proposes to complete RPA action 31 by preparing the Banks Lake Drawdown draft Environmental Impact Statement to describe and analyze the environmental effects of lowering the August surface elevation of Banks Lake to elevation 1560 feet, which is 10 feet below full pool.
