

an associated Environmental Assessment to address current issues for four wild horse herd areas (HAs) (Diamond Hills, Little Humboldt, Owyhee, and Rock Creek) in the Elko RMP planning area. The RMP planning area is comprised of approximately 6 million acres of land in northeastern Nevada, of which the BLM administers over 3 million acres. The four HAs are all located in Elko County, NV. They comprise approximately 657,000 acres, of which about 92 percent are public lands. Decisions to be made by the RMP Amendment include designation of "herd management areas" on public lands within these HAs where wild horses can be managed in the long term. The BLM will work collaboratively with interested parties to make decisions best suited to local, regional, state and national needs and concerns for the management of wild horses.

DATES: This notice initiates the public scoping process. Comments on issues and planning criteria can be submitted in writing to the address listed below and will be accepted within 30 days following publication of this notice in the **Federal Register**. The public is also invited to participate in any of three public meetings to discuss the scope of the proposed amendment and environmental assessment. All public meetings will be announced through local news media, newsletters, and the BLM Web site at least 15 days prior to the event. Meetings will be held in Elko, NV; Eureka, NV; and Reno, NV.

ADDRESSES: Written comments for this planning effort may be submitted to BLM at any of the scoping meetings; in addition, comments can be submitted in person to the BLM's Elko Field Office, 3900 Idaho Street, Elko, Nevada, 89801. Comments may also be submitted via facsimile to 775-753-0255. Please address your comments to the attention of Bryan Fuell, Wild Horse Specialist. Documents pertinent to this proposal may be examined at the BLM Elko Field Office (see address above). Preliminary scoping information will also be available at each of the scoping meetings, and may be obtained by visiting the Elko Field Office Web site at <http://www.nv.blm.gov/elko>. If you wish to withhold your name and/or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your comment. Such requests will be honored to the extent allowed by law. All submissions from an organizations or businesses, and from individuals identifying themselves as representatives or officials of

organizations or businesses, will be available for public inspection in their entirety.

FOR FURTHER INFORMATION: For further information and/or to have your name added to our mailing list, contact Bryan Fuell, Wild Horse Specialist, Bureau of Land Management, Elko Field Office, 3900 Idaho Street, Elko, Nevada 89801; telephone (775) 753-0200.

SUPPLEMENTARY INFORMATION: HAs are limited to areas of public lands identified as habitat used by wild horses at time of the passage of the Wild Horse and Burro Act in 1971. The Elko RMP (1987) established four wild horse HAs (Diamond Hills, Little Humboldt, Rock Creek, Owyhee) with the objective to manage the wild horse populations and habitat in these areas consistent with other resource uses. Short- and long-term management actions prescribed by the 1987 RMP are to: (1) Manage the four herds at an appropriate management level; (2) monitor wild horse populations and habitat conditions; and (3) conduct wild horse gatherings as needed to maintain numbers. Since completion of the Elko RMP, monitoring of wild horse populations and habitat and completion of wild horse gatherings have occurred.

Approximately 657,000 acres make up the four HAs, of which 53,000 acres are privately owned lands. The Diamond Hills HA is in the southwest corner of the Elko RMP planning area. Due to its proximity to other wild horse HMAs managed by the Ely and Battle Mountain field offices of the BLM, this HA is often referred to as "Diamond Hills North." The Little Humboldt, Rock Creek and Owyhee HAs are in the northwest portion of the planning area, and are next to HMAs that are administered by BLM's Winnemucca Field Office. The 1971 Wild Horse and Burro Act requires removal of wild horses from unfenced private land when requested by the private landowner. Verbal requests have been made to alleviate problems with wild horses on private land within the Rock Creek and Little Humboldt HAs.

The proposed Amendment would designate HMAs, which are established only on areas within HAs which wild horses can be managed for the long term. BLM planning regulations (43 CFR 1610) require preparation of planning issues and criteria to guide amendments or revisions of RMPs. A planning issue is a matter of controversy over a resource management topic that is well defined, about which a decision can be made and is within the BLM's authority and jurisdiction to resolve. Planning criteria are the constraints or ground

rules that guide and direct the development of the plan or amendment, and determine how the planning team approaches the development of alternatives and, ultimately, selection of a preferred alternative. They ensure that plans are tailored to identified issues, and that unnecessary data collection and analyses are avoided. Wild horse monitoring and other information collected to support land health assessments since the 1987 Elko RMP was approved is available for use in completing analyses for this Amendment. Preliminary planning issues and criteria, developed internally, will be available for review and comment by the public during the 30-day scoping period established by this notice. The Elko Field Manager will approve the planning criteria following public scoping.

Dated: December 23, 2002.

Helen Hankins,

Field Manager, Elko Field Office.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Notice of Intent To Prepare a Resource Management Plan for the Ely District and Associated Environmental Impact Statement

AGENCY: Bureau of Land Management, Ely Field Office, Interior.

ACTION: Notice of Intent to prepare a comprehensive Resource Management Plan (RMP) and associated Environmental Impact Statement (EIS) for the Ely District, located within Lincoln and White Pine counties and the northeast portion of Nye County, Nevada.

