

reading copies will also be available at the following Bureau of Land Management locations: Office of External Affairs, Main Interior Building, Room 6214, 18th and C Streets NW, Washington, DC 20240; External Affairs Office; Montana State Office, 5001 Southgate Drive, Billings, MT 59107; Miles City Field Office, 111 Garryowen Road, Miles City, MT 59301.

The BLM RMP process includes an opportunity for review of BLM's proposed decisions by filing a plan protest with the BLM's Director. Any person or organization that participated in the planning process and has an interest which is, or may be, adversely affected by approval of this proposed Plan Amendment may protest the plan. Careful adherence to the following guidelines will assist in preparing a protest:

Only those persons or organizations that participated in the planning process may protest. A protesting party may raise only those issues that were commented on during the planning process. However, additional issues may be raised at any time and should be directed to the Miles City Field Office for consideration in plan implementation as potential plan amendments or as otherwise appropriate. In order to be considered complete, a protest must contain at a minimum, the following information:

- Name, mailing address, telephone number, and interest of the person filing the protest
- Statement of the issue being protested
- Statement of the portion of the plan being protested

To the extent possible, this should be done by reference to specific pages, paragraphs, sections, tables, and maps in the Final EIS and proposed Amendment. A copy of all documents addressing the issue submitted during the planning process or a reference to the date the issue was discussed for the record. A concise statement explaining why the BLM State Director's decision is believed to be incorrect is a critical part of the protest. It is important to take care to document all relevant facts and reference or cite the planning documents, environmental analysis documents, and available planning records (meeting minutes, summaries, correspondence). A protest without any supporting data will not provide the BLM with sufficient information to assess the protest, and therefore, the Director's review will be based on existing analysis and supporting data.

**ADDRESSES:** All protests on BLM's proposed decisions must be filed in

writing to: (Regular Mail) Director, Bureau of Land Management, Attention: Ms. Brenda Williams, Protest Coordinator, PO Box 66538, Washington DC 20035; or (Overnight Mail) Director, Bureau of Land Management, Attention: Ms. Brenda Williams, Protest Coordinator, 1620 L Street, NW., Room 1075, Washington, DC 20036.

**SUPPLEMENTARY INFORMATION:** The Final EIS and proposed plan amendments are a joint effort between the BLM and the State of Montana. They are being prepared to analyze impacts to lands and resources as a result of proposed oil and gas development, primarily coal bed methane. The current Powder River and Billings RMPs, as amended by BLM's 1994 Oil and Gas Amendment of the Billings, Powder River, and South Dakota RMPs, support limited conventional oil and gas development and limited coal bed methane exploration and production. About 9,500 conventional oil and gas wells (all ownership categories) are located in the planning area. The Final EIS indicates that the 20-year expansion in development could result in the drilling of up to 26,000 coalbed methane wells (8,500 to 16,400 of which are expected to be producing wells) and 450 to 1,775 conventional oil and gas wells within the Billings and Powder River RMP areas.

The Final EIS and proposed amendments are being prepared to analyze this increased interest in oil and gas activity. The five alternatives developed by BLM and the State present a range of management scenarios to address the issues: Alternative A—existing management (No Action); Alternative B—emphasize soil, water, air, vegetation, wildlife, and cultural resources protection; Alternative C—emphasize coal bed methane development; Alternative D—encourage coal bed methane exploration and development while maintaining existing land uses; and Alternative E—the BLM and State Preferred Alternative, which combines features of Alternatives B through D and manages development of CBM in an environmentally sound manner. The Final EIS discloses the environmental consequences of each alternative.

A copy of the Final EIS and proposed Amendment has been sent to all individuals, agencies, and groups who have expressed interest or as required by regulation or policy. Copies are also available upon request from the BLM at the address listed above.

Four designated cooperating agencies helped BLM and the State prepare the EIS: the Bureau of Indian Affairs, the

United States Department of Energy, the Crow Tribe, and the United States Environmental Protection Agency. Consultation with both the Crow and Northern Cheyenne tribes has taken place throughout the process to gather their input and concerns. Consultation with FWS has occurred, and the BLM has also met with individuals from the general public, special interest groups, industry, and local governments upon their request. The Northern Cheyenne Tribe has declined to become a cooperating agency, but was invited by BLM to participate in all cooperating agency activities.

