serve as Reclamation’s RMP for the area. The GP/RMP for Folsom Lake SRA will be a 2-year process. The GP/RMP will guide the long-term management of the SRA including protecting natural and cultural resources, providing for and management of public use and recreation opportunities, and outlining the development of future facilities. The plan update will include direction for the Folsom Powerhouse State Historic Park, a separate park unit that is administered in conjunction with Folsom Lake SRA.

The GP/RMP will guide management decisions and activities by establishing long-term management direction, area-wide goals and objectives, actions necessary to achieve desired future conditions, identification of lands suitable or not suitable for resource use and production, and monitoring and evaluation requirements. The GP/RMP planning process will be an interdisciplinary effort between CDPR, Reclamation, other relevant agencies, stakeholders and the public. The CDPR and Reclamation will work collaboratively with interested parties to identify the management decisions that address local, regional, and national needs and concerns. The public participation process as outlined above will identify planning issues, develop planning criteria, and will include an evaluation of existing CDPR and Reclamation management plans in the context of the needs and interest of the public and the conservation of natural and cultural resources.

Primary issues and management concerns have been identified by CDPR and Reclamation personnel and other agencies. The preliminary issues identified thus far represent the CDPR’s and Reclamation’s knowledge to date on the existing issues and concerns with current management, but are not limited to these. The major issue themes that will be addressed in the plan effort include: assessment of impacts to the unit’s resources from adjacent development and recent road-widening projects; access to and transportation within the park including trails and boat ramp access; recreation/visitor use and safety; management and protection of public land resources; and potential future action including acquisition, and construction of new facilities. The public is encouraged to help identify additional management questions and concerns to be addressed in the plan.

As part of the GP/RMP process, an EIR/EIS will be prepared in compliance with the National Environmental Protection Act (NEPA) and the California Environmental Quality Act (CEQA). The EIR/EIS will evaluate the environmental impacts of the management actions and projects contained in the GP/RMP, as a whole, in a programmatic manner. As the GP/RMP is implemented over time, specific project proposals can tier from the EIR/EIS by further evaluating the details of the specific project through subsequent environmental review. The Draft EIR/EIS is projected to be available for public review for a 45-day early in 2004. Toward the end of the review period, a public hearing will be held in the vicinity of the Folsom Lake SRA to receive public comment on both the GP/RMP and Draft EIR/EIS.

Our practice is to make comments, including names and home addresses of respondents available for public review. Individual respondents may request that we withhold their home addresses from public disclosure, which we will honor to the extent allowable by law. There may also be circumstances in which we would withhold a respondent’s identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Dated: December 20, 2002.
Frank Michny,
Regional Environmental Officer, Mid-Pacific Region.

[FR Doc. 03–1075 Filed 1–16–03; 8:45 am]
environmental resources that may be affected by proposed surface mining activities. The information will be used by the regulatory authority to determine if the applicant can comply with environmental protection performance standards.

Bureau Form Number: None.
Frequency of Collection: Once upon submittal of mining application.
Description of Respondents: Coal mining companies and state regulatory authorities.
Total Annual Responses: 337.
Total Annual Burden Hours: 52,813 hours.

Title: Abandoned Mine Reclamation Fund—Fee Collection and Coal Production Reporting, 30 CFR 870.
OMB Control Number: 1029–0063.
Summary: The information is used to maintain a record of coal produced for sale, transfer, or use nationwide each calendar quarter, the method of coal removal and the type of coal, and the basis for coal tonnage reporting in compliance with 30 CFR 870 and section 401 of Pub. L. 95–87. Individual reclamation fee payment liability is based on this information. Without the collection of information OSM could not implement its regulatory responsibilities and collect the fee.
Bureau Form Number: OSM–1.
Frequency of Collection: Quarterly.
Description of Respondents: Coal mine permittees.
Total Annual Responses: 12,364.
Total Annual Burden Hours: 2,605.

Richard G. Bryson,
Acting Assistant Director, Program Support.

DEPARTMENT OF THE INTERIOR
Office of Surface Mining Reclamation and Enforcement

Notice of Proposed Information Collection

AGENCY: Office of Surface Mining Reclamation and Enforcement.
ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of Surface Mining Reclamation and Enforcement (OSM) is announcing that the information collection request for 30 CFR part 783. Underground Mining Permit Applications—Minimum Requirements for Information on Environmental Resources has been forwarded to the Office of Management and Budget (OMB) for review and comment. The information collection request describes the nature of the information collection and the expected burden and cost.

DATES: OMB has up to 60 days to approve or disapprove the information collections but may respond after 30 days. Therefore, public comments should be submitted to OMB by February 18, 2003, in order to be assured of consideration.

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection request, explanatory information and related form, contact John A. Trelease at (202) 208–2783.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104–13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). OSM has submitted a request to OMB to renew its approval of the collection of information found 30 CFR part 783. Underground Mining Permit Applications—Minimum Requirements for Information on Environmental Resources. OSM is requesting a 3-year term of approval for this information collection activity.

As an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is listed in 30 CFR [part 783, which is 1029–0038. As required under 5 CFR 1320.8(d), a Federal Register notice soliciting comments on these collections of information was published on October 7, 2002 (67 FR 62495). No comments were received. This notice provides the public with an additional 30 days in which to comment.

The following information is provided for the information collection: (1) Title of the information collection; (2) OMB control number; (3) summary of the information collection activity; and (4) frequency of collection, description of the respondents, estimated total annual responses, and the total annual reporting and recordkeeping burden for the collection of information. Where appropriate, OSM has revised burden estimates to reflect current reporting levels and adjustments based on reestimates of the burden or number of respondents.

Title: Underground Mining Permit Applications—Minimum Requirements for Information on Environmental Resources, 30 CFR part 783.
OMB Control Number: 1029–0038.
Summary: Applicants for underground coal mining permits are required to provide adequate descriptions of the environmental resources that may be affected by proposed underground coal mining activities.

Bureau Form Number: None.
Frequency of Collection: Once at time of application submission.
Description of Respondents: Underground coal mining applicants, and State regulatory authorities.
Total Annual Responses: 59.
Total Annual Burden Hours: 25,088 hours.

Send comments on the need for the collection of information for the performance of the functions of the agency; the accuracy of the agency’s burden estimates; ways to enhance the quality, utility and clarity of the information collection; and ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information, to the following address. Please refer to the appropriate OMB control number in all correspondence.

ADDRESSES: Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Department of Interior Desk Officer, 725 17th Street, NW., Washington, DC 20503, and to John A. Trelease, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Ave, NW., Room 210–SIB, Washington, DC 20240.

Dated: December 17, 2002.
Richard G. Bryson,
Acting Assistant Director, Program Support.

DEPARTMENT OF LABOR
Office of the Secretary

Department of Labor’s Fleet Alternative Fuel Vehicle Acquisition

AGENCY: Office of the Secretary, Labor.

SUMMARY: In compliance with the Energy Policy Act of 1992 and Executive Order 13149, this notice announces the availability of the 1999, 2000 and 2001 reports which summarize the U.S. Department of Labor’s (DOL)
