An electronic copy of this document may be downloaded through the Internet at <http://dms.dot.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at <http://www.faa.gov> or the Superintendent of Document's web page at <http://www.access.gpo.gov/nara>.

Additionally, any person may obtain a copy of this notice by submitting a request to the Federal Aviation Administration, Office of Air Traffic Airspace Management, ATA-400, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267-8783. Communications must identify both docket numbers for this notice. Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing to amend Title 14 Code of Federal Regulations (CFR) part 71 (part 71) by establishing two colored Federal airways, A-5 and B-1, in Alaska. Presently there are several uncharted nonregulatory routes that use the same routing as the proposed colored Federal airways. These uncharted nonregulatory routes are used daily by commercial and general aviation aircraft. However, the air traffic control (ATC) management of aircraft operations is limited on these routes. The FAA is proposing to convert these uncharted nonregulatory routes to colored Federal airways. This action would add to the IFR airway and route structure in Alaska. The routes conversion would provide an airway structure to support existing commercial services in Alaska.

Additionally, adoption of these Federal airways would: (1) Provide pilots with minimum en route altitudes and minimum obstruction clearance altitudes information; (2) establish controlled airspace thus eliminating

some of the commercial IFR operations in uncontrolled airspace; and (3) improve the management of air traffic operations and thereby enhance safety.

Colored Federal airways are published in paragraph 6009 of FAA Order 7400.9K dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR Section 71.1. The colored Federal airways listed in this document would be published subsequently in the order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2002-14010/Airspace Docket No. 02-AAL-09." The postcard will be date/time stamped and returned to the commenter. All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Background

In November 2002, the FAA was notified by NAV Canada that the continued operation of the Canadian Coast Guard's McInnes Island NDB was in jeopardy and that action was needed to reconfigure airways using the McInnes NDB.

The Proposal

The FAA is proposing to amend Title 14 Code of Federal Regulations (14 CFR) part 71 (part 71) that in part revokes two VOR Federal Airways (V-307 and V362); and modifies VOR Federal Airway V-317, and Colored Federal Airway A-15, in Alaska. The FAA is proposing this action in preparation for the decommissioning of the McInnes Nondirectional Radio Beacon (NDB), Canada.

Colored Federal airways and Alaska VOR Federal airways are published in paragraphs 6009© and paragraph 6010(b), respectively, of FAA Order 7400.9K dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR Section 71.1. The colored Federal airway and Alaskan VOR Federal airways listed in this document would be published subsequently in the order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial

number of small entities under the criteria of the Regulatory Flexibility Act.
