5. Supporting documents (resumes, cooperative research agreements, contracts, etc.).

N. Final Reports

NOAA and the Council will require project researchers to submit semi-annual progress reports and a completion report describing their research project results and other acceptable deliverable(s), in a timeframe that is specific to the type of research conducted. The format of the final report may vary, but must contain:

1. A brief abstract or summary of the project;
2. A description of the issue/problem that was addressed;
3. A detailed description of methods of data collection and analyses;
4. A discussion of results and any relevant conclusions, presented in a format that is understandable to a non-technical audience; this should include benefits and/or contributions to management decision-making;
5. A list of entities, firms or organizations that actually performed the work, and a description of how that was accomplished; and

6. A detailed final accounting of all funds used to conduct sea scallop research, including those provided through the research set-aside. The financial information must be submitted on Office of Management and Budget Standard Form-269. Copies of this Standard Form may be found on the Internet in a PDF version at <http://www.ofa.noaa.gov/~grants/index.html> under the title "Grants Management Forms", or by contacting the NMFS

office (see **FOR FURTHER INFORMATION CONTACT**).

7. Projects designed to collect new data for inclusion in NMFS' or ACCSP's databases must submit the data in electronic format with appropriate documentation. Certain databases will have highly specific requirements as to required fields and content. Applicants must agree to provide newly collected data in a format acceptable to the administrators of the receiving databases.

O. Other Requirements

Evaluations of the impacts of sea scallop research, which involve exemptions to the current fishing regulations, other than those stated in the FMP, will be made by NMFS. Vessels conducting certain types of sea scallop research requiring relief from fishery regulations may be required to obtain an Exempted Fishing Permit (EFP). To apply for an EFP, interested parties must submit an application to NMFS at least 60 days before the effective date of the EFP. Additional time could be necessary for NMFS to make determinations regarding requirements under the National Environmental Policy Act (NEPA) and other applicable laws.

P. Other Requirements of Recipients

The Department of Commerce Pre-Award Notification of Requirements for Grants and Cooperative Agreements contained in the **Federal Register** notice of October 1, 2001 (66 FR 49917), as amended by the **Federal Register** notice published on October 30, 2002 (67 FR 66109), is applicable to this solicitation.

Q. Future Awards

If we select your application to perform sea scallop research to be conducted with the scallop TAC set-aside, we have no obligation to provide any additional TAC set-aside obligations in connection with that award.

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the **Federal Register** of October 29, 2002 (67 FR 65958), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) to announce the agency's intention to seek extension of approval of collections of information in the flammability standards for children's sleepwear and implementing regulations. No comments were received in response to that notice. By publication of this notice, the Commission announces that it has submitted to the Office of Management and Budget (OMB) a request for extension of approval of those collections of information without change for three years from the date of approval.

The standards and regulations are codified as the Flammability Standard for Children's Sleepwear: Sizes 0 Through 6X, 16 CFR part 1615; and the Flammability Standard for Children's Sleepwear: Sizes 7 Through 14, 16 CFR part 1616. The flammability standards and implementing regulations prescribe requirements for testing and recordkeeping by manufacturers and importers of children's sleepwear subject to the standards. The information in the records required by the regulations allows the Commission to determine if items of children's sleepwear comply with the applicable standard. This information also enables the Commission to obtain corrective actions if items of children's sleepwear fail to comply with the applicable standard in a manner which creates a substantial risk of injury.