The BLM and the State conducted public hearings across Montana on the Draft EIS and Amendment. The time and locations of the hearings were announced in local news releases.

**FOR FURTHER INFORMATION CONTACT:** Mary Bloom, Coal Bed Methane Program Manager, Bureau of Land Management, 111 Garryowen Road, Miles City, MT 59301, (406) 233-3649.

Dated: December 17, 2002.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[WY-090-03-1610-DQ]

#### Notice of Availability of the Final Environmental Impact Statement for the Powder River Basin Oil and Gas Project and Proposed Resource Management Plan Amendments; Johnson, Sheridan, Campbell, and Converse Counties, WY

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Availability (NOA) of Final Environmental Impact Statement (FEIS), and Proposed Resource Management Plan (RMP) Amendments.

**SUMMARY:** The Bureau of Land Management (BLM) announces the availability of the FEIS for the Powder River Basin Oil and Gas Project and Proposed Plan Amendments to the Buffalo RMP (1985), Platte River RMP (1985) and Thunder Basin National Land and Resource Management Plan (LRMP) (Forest Service 2002). The FEIS documents the direct, indirect, and cumulative environmental impacts from the development of oil and gas resources within the project area in Sheridan, Campbell, Johnson, and Converse Counties, Wyoming. The FEIS

describes and analyzes options for developing oil and gas resources while providing protection to other land uses and resource values. The Forest Service and the State of Wyoming (Wyoming Department of Environmental Quality) are cooperating agencies.

**DATES:** The Powder River Basin Oil and Gas Project FEIS and Proposed Plan Amendments will be available for review for 30 calendar days from the date the Environmental Protection Agency (EPA) publishes its NOA in the **Federal Register**. Comments on the Powder River Basin Oil and Gas Project FEIS (PRB EIS) must be filed within the 30-day review period. Under the provisions of 43 Code of Federal Regulations (CFR) § 1610.5 protests of proposed BLM RMP amendments must be filed with the Director in accordance with the instructions described in the FEIS and included in the Supplemental Information section of this notice. Protest of the proposed amendments to the Buffalo and Platte River RMPs will be accepted no later than 30 calendar days from the date the EPA publishes its NOA in the **Federal Register**. The Forest Service would amend the Thunder Basin National LRMP under its land and resources management planning processes and authorities.

**ADDRESSES:** A copy of the FEIS has been sent to affected Federal, State, and local government agencies and to interested parties. The document will be available electronically on the following Web site: <http://www.prb-eis.org>. Copies of the FEIS are available for public inspection at the following BLM office locations:

- Bureau of Land Management, Wyoming State Office, 5353 Yellowstone Road, Cheyenne, Wyoming 82003

- Bureau of Land Management, Buffalo Field Office, 1425 Fort Street, Buffalo, Wyoming 82834

- Bureau of Land Management, Casper Field Office, 2987 Prospector Drive, Casper, Wyoming 82604–2968

**FOR FURTHER INFORMATION:** Contact Mr. Paul Beels, Project Manager, 1425 Fort Street, Buffalo, WY 82834, or [paul\\_beels@blm.gov](mailto:paul_beels@blm.gov). Mr. Beels may also be reached at 307–684–1168.

**SUPPLEMENTARY INFORMATION:** The FEIS analyzes a proposal by companies to drill and develop additional oil and gas resources, including coalbed methane (CBM), in Wyoming's Powder River Basin. Oil and gas development activities would include drilling, operating, and reclaiming almost 39,400 new CBM wells and 3,000 oil and gas wells; and constructing, operating, and reclaiming various ancillary facilities needed to support the new wells.

Drilling would begin in 2003 and continue for 10 years.

The project area includes almost 8,000,000 acres in northeastern Wyoming, encompassing all of Johnson and Sheridan Counties except the Bighorn National Forest System lands, all of Campbell County and the northern portion of Converse County. The public lands and Federal mineral resources analyzed include all of those administered by the BLM Buffalo Field Office (FO) and a small portion that is administered by the Casper FO. The mineral resources analyzed also include the Federal oil and gas underlying the National Forest System lands and surface resources (Thunder Basin National Grassland) administered by the USDA Forest Service.

