

their customers with enhanced access to the ISE.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.⁵ Elimination of the "speed bump" will remove an impediment to trading created only to limit the market risk undertaken by ISE market makers. Additionally, the change should permit faster entry and execution of orders on the Exchange, thereby providing investors with improved services. Therefore, the Commission believes that the proposal is consistent with Section 6(b)(5) of the Act,⁶ which requires, among other things, that the rules of an exchange be designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market, and to protect investors and the public interest.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁷ that the proposed rule change (File No. SR-ISE-2002-27) be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁸

Deputy Secretary.
