

with the provisions of section 103(b) of the Act. In previous interim guidance, Treasury has addressed the statutory terms “insurer” and “insured losses” under the Program, 67 FR 78864 (December 26, 2002), and Treasury intends to issue regulations establishing claims procedures for Federal payments under the Program. With regard to an insurer’s certification of its compliance with the disclosure requirements in section 103(b)(2), Treasury expects to propose regulations that will require an insurer to certify that it complied with the required disclosure(s) to the policyholder on the underlying claim or claims submitted by the insurer for Federal payment under the Program.

How Do the Nullification Requirement of Section 105 and Other Provisions of the Act Apply to Non-U.S. Insurers?

For the purposes of this interim guidance, Treasury views the nullification requirement of section 105 and other provisions of the Act as they apply to non-U.S. insurers in the context of such insurers’ required participation under the Act. The provisions of the Act apply to entities that meet the definition of “insurer” under section 102(6) of the Act and with the respect to an “insured loss” covered by the Program. Included among the other requirements of the Act are: The “make available” requirements of section 103(c); the disclosure requirements as a condition for Federal payment contained in section 103(b)(2); and the policy surcharge (recoupment) provisions of section 103(e)(8). For non-U.S. insurers that are required to participate in the Program, participation requirements for existing policies that provide coverage for “insured losses” include the “make available” and other requirements in the Act, such as those listed above, even in the absence of nullification under section 105. The disclosure standards referenced in this and other interim guidance also would apply.

For the Purpose of Determining the Scope of “Insured Loss,” How Is Section 102(5)(B) Interpreted as It Relates to U.S. Air Carriers and U.S. Flag Vessels?

Section 102(5)(B) defines an “insured loss” to include losses that occur “to an air carrier (as defined in section 40102 of title 49, United States Code), to a United States flag vessel (or vessel based principally in the United States, on which United States income tax is paid and whose insurance coverage is subject to regulation in the United States) regardless of where the loss occurs.” Section 40102 defines an “air carrier” generally as a United States citizen

(individual, partnership, or corporation) that provides foreign or interstate “air transportation.”

For the purposes of interim guidance, Treasury is providing further clarification that insured losses under section 102(5)(B) are only those losses that are incurred by the air carrier or the United States flag vessel. Insured losses under section 102(5)(B) would not include losses incurred by third parties that are associated with losses incurred by a United States air carrier or a United States flag vessel, unless the cause of the loss originated within the United States.
