NUCLEAR REGULATORY COMMISSION

Tennessee Valley Authority; Sequoyah Nuclear Plant, Unit 2

[Docket No. 50-328]

Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has

granted the request of Tennessee Valley Authority (the licensee) to withdraw its July 10, 2002, application for proposed amendment to Facility Operating License No. DPR-79 for the Sequoyah Nuclear Plant, Unit No. 2, located in Hamilton County, Tennessee.

The proposed one-time technical specification (TS) change would have revised the Sequoyah Unit 2 Limiting Condition for Operation for TS Section 3.7.4, "Essential Raw Cooling Water System," to include provisions for maintaining operability of this system during performance of heavy load lifts associated with the Unit 1 steam generator replacement (SGR) project. The provisions were intended to ensure safe operation of Unit 2 during heavy load lift activities. In addition, compensatory measures proposed would have ensured safe shutdown capability of Unit 2 in the unlikely event a heavy load drop occurs over Essential Raw Cooling Water system piping.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on August 6, 2002 (67 FR 50960). However, by letter dated November 15, 2002, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated July 10, 2002, and the licensee's letter dated November 15, 2002, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike, Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams/html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 30th day of January 2003.

For the Nuclear Regulatory Commission.

Raj K. Anand,

Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

OFFICE OF PERSONNEL MANAGEMENT

Submission for OMB Emergency Clearance and Review; Comment Request for New Information Collection: Scholarship for Service Program Internet Web Site

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) submitted a request to the Office of Management and Budget for emergency clearance and review of a new information collection for a Scholarship For Service Program internet website. Approval of the Scholarship For Service Program internet website is necessary to facilitate the timely registration, selection and placement of program-enrolled students in Federal agencies.

The SFS Program was established by the National Science Foundation in accordance with the Federal Cyber Service Training and Education Initiative as described in the President's National Plan for Information Systems Protection. This program seeks to increase the number of qualified students entering the fields of information assurance and computer security in an effort to respond to threats to the Federal Government's information technology infrastructure. The program provides capacity building grants to selected 4-year colleges and universities to develop or improve their capacity to train information assurance professionals. It also provides selected 4-year colleges and universities scholarship grants to attract students to the information assurance field. Participating students who receive scholarships from this program are required to serve a 10-week internship during their studies and complete a post-graduation employment commitment equivalent to the length of the scholarship or one year, whichever is longer.

In anticipation of the fall 2002 graduating classes of participating institutions, OPM projects an additional 30 students to be placed, with up to 200 students presently needing placement. This is a new collection of information. Based on other programs that collect similar information, we estimate the collection of information for registering and creating an online resume to be 45 minutes to 1-hour in length of time to
