

fisheries and authorization of incidental take of steelhead resulting from the authorized recreational fisheries. When permit 1233 was issued on May 26, 2000, no take prohibitions had been established for Snake River steelhead. Anticipating that a 4(d) rule would soon be published, a provision was made to amend the permit when protective rules were published. Protective regulations for threatened Snake River steelhead under Section 4(d) of the ESA were promulgated by NMFS, effective September 8, 2000 (July 10, 2000, 65 FR 42422). Recreational fisheries are monitored in a manner that allows evaluation of the effectiveness of protective regulations and conservation strategies. Take of listed species may occur incidental to otherwise legal fishing activities or illegal actions. Measures are described in the permit to minimize such deleterious effects to the extent possible.

Modification 1 of permit 1233 authorizes take of ESA-listed Snake River Basin steelhead as a result of catch-and-release fisheries, with an associated incidental mortality of 3.2 percent of the natural origin return. The modification further authorizes take of ESA-listed Snake River spring chinook salmon of up to 2.0% of the naturally-produced return to Lower Granite Dam; this take limit applies when the return is greater than 25,000 adults, and decreases on a sliding scale for progressively smaller returns. No additional take of ESA-listed Snake River fall chinook or sockeye salmon is authorized. NMFS has determined that take levels authorized in the modified permit will not jeopardize listed salmon and steelhead nor result in the destruction or adverse modification of critical habitat where described.

NMFS' conditions in the permit will ensure that the take of ESA-listed anadromous fish will not jeopardize the continued existence of the listed species. In issuing the permits, NMFS determined that IDFG's Conservation Plan provides adequate mitigation measures to avoid, minimize, or compensate for take of ESA-listed anadromous fish.

Issuance of this permit, as required by the ESA, was based on a finding that the permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of the listed species which are the subject of the permit; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA. This permit was issued in accordance with, and is subject to, 50 CFR part 222, the NMFS regulations governing listed species permits.

Dated: January 24, 2003.

Phil Williams,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 012803A]

Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Council) Ad Hoc Groundfish Habitat Technical Review Committee (Habitat TRC) will hold a working meeting on the methodology and data being considered for an assessment of Pacific Coast groundfish essential fish habitat. The meeting is open to the public.

DATES: The Ad Hoc Groundfish Habitat Technical Review Committee working meeting will take place Wednesday, February 19, 2003, from 9 a.m. until 5 p.m. The meeting will reconvene from 8 a.m. to 5 p.m. Thursday, February 20.

ADDRESSES: The meeting will be held at the U.S. Department of Commerce, NOAA, 7600 Sand Point Way NE, Building 9 (NOAA Auditorium), Seattle, WA 98115-6349; (206) 526-6150. To gain admittance to the complex, visitors should tell the security guard they are attending the Ad Hoc Groundfish Habitat Technical Review Committee meeting sponsored by the Pacific Fishery Management Council.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 200, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Ms. Jennifer Gilden; (503) 820-2280.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to guide the ongoing assessment of essential fish habitat for Pacific Coast groundfish. Specifically, the Habitat TRC will review data consolidated thus far and review a proposed analytical framework for assessing the status of groundfish habitat. The data include mapping efforts and literature reviews on fishing impacts, impacts related to non-fishing activities, and fish/habitat associations.

The analytical framework for the assessment has been designed to determine if habitat function has been degraded by environmental and anthropogenic inputs. In so doing, it will provide a basis for informed policy discussions. By holding a public meeting, the Habitat TRC will further provide opportunity for public participation in the assessment process. The Habitat TRC will only consider technical and scientific questions related to the assessment and will not engage in policy discussions as part of its mission.

Although nonemergency issues not contained in the meeting agenda may come before the Habitat TRC for discussion, those issues may not be the subject of formal Habitat TRC action during this meeting. Habitat TRC action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305 (c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Habitat TRC's intent to take final action to address the emergency.

In our continuing efforts to streamline our meeting notification process, we are building an email notification list. If you would like to be notified of future meetings via email, please contact Ms. Kerry Aden at (503) 820-2409 or kerry.aden@noaa.gov to provide your email address.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Diane Marston at (206) 526-6383 at least 5 days prior to the meeting date.

Dated: January 28, 2003.

Theophilus R. Brainerd,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Sunshine Act Meeting

The Board of Directors of the Corporation for National and Community Service gives notice of the following meeting:

DATE AND TIME: Tuesday, February 11, 2003, 9:15 a.m.-12 p.m.

PLACE: Corporation for National and Community Service, 1201 New York

Avenue, NW., 8th Floor, Room 8410, Washington, DC 20525.

STATUS: Open.

MATTERS TO BE CONSIDERED:

- I. Chair's Opening Remarks.
- II. Consideration of Prior Meeting's Minutes.
- III. Committee Reports.
- IV. Youth and State Service Commissions Panel Presentation.
- V. White House Task Force on Disadvantaged Youth.
- VI. Martin Luther King, Jr. Day of Service—Philadelphia, PA.
- VII. National Association of Service Conservation Corps.