SUMMARY: In compliance with the Federal Land Policy and Management Act of 1976, as amended (43 U.S.C. 1701 *et seq.*), and the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), the Bureau of Land Management (BLM) will prepare a Resource Management Plan to consider a range of alternatives for BLM management of public lands within the Ely District. In conjunction with the RMP, an associated EIS will be prepared to assess the environmental, social, and economic effects of the alternatives considered in the RMP. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns. The public scoping process will identify planning

issues and develop planning criteria, including an evaluation of existing land use plans in the context of the needs and interest of the public.

DATES: This notice initiates the public scoping process. Comments on issues and planning criteria can be submitted in writing to the address listed below and will be accepted throughout the creation of the Draft RMP/Draft EIS. All public meetings will be announced through the local news media, newsletters, and the BLM Web site (<http://blm.ensr.com>) at least 15 days prior to the event. The minutes and list of attendees for each meeting will be available to the public and open for 30 days to any participant who wishes to clarify the views they expressed.

Public Involvement: Information on planning issues and planning criteria can be obtained by accessing the BLM Web site (<http://blm.ensr.com>) or by writing to the address listed below. Comments on issues and planning criteria can be submitted in writing to the address listed below and will be accepted throughout the creation of the Draft RMP/Draft EIS. The public will be invited to participate in the scoping process via attendance at public meetings and review of the draft RMP/EIS. All public meetings will be announced through the local news media, newsletters, and the BLM web site (<http://blm.ensr.com>). The BLM has scheduled six public scoping meetings to obtain input on the issues to be addressed within the Ely RMP/EIS. The meetings will be held at the following locations: BLM Las Vegas Field Office; Mesquite, NV; Ely, NV; Reno, NV; Caliente, NV and Tonopah, NV.

These meetings will provide an opportunity for the public to learn about the Ely RMP/EIS process and to comment directly on the scope of the planning initiative. The public is encouraged to attend the scoping meetings and/or send written comments and suggestions concerning the preparation of the RMP/EIS by following the instructions below.

ADDRESSES: Written comments on the scope of the Ely RMP should be submitted within 60 days of the date of publication of this notice and addressed to: Bureau of Land Management, Gene A. Kolkman, Ely Field Manager, HC 33, Box 33500, Ely, NV 89301-9408; Fax 775-289-1910. Documents pertinent to this proposal may be examined at the Ely Field Office. Freedom of Information Act Considerations: Comments, including names and street addresses of respondents, will be available for public review at the Ely Field Office during regular business

hours [7:30 a.m.–4:30 p.m. PST], Monday through Friday, except holidays, and may be published as part of the EIS. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT: For further information and/or to have your name added to our mailing list, contact Gene Drais, Project Manager for the Ely RMP/EIS, at the above address, telephone (775) 289-1880 or e-mail gene_drais@nv.blm.gov.

SUPPLEMENTARY INFORMATION: The BLM's Ely District comprises about 11.4 million acres of public land in all of Lincoln and White Pine counties, and the northeast portion of Nye County, Nevada. Comprehensive land use plan (LUP) evaluations of the Egan Resource Management Plan in 2001 and the Schell and Caliente Management Framework Plans (MFP) in 2002 indicated the need for LUP revisions to provide appropriate management of all BLM programs and to address deteriorating ecological conditions. A comprehensive RMP will be prepared for the entire Ely District. Restoring and maintaining the ecological health of Great Basin landscapes in eastern Nevada must be done in concert with collaborative partners, resource users, and local communities. In addition, the RMP/EIS will provide management direction for future implementation of the Great Basin Restoration Initiative (GBRI) within the Ely District. The restoration effort to implement the GBRI within the Ely District is called the Eastern Nevada Landscape Restoration Project.

Key issues likely to be considered in developing and analyzing alternatives to be addressed within the Ely RMP/EIS include: ecological health; air quality; water resources; cultural and paleontological resources; special status species of flora and fauna; fish and wildlife; wild horses; fire management; livestock grazing; recreation; lands and realty; minerals (including oil, gas, and geothermal); special land use designations (*i.e.* Wild Horse Herd Management Areas, Areas of Critical Environmental Concern); and

socioeconomic effects of plan implementation. Based on analysis of these multiple factors, the BLM will select a preferred alternative for implementation in the final RMP, which will provide management direction for all Ely District programs. After gathering public comments on what issues the plan should address, the suggested issues will be placed in one of three categories:

1. Issues to be resolved in the plan;
2. Issues resolved through policy or administrative action; or
3. Issues beyond the scope of this plan.

Rationale will be provided in the plan for each issue placed in category two or three. In addition to these major issues, a number of management questions and concerns will be addressed in the plan. The public is encouraged to help identify these questions and concerns during the scoping phase.

Dated: December 18, 2002.

Gene A. Kolkman,
Field Manager.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NV-930-1430-ET; NVN-37749]

Notice of Proposed Extension of Withdrawal and Opportunity for Public Meeting; Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management proposes to extend the withdrawal of 10.72 acres of public land in Elko County to protect an administrative site. The withdrawal being extended is Public Land Order No. 6540. This withdrawal will expire on June 25, 2004, unless extended. The land is currently withdrawn from surface entry and mining, but not mineral leasing laws, by Public Land Order No. 6540.

DATES: Comments and requests for a meeting should be received on or before May 12, 2003.

ADDRESSES: Comments and meeting requests should be sent to the Nevada State Director, BLM, 1340 Financial Blvd., P.O. Box 12000, Reno, Nevada 89520.

FOR FURTHER INFORMATION CONTACT: Dennis J. Samuelson, BLM Nevada State Office, 702-861-6532.
