BILLING CODE 4184-01-M

Description: To ensure that States receive credit for families that have become self-sufficient and left the welfare rolls, Congress created a caseload reduction credit. The credit reduces the required participation rate that a State must meet for a fiscal year. To receive a caseload reduction credit, a State must complete form ACF-202, the Caseload Reduction Report. The report provides information needed to calculate a caseload reduction credit, and thus determines the participation standard each State must meet for the fiscal year. This report derives from section 407(a)(3) of the Social Security Act and the implementing Federal Regulations at 45 CFR part 261, subpart D.

Respondents: The 50 States of the United States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.