ACCOMMODATIONS: Anyone who needs an interpreter or other accommodation should notify the Corporation's contact person.

CONTACT PERSON FOR MORE INFORMATION:

Michele Tennery, Senior Associate, Public Affairs, Corporation for National and Community Service, 8th Floor, Room 8601, 1201 New York Avenue NW., Washington, DC 20525. Phone (202) 606-5000 ext. 125. Fax (202) 565-2784. TDD: (202) 565-2799. E-mail: mtennery@cns.gov.

Dated: January 30, 2003.

Frank R. Trinity,

General Counsel.

BILLING CODE 6050--\$-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Proposed Collection; Comment Request

AGENCY: Defense Security Service, Office of the Secretary, DoD.

ACTION: Notice.

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Defense Security Service (DSS) announces the proposed collection affecting cleared DOD contractors and seeks public comments on the provision thereof. Comments are invited on: (a) Whether the proposed collection shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the information to be collected; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by April 4, 2003.

ADDRESSES: Written comments and recommendations on the proposed information collection should be sent to Defense Security Service, Chief, Program Integration Branch, ATTN: Mr. Richard L. Lawhorn, 1340 Braddock Place, Alexandria, VA 22314-1650.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed data collection or obtain a copy of the proposal and associated collection instrument, please write to the above address, or call Defense Security Service, (703) 325-5327 or (703) 325-6034.

Title and OMB Number: "Defense Security Industrial Security Review Data", OMB No. 0704-XXXX and "Defense Security Service Industrial Security Facility Clearance Survey Data", OMB No. 0704-XXXX.

Needs and Uses: Executive Order (EO) 12829, "National Industrial Security Program (NISP)", dated January 6, 1993, as amended by EO 12885 dated December 14, 1993, established the NISP to safeguard Federal Government classified information. The Department of Defense (DOD) is one of four Cognizant Security Agencies that are signatories to the NISP. EO 12829 stipulates that the Secretary of Defense shall serve as the Executive Agent for inspecting and monitoring the contractors, licensees, and grantees who require or will require access, to or who store or will store classified information; and for determining the eligibility for access to classified information of contractors, licensees, and grantees and their respective employees. The specific requirements necessary to protect classified information released to private industry are set forth in DOD 5220.22M, "National Industrial Security Program Operating Manual (NISPOM). The Executive agent has the authority to issue, after consultation with affected agencies, standard forms or other standardization that will promote the implementation of the NISP. DOD Contractors are subject to an initial facility clearance survey and periodic government security reviews to determine their eligibility to participate in the NISP and ensure that safeguards employed are adequate for the protection of classified information.

DOD Directive, 5105.42 "Subject: Defense Security Service", delineates the mission, functions and responsibilities of DSS. DSS is an Agency of the Department of Defense under the authority, direction, and control of the Assistant Secretary of Defense (Command, Control, Communication and Intelligence) (ASD (C3I)). DSS functions and

responsibilities include the administration and implementation of the Defense portion of the NISP pursuant to Executive Order 12829.

DSS is the office of record for the maintenance of information pertaining to contractor facility clearance records and industrial security information regarding cleared contractors under its cognizance. To the extent possible, information required as part of the survey or security review is obtained as a result of observation by the representative of the CSA or its designated Cognizant Security Office. Some of the information may be obtained in conference with Key Management Personnel and/or employees of the company. The information is used to respond to all inquires regarding the facility clearance status and storage capability of cleared contractors. It is also used to assess and/or advise Government Contracting Activities regarding the contractor's continued ability to protect classified information.

Affected Public: Businesses, universities, partnerships or other profit and non-profit organizations participating in the Defense portion of the NISP.

Respondent Burden

Industrial Security Review Data

Total Annual Burden Hours: 38,619.6 hours.

Total Number of Respondents: 11,403.

Possessors of classified: 4,792.

Non-Possessors of classified: 6,611.

Responses per Respondent: 1.

Average Burden Hours per

Respondent:

Possessors of classified: 5.3 hours.

Non-Possessors of classified: 2 hours.

Frequency: Periodic (e.g. Possessors—Annually, Non-Possessors—18 months, compliance reviews, or when directed.)

Industrial Security Facility Clearance Survey Data:

Total Annual Burden Hours: 3,144 hours.

Number of Respondents: 1,572.

Responses per Respondent: 1.

Average Burden Hours Per

Respondent: 2 hours.

Frequency: On occasion (e.g. initial eligibility determination and when a significant changed condition, such as change in ownership.)

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The conduct of an Industrial Security Review and or Industrial Security Facility Clearance Survey assists in determining whether a contractor is eligible to establish its facility security
