

law. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety. The draft IAP/EIS will be available in either hard copy or on compact disk at the Alaska State Office, Public Information Center at 222 West 7th Avenue, Anchorage, Alaska 99513-7599. Copies of the draft IAP/EIS will also be available for public review at the following locations: Tuzzy Public Library, Barrow, Alaska; City of Nuiqsut, Nuiqsut, Alaska; City of Atkasuk, Atkasuk, Alaska; City of Anaktuvuk Pass, Anaktuvuk Pass, Alaska; City of Wainwright, Wainwright, Alaska; and City of Point Lay, Point Lay, Alaska. The entire document can also be reviewed at the project Web site at <http://www.ak.blm.gov/nwnpra>.

**DATES:** Written comments on the draft IAP/EIS will be accepted for 60 days following the date the Environmental Protection Agency publishes the Notice of Availability in the **Federal Register**. Future meetings or hearings and any other public involvement activities will be announced at least 15 days in advance through public notices, media news releases, and/or mailings. The BLM currently plans to hold meetings and hearings in Nuiqsut, Atkasuk, Barrow, Wainwright, Point Lay, Fairbanks, and Anchorage.

**FOR FURTHER INFORMATION CONTACT:** Curt Wilson, BLM Alaska State Office, 907-271-5546 or Mike Kleven, BLM Northern Field Office, 907-474-2317.

**SUPPLEMENTARY INFORMATION:** Authority for developing this document is derived from the Federal Land Policy and Management Act, the Naval Petroleum Reserves Production Act of 1976, as amended, and the National Environmental Policy Act (NEPA). In recent years, oil and gas development has gradually moved east from the original find at Prudhoe Bay. By the late 1990's, there was a developable field at Alpine just to the east of the of NPR-A. In 1998, responding to interest from industry, the State of Alaska and the North Slope Borough, the BLM developed the Northeast NPR-A IAP/EIS which authorized a leasing program within the northeastern part of the Reserve.

The document determined where and under what conditions a leasing program could occur. Since that time, two lease sales have been conducted. The first was held in May 1999 and 867,721 acres were leased bringing in \$104.6 million. A second lease sale was

held in June 2002 and 579,269 acres were leased for a total of \$63.8 million. This level of interest, and the fact that industry has announced the discovery of oil in three test wells within the leased area, has stimulated interest in expanding exploration to the area covered by this draft IAP/EIA. President Bush responded to this interest by identifying the area as having a high priority in his energy plan. Should the BLM undertake leasing in the Northwest NPR-A, this IAP/EIS will form the basic NEPA documentation to authorize this leasing, and it will determine those lands that are available and those that are unavailable for leasing.

Public participation has occurred throughout the period since the Notice of Intent to Prepare an EIS was published in November 2001. Scoping meetings were held in Nuiqsut, Atkasuk, Barrow, Wainwright, Point Lay, Fairbanks, and Anchorage. The planning area provides particularly important habitat for caribou, waterfowl, and other species. Many of the local residents of the area rely on harvesting these resources for subsistence purposes. Ensuring adequate protection of these resources has been one of the main focuses of public discussion in scoping meetings. The BLM has worked very closely with the North Slope Borough and the State of Alaska in developing this draft IAP/EIS. The Mineral Management Service of the Department of the Interior has also assisted the BLM in developing the document.

Dated: November 22, 2002.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[MT-029-03-1310-DT CBMP]

#### **Notice of Availability of the Montana Statewide Oil and Gas Final Environmental Impact Statement and Proposed Amendment to the Powder River and Billings Resource Management Plans (RMPs); Montana**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Availability.

**SUMMARY:** In accordance with the Federal Land Policy and Management Act, the National Environmental Policy Act, and the Montana Environmental Policy Act, the Bureau of Land

Management (BLM) has jointly prepared a Final Environmental Impact Statement (EIS) and proposed Resource Management Plan (RMP) Amendment with the State of Montana (State). The planning area includes oil and gas estate administered by BLM in the Powder River and Billings RMP areas. The Powder River RMP area encompasses the southeastern portion of Montana consisting of Treasure and Powder River Counties, and portions of Rosebud, Big Horn, Carter, and Custer Counties. There are approximately 2,522,950 BLM-administered oil and gas acres in the Powder River RMP area. The Billings RMP area encompasses the south-central portion of Montana consisting of Wheatland, Golden Valley, Musselshell, Sweet Grass, Stillwater, Yellowstone, and Carbon Counties, and the remaining portion of Big Horn County. There are approximately 662,066 BLM-administered oil and gas acres in the Billings RMP area. The BLM-administered oil and gas acreage in Blaine, Park, and Gallatin Counties is not part of the BLM planning effort. The State's planning area is statewide.

**DATES:** The FEIS and Proposed Plan Amendment will be available for review for 30 calendar days from the Date the Environmental Protection Agency (EPA) publishes its NOA in the **Federal Register**. In addition, the 30-day protest period on the Final EIS and proposed Amendment will begin at that time. To be considered, the protest must be postmarked no later than the last day of the 30-day protest period and sent according to the instructions provided in the **ADDRESSES** section of this notice. Although not a requirement, sending a protest by certified mail, return receipt requested, is recommended.

The State of Montana Board of Oil and Gas Conservation (Board) will hold a public hearing on the Final EIS. Future meetings or hearings and any other public involvement activities will be announced in 15 days in advance through public notices, media news releases, mailings, and/or through the Board Web site at <http://www.bogc.dnrc.state.mt.us>. Following the public hearing, the Board will issue its Record of Decision.