The FEIS describes the physical, biological, cultural, historic, and socioeconomic resources in and surrounding the project area. The focus for impact analysis was based upon resource issues and concerns identified during the public scoping process. Potential impacts of concern from development (not in priority order), are: economic, social, health and safety effects on the communities of Buffalo, Sheridan, and Gillette, Wyoming, and other surrounding communities; crucial elk winter range; sage grouse and raptor breeding and nesting; soil erosion; air quality effects; groundwater draw down and contamination; surface water quality; historic Bozeman Trail condition and its viewshed; and cumulative effects. The primary issues driving alternative development are water quality and quantity and air quality.

Three alternatives were analyzed in detail: (1) Proposed Action, (2) Proposed Action with Reduced Emission Levels and Expanded Produced Water Handling Scenarios, and (3) No Action. Alternative 1 consisted of a combination of the CBM development proposal submitted by the oil and gas companies and non-CBM oil and gas development possibilities described in BLM's Reasonable Foreseeable Development (RFD) scenario. Alternative 2 was developed in response to issues raised during the public and agency scoping process. This alternative, which consists of Alternatives "2A" and "2B", would replace some of the proposed gas-fired compressors with electrical compressors and would involve a more limited amount of water that would be discharged directly to the watersheds. As required by National Environmental Policy Act (NEPA), the No Action alternative is a basis for comparison with other alternatives analyzed in the EIS. For this project, the No Action

Alternative would not authorize additional development of oil and gas on Federal leases within the Project Area. Drilling would continue on State and private leases, irrespective of the decisions resulting from this document.

**Agency-Preferred Alternative:** BLM's preferred alternative is a combination of Alternative 2A and Alternative 1. The Preferred Alternative includes the use of natural gas powered compressors but does not preclude the use of electric powered compressor stations, as outlined in Alternative 1. All other parts of the Preferred Alternative are as outlined in Alternative 2A. The Preferred Alternative allows the Wyoming DEQ maximum flexibility to comply with applicable national and state air and water quality standards.

**Proposed Land Use Plan Amendments:** The BLM RMPs would be amended to allow oil and gas exploration and development at the level analyzed in the FEIS and to adopt new conditions of use. In addition, the FEIS updates the NEPA analysis for the RMPs for management of oil and gas exploration and development on federal leases.

For the U.S. Forest Service, the FEIS will be used to allow oil and gas exploration and development at the level analyzed in the FEIS, update the NEPA analysis for the LRMP and adopt the 2002 LRMP stipulations for the area west of the coal outcrop line.

The Proposed Plan Amendments do not include changes to the leasing allocation decisions, as the FEIS does not address leasing.

RMP amendments would provide complete and concise descriptions of applicable management practices for oil and gas development.

The DEIS was available for public review and comment from January 18, 2002, through May 15, 2002. The distribution list included the agencies, companies, organizations, and individuals that had expressed an interest in the project during scoping. The list included several Federal and State agencies and elected officials to whom BLM commonly sends EISs. During this period, the BLM encouraged reviewers to submit written comments on the DEIS. In addition, the BLM held public meetings on the DEIS on March 18–21, 2002, to provide the public with the opportunity to submit oral and written comments. All comments presented throughout the process have been considered.

Ultimately, the BLM State Director's decision whether to adopt the proposed RMP amendment will be documented in a Record of Decision and issued under the authority of the Federal Land Policy

and Management Act as codified at 43 CFR part 1610. If adopted, these proposed RMP amendments do not constitute authorization to the oil and gas companies to implement projects nor engage in any ground-disturbing activities. Decisions regarding these site-specific implementation activities are subject to further NEPA analysis and appeal, as provided by applicable regulations.

**Protest Instructions:** Publication of this EIS prepared for a RMP amendment affords the public the opportunity to protest. Instructions for filing a protest with the Director of the BLM regarding the State Director's proposed amendments to the Buffalo and Platte River RMPs may be found at 43 CFR 1610.5. Any person who participated in the planning process and has an interest or may be adversely affected by the approval of the proposed Plan Amendment, may protest such approval. A protest may raise only those issues that were submitted for the record during the planning process. The protest must be in writing and must be filed with the Director. The protest must be filed within 30 days from the date the Environmental Protection Agency publishes the NOA in the **Federal Register**. The protest must contain:

- i. The name, mailing address, telephone number, and interest of the person filing the protest;
- ii. A statement of the issue or issues being protested;
- iii. A statement of the part, or parts, of the plan or amendment being protested;
- iv. A copy of all documents addressing the issue, or issues, that were submitted during the planning process by the protesting party or an indication of the date the issue, or issues, were discussed for the record; and
- v. A concise statement explaining why the State Director's decision is believed to be wrong.

