Civil Monetary Penalties; Adjustments

AGENCY: Office of the Secretary, Commerce.

ACTION: Final rule.

SUMMARY: This final rule is being issued to adjust civil monetary penalties provided by law within the jurisdiction of the Department of Commerce (the Department). As required by the Federal Civil Penalties Inflation Adjustment Act of 1990, as amended by the Debt Collection Improvement Act of 1996, the Secretary of Commerce adjusted the Department's civil monetary penalties for inflation on October 24, 1996, and subsequently on November 1, 2000. On September 30, 2002, the United States General Accounting Office (GAO) sent the Secretary of Commerce a letter indicating that the Department's November 1, 2000, adjustment was inconsistent with the requirements of

the statute, and recommending corrective action. The purpose of this rule is to bring the Department into compliance with GAO's interpretation of the statute.

DATES: This rule is effective January 29, 2003.

ADDRESSES: Office of Financial Management, Department of Commerce, 14th and Constitution Avenue, MS 6827, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Lisa Casias, 202–482–0766.

SUPPLEMENTARY INFORMATION: The Federal Civil Penalties Inflation Adjustment Act of 1990 (Pub. L. 101–410), provided for the regular evaluation of civil monetary penalties to ensure that they continued to maintain their deterrent value and that penalty amounts due to the Federal Government were properly accounted for and collected. On April 26, 1996, the Federal Civil Penalties Inflation Adjustment Act of 1990 was amended by the Debt Collection Improvement Act of 1996 (Pub. L. 104–134) to require each agency to issue regulations to adjust its civil monetary penalties (CMP) for inflation at least every four years. The amendment further provides that any resulting increases in a CMP due to the inflation adjustment should apply only to the violations that occur subsequent to the date of the publication in the **Federal Register** of the increased amount of the CMP. The first inflation adjustment of any penalty shall not exceed ten percent of such penalty.

The amount of CMP adjustments is based on changes to the Consumer Price Index from June of the calendar year in which penalties were last set or adjusted through June of the year prior to the adjustment. The stated purpose for such adjustments is to keep civil penalties in pace with inflation.

A civil monetary penalty is defined as any penalty, fine, or other sanction that:

1. Is for a specific monetary amount as provided by Federal law; and
2. Is assessed or enforced pursuant to Federal law; and
3. Is assessed or enforced pursuant to an administrative proceeding or a civil action in the Federal courts.

On October 24, 1996, the Department published in the **Federal Register** a schedule of CMPs adjusted for inflation as required by law. In one instance, the initial CMP inflation adjustment was zero, and was published accordingly. In two cases, the adjustment was nine percent. All other CMPs adjusted at that time were increased by the ten percent maximum amount. In the October 24,

1996, publication, however, ten then-existing CMPs were not included.

On November 1, 2000, the Department again adjusted CMPs for inflation as prescribed by law. In the case of the CMPs that were not previously adjusted, the 2002 CMPs were increased by ten percent, the initial inflation adjustment limitation. For various reasons, other CMPs were adjusted by lesser amounts, kept at the same levels, or deleted.

In early 2002, GAO conducted a government wide review of the implementation of the Federal Civil Penalties Inflation Adjustment Act of 1990. During that review, GAO determined that the Department had adjusted its civil penalties in a manner inconsistent with the requirements of the statute, and on September 30, 2002, sent a report explaining that determination to the Secretary of Commerce. Specifically, GAO asserted that the Department's method of rounding is inconsistent with the requirements of the statute.

In adjusting its CMPs, the Department noted that the statute requires the raw inflation amounts to be rounded, and also that the categories of rounding were determined by the size of the penalty increase. GAO disagreed, asserting that the "plain language" of the statute requires that the appropriate category of rounding be determined by the size of the penalty, not the size of the increase. GAO did, however, recognize that there exist certain advantages to rounding on the basis of the size of the increase rather than the size of the penalty.

Although the Department believes that the GAO reading of the Federal Civil Penalties Inflation Adjustment Act of 1990 produces a result which is inconsistent with the stated purpose of the statute (*i.e.*, to keep civil penalties in pace with inflation), the Department will nevertheless comply with the recommendation contained in the September 30, 2002, letter. Accordingly, this rule adjusts the civil penalties that are established by law and assessed or enforced by the Department in the manner suggested by GAO. The actual penalty assessed for a particular violation will continue to be dependent upon a variety of factors.

Rulemaking Requirements

It has been determined that this rule is not significant for purposes of Executive Order 12866.

The Department for good cause finds that notice and an opportunity for comments required by 5 U.S.C. 553(b)(B) of the Administrative Procedure Act are unnecessary for this rulemaking because the Debt Collection Improvement Act of 1996 (the Act)

requires the head of each agency to adjust its civil monetary penalties for inflation by regulation at least every four years, and the Federal Civil Monetary Penalty Inflation Adjustment Act of 1990, as amended by the Act, states how to calculate the inflation adjustment. This rule merely adjusts the Department's CMPs according to the statutory requirements, as interpreted by GAO. Because the Department adjusted the CMPs in 2000 in a manner that was not in compliance with GAO's reading of the law, the Department is adjusting the CMPs sooner than four years. The Department does not have any discretion in making the adjustments. For the same reason, and because the published amounts of some penalties have been in error for approximately two years, there also exists good cause to waive the thirty day delay in effectiveness, pursuant to 5 U.S.C. 553(d)(3).

Because notice and opportunity for comment are not required by 5 U.S.C. 553, or any other law, a Regulatory Flexibility Analysis is not required and was not prepared for the purposes of the Regulatory Flexibility Act.

This rule does not contain information collection requirements for purposes of the Paperwork Reduction Act.
