Bureau of Reclamation

Intent to Solicit Public Comments on the Adoption of an Interim 602(a) Storage Guideline for Management of the Colorado River and to Initiate a National Environmental Policy Act (NEPA) Process

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice to solicit public comments and initiation of the NEPA process.

SUMMARY: The Secretary of the Department of the Interior (Secretary), acting through the Bureau of Reclamation (Reclamation), is considering the adoption of a specific interim guideline that will assist the Secretary in making a determination of the quantity of water considered necessary as of September 30 of each year, as required by article II (1) of the Criteria for Coordinated Long-Range Operation of Colorado River Reservoirs Pursuant to the Colorado River Basin Project Act of September 30, 1968 (Long-Range Operating Criteria).

DATES: To be most useful, we must receive all comments at the address given below on or before March 14, 2003.

ADDRESSES: You may submit comments to Tom Ryan, Bureau of Reclamation, Upper Colorado Regional Office, 125 South State Street, Salt Lake City, Utah 84138; faxogram (801) 524-5499; e-mail: tryan@uc.usbr.gov.

SUPPLEMENTARY INFORMATION: Each year, the Secretary establishes an Annual Operating Plan (AOP) for the Colorado River reservoirs. The AOP describes how Reclamation will manage the reservoirs over a 12-month period, consistent with the Long-Range Operating Criteria. Pursuant to applicable Federal law, Reclamation consults annually with the Colorado River Basin States, Indian tribes, and others interested parties in the development of the AOP. Further, as part of the AOP, the Secretary makes an annual determination under the Long-Range Operating Criteria regarding the quantity of water considered necessary as of September 30 of each year to be in storage as required by section 602(a)(3) of the Colorado River Basin Project Act (602(a) Storage). This determination is important because when projected storage in the Upper Basin reservoirs is greater than 602(a) Storage, releases from Lake Powell are made according to article II (3) of the Long-Range Operating Criteria and section 602(a)(3).