The Director must promptly render a decision on the protest. The decision must be in writing and must set forth the reasons for the decision. The decision must be sent to the protesting party by certified mail, return receipt requested. The decision of the Director must be the final decision for the Department of the Interior.

**Protest Filing Addresses:** Protests submitted electronically will not be accepted. File written protests by: Surface mail: U.S. Department of the Interior, Bureau of Land Management, Director (210), Attn: Ms. Brenda Williams, Protest Coordinator, P.O. Box 66538, Washington DC 20035 or

Overnight mail: U.S. Department of the Interior, Bureau of Land Management, Director, Protest Coordinator (WO-210), 1620 L Street, NW., Room 1075, Washington, DC 20036.

Dated: December 18, 2002.

#### Notice of Resource Advisory Council Meeting

**AGENCY:** Bureau of Land Management, Department of Interior.

**ACTION:** Notice of Utah Resource Advisory Council (RAC) Meeting.

**SUMMARY:** The purpose of this notice is to announce a Resource Advisory Council Meeting scheduled for February 12, 2003, Salt Lake City, Utah.

The Bureau of Land Management's (BLM) Utah Statewide Resource Advisory Council (RAC) will be meeting on February 12, 2003, at the Best Western Salt Lake Plaza Hotel, Salt Lake Conference Room (main level of hotel), 122 West South Temple, (801) 521-0130, Salt Lake City, Utah. The meeting will begin at 8:30 a.m. and conclude at 4 p.m.

Agenda topics include an update on the San Rafael Swell, a report from the Raptor Subgroup, status report on the RMP planning process, an overview of the drought situation, feedback and discussion on the November RAC satellite broadcast, and RAC work plans for the future.

A public comment period is scheduled from 3:30 p.m.-4 p.m. where members of the public may address the Council. Written comments may be mailed to the Bureau of Land Management at the address listed below.

All meetings are open to the public; however, transportation, lodging, and meals are the responsibility of the participating public.

**FOR FURTHER INFORMATION:** Contact Sherry Foot, Special Programs Coordinator, Utah State Office, Bureau of Land Management, 324 South State Street, Salt Lake City, Utah 84111; phone (801) 539-4195.

Dated: January 6, 2003.

#### Colorado: Filing of Plats of Survey

January 6, 2003.

**SUMMARY:** The plats of survey of the following described land will be officially filed in the Colorado State Office, Bureau of Land Management, Lakewood, Colorado, effective 10 a.m., January 6, 2003. All inquiries should be sent to the Colorado State Office, Bureau of Land Management, 2850 Youngfield Street, Lakewood, Colorado 80215-7093.

The plat representing the dependent resurvey and survey in Township 34 North, Range 2 West, New Mexico Principal Meridian, Group 1315, Colorado, was accepted December 10, 2002.

This survey and plat were requested by the Bureau of Indian Affairs for administrative and management purposes.

The plat representing the dependent resurvey and survey in Township 49 North, Range 7 West, New Mexico Principal Meridian, Group 1247, Colorado, was accepted October 31, 2002.

This survey and plat were requested by the National Park Service for administrative and management purposes.

The plat representing the limited corrective dependent resurvey in Township 7 North, Range 70 West, Sixth Principal Meridian, Group 761, Colorado, was accepted October 30, 2002.

The plat representing the dependent resurvey of certain mineral surveys in Township 42 North, Range 7 West, New Mexico Principal Meridian, Group 1333, Colorado, was accepted November 22, 2002.

The plat representing the corrective dependent resurvey in section 21, Township 6 North, Range 70 West, Sixth Principal Meridian, Group 632, Colorado, was accepted December 12, 2002.

The amended field notes, correcting the 1978 descriptions, for the East 1/16 section corner of sections 17 and 20, and the Center West 1/16 section corner of section 19, in T. 6 North, Range 70 West, Sixth Principal Meridian, Group 632, Colorado, was accepted November 21, 2002.

The amended field notes, correcting the 1977 description, for the Center South 1/16 section corner of section 28,