Public Participation: The draft EIS and proposed RMP Amendment were available for public review from February 15, 2002, to May 15, 2002. Written comments were received from agencies, organizations, and individuals. All comments were considered during the preparation of the Final EIS and proposed RMP amendment. Reading copies will be available at local public libraries. Public

reading copies will also be available at the following Bureau of Land Management locations: Office of External Affairs, Main Interior Building, Room 6214, 18th and C Streets NW, Washington, DC 20240; External Affairs Office; Montana State Office, 5001 Southgate Drive, Billings, MT 59107; Miles City Field Office, 111 Garryowen Road, Miles City, MT 59301.

The BLM RMP process includes an opportunity for review of BLM's proposed decisions by filing a plan protest with the BLM's Director. Any person or organization that participated in the planning process and has an interest which is, or may be, adversely affected by approval of this proposed Plan Amendment may protest the plan. Careful adherence to the following guidelines will assist in preparing a protest:

Only those persons or organizations that participated in the planning process may protest. A protesting party may raise only those issues that were commented on during the planning process. However, additional issues may be raised at any time and should be directed to the Miles City Field Office for consideration in plan implementation as potential plan amendments or as otherwise appropriate. In order to be considered complete, a protest must contain at a minimum, the following information:

- Name, mailing address, telephone number, and interest of the person filing the protest
- Statement of the issue being protested
- Statement of the portion of the plan being protested

To the extent possible, this should be done by reference to specific pages, paragraphs, sections, tables, and maps in the Final EIS and proposed Amendment. A copy of all documents addressing the issue submitted during the planning process or a reference to the date the issue was discussed for the record. A concise statement explaining why the BLM State Director's decision is believed to be incorrect is a critical part of the protest. It is important to take care to document all relevant facts and reference or cite the planning documents, environmental analysis documents, and available planning records (meeting minutes, summaries, correspondence). A protest without any supporting data will not provide the BLM with sufficient information to assess the protest, and therefore, the Director's review will be based on existing analysis and supporting data.

**ADDRESSES:** All protests on BLM's proposed decisions must be filed in

writing to: (Regular Mail) Director, Bureau of Land Management, Attention: Ms. Brenda Williams, Protest Coordinator, PO Box 66538, Washington DC 20035; or (Overnight Mail) Director, Bureau of Land Management, Attention: Ms. Brenda Williams, Protest Coordinator, 1620 L Street, NW., Room 1075, Washington, DC 20036.

**SUPPLEMENTARY INFORMATION:** The Final EIS and proposed plan amendments are a joint effort between the BLM and the State of Montana. They are being prepared to analyze impacts to lands and resources as a result of proposed oil and gas development, primarily coal bed methane. The current Powder River and Billings RMPs, as amended by BLM's 1994 Oil and Gas Amendment of the Billings, Powder River, and South Dakota RMPs, support limited conventional oil and gas development and limited coal bed methane exploration and production. About 9,500 conventional oil and gas wells (all ownership categories) are located in the planning area. The Final EIS indicates that the 20-year expansion in development could result in the drilling of up to 26,000 coalbed methane wells (8,500 to 16,400 of which are expected to be producing wells) and 450 to 1,775 conventional oil and gas wells within the Billings and Powder River RMP areas.

The Final EIS and proposed amendments are being prepared to analyze this increased interest in oil and gas activity. The five alternatives developed by BLM and the State present a range of management scenarios to address the issues: Alternative A—existing management (No Action); Alternative B—emphasize soil, water, air, vegetation, wildlife, and cultural resources protection; Alternative C—emphasize coal bed methane development; Alternative D—encourage coal bed methane exploration and development while maintaining existing land uses; and Alternative E—the BLM and State Preferred Alternative, which combines features of Alternatives B through D and manages development of CBM in an environmentally sound manner. The Final EIS discloses the environmental consequences of each alternative.

A copy of the Final EIS and proposed Amendment has been sent to all individuals, agencies, and groups who have expressed interest or as required by regulation or policy. Copies are also available upon request from the BLM at the address listed above.

Four designated cooperating agencies helped BLM and the State prepare the EIS: the Bureau of Indian Affairs, the

United States Department of Energy, the Crow Tribe, and the United States Environmental Protection Agency. Consultation with both the Crow and Northern Cheyenne tribes has taken place throughout the process to gather their input and concerns. Consultation with FWS has occurred, and the BLM has also met with individuals from the general public, special interest groups, industry, and local governments upon their request. The Northern Cheyenne Tribe has declined to become a cooperating agency, but was invited by BLM to participate in all cooperating agency activities.

The BLM and the State conducted public hearings across Montana on the Draft EIS and Amendment. The time and locations of the hearings were announced in local news releases.

**FOR FURTHER INFORMATION CONTACT:** Mary Bloom, Coal Bed Methane Program Manager, Bureau of Land Management, 111 Garryowen Road, Miles City, MT 59301, (406) 233-3649.

Dated: December 17, 2002.

#### Notice of Availability of the Final Environmental Impact Statement for the Powder River Basin Oil and Gas Project and Proposed Resource Management Plan Amendments; Johnson, Sheridan, Campbell, and Converse Counties, WY

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Availability (NOA) of Final Environmental Impact Statement (FEIS), and Proposed Resource Management Plan (RMP) Amendments.

**SUMMARY:** The Bureau of Land Management (BLM) announces the availability of the FEIS for the Powder River Basin Oil and Gas Project and Proposed Plan Amendments to the Buffalo RMP (1985), Platte River RMP (1985) and Thunder Basin National Land and Resource Management Plan (LRMP) (Forest Service 2002). The FEIS documents the direct, indirect, and cumulative environmental impacts from the development of oil and gas resources within the project area in Sheridan, Campbell, Johnson, and Converse Counties, Wyoming. The FEIS
