

demonstrate a long-term commitment to the project, beyond the 3-year funding cycle?);

(5) Evaluation and dissemination (*e.g.* Do the data collection tools and strategies directly address the objectives outlined for the program? Is there a plan for disseminating information about the project, including "lessons learned?"); and

(6) Budget (*e.g.* Are program needs for equipment, supplies, contractual services, etc., adequately justified in terms of the goal(s), objectives, and proposed activities?).

The Secretary will give preference to an eligible entity that meets at least one (1) of the following requirements:

(a) Organization—The eligible entity is a rural community-based organization, other community-based organization, or a faith-based organization.

(b) Service—The eligible entity proposes to use Federal funds made available through such a grant to develop plans for, or to establish, telehealth networks that provide mental health, public health, long-term care, home care, preventive health, or case management services.

(c) Coordination—The eligible entity demonstrates how the project to be carried out under the grant will be coordinated with other relevant federally funded projects in the areas, communities, and populations to be served through the grant.

(d) Network—The eligible entity demonstrates that the project involves a telehealth network that includes an entity that—

(i) Provides clinical health care services, or educational services for health care providers and for patients or their families; and

(ii) Is—

(I) A public school;

(II) A public library;

(III) An institution of higher education; or

(IV) A local government entity.

(e) Connectivity—The eligible entity proposes a project that promotes local connectivity within areas, communities, or populations to be served through the project.

(f) Integration—The eligible entity demonstrates that health care information has been integrated into the project.

Priority will be given to applications that address the following program priorities:

(g) Clinical telemedicine networks that address chronic conditions (*e.g.*, asthma, diabetes) in a variety of settings,

such as patient homes, schools, and other community settings;

(h) Projects designed to improve health care outcomes (*e.g.*, improved access, productivity, dollars saved) as well as improved quality of services (*e.g.*, reduction of medical errors);

(i) Clinical telemedicine networks that include distance-learning education for health professionals, and patients and their families, if such activities are in conjunction with the delivery of health services; and

(j) Clinical telemedicine networks that integrate their telemedicine information system into overall electronic clinical information systems (*e.g.*, electronic medical record) used by network members.

Note: In accordance with Public Law 107–251, (a) the total amount of funds awarded for rural projects for FY 2003 shall not be less than the total amount of funds awarded for FY 2001 under section 330A, and (b) the funds will be distributed so that not less than 50 percent of the total funds awarded under this program announcement shall be awarded for projects in rural areas.

Paperwork Reduction Act: Should any of the data collection activities associated with this grant program fall under the purview of the Paperwork Reduction Act of 1995, OMB approval will be sought.

Dated: January 22, 2003.

SUPPLEMENTARY INFORMATION: The 1988 amendment to the Fish and Wildlife Conservation Act (FWCA) of 1980 (Pub. L. 100-653, Title VIII) requires the Secretary of the Interior, through the U.S. Fish and Wildlife Service, to “identify species, subspecies, and populations of all migratory nongame birds that, without additional conservation actions, are likely to become candidates for listing under the Endangered Species Act [ESA] of 1973.” *Birds of Conservation Concern 2002* fulfills that mandate, and supersedes *Migratory Nongame Birds of Management Concern in the United States: The 1995 List*. The current document differs from the 1995 version in that it identifies birds of conservation concern at three different scales: Bird Conservation Regions, U.S. Fish and Wildlife Service Regions, and National. This will maximize flexibility and increase the utility of the document for a variety of users and purposes. The species that appear in *Birds of Conservation Concern 2002* are deemed to be the highest priority for conservation actions. We anticipate that the document will be consulted by Federal agencies and their partners prior to undertaking cooperative research, monitoring, and management actions that might directly or indirectly affect migratory birds. Our goal in publishing this document is to stimulate coordinated and collaborative proactive conservation actions among Federal, State, and private partners.

To serve as a broad early warning system in the context of the FWCA, this document includes all of the species for which we have some basis, no matter how remote, to consider them to be of conservation concern. Our objective in publishing this list is to focus conservation attention on bird species of concern well in advance of a possible or plausible need to consider them for listing under the ESA. Inclusion on this list does not constitute a finding that listing under the ESA is warranted, or that substantial information exists to

indicate that listing under the ESA may be warranted. Many of the species on this list will probably never have to be considered for ESA listing, even if no additional conservation actions are taken.

Steven A. Williams,

Director, Fish and Wildlife Service.
