

**SUMMARY:** In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the Aerospace Medicine Occupational Health Advisory Committee.

**DATES:** Friday, March 14, 2003, 9 a.m. to 4 p.m.

**ADDRESSES:** National Aeronautics and Space Administration, 300 E Street, SW., Room 3H46 (MIC 3), Washington, DC. Attendees must check in at the Security Desk at the West Lobby (4th and E Streets) and be escorted to the conference room.

**FOR FURTHER INFORMATION CONTACT:** Ms. Pam Barnes, Code AM, National Aeronautics and Space Administration, Washington, DC, 20546, 202/358-2390.

**SUPPLEMENTARY INFORMATION:** The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

- Opening Remarks by Chief Health and Medical Officer
- Charter of Committee replacing former Aerospace Medicine Occupational Health Advisory Subcommittee
- Aerospace Medicine Highlights and Issues
- Occupational Health Highlights and Issues
- Open discussion and action assignments
- Next Meeting
- Closing Comments

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the NASA Advisory Council which is also meeting at the Stennis Space Center on March 19 and 20, 2003. Visitors will be requested to sign a visitor's register. Due to the increased security at NASA facilities, any members of the public who wish to attend this first meeting of the Aerospace Medicine Occupational Health Advisory Committee must provide their name, date and place of birth, citizenship, social security number, or passport and visa information (number, country of issuance and expiration), business address and phone number, if any. This information is to be provided at least 72 hours (5 PM EDT on March 14, 2003) prior to the date of the public meeting. Identification information is to be provided to Pam Barnes, (202) 358-2390, pbarnes@hq.nasa.gov. Failure to timely provide such information may result in denial of attendance. Photo identification may be required for entry into the building. Persons with disabilities who require assistance

should indicate this in their message. Due to limited availability of seating, members of the public will be admitted on a first-come, first-serve basis. News media wishing to attend the meeting should follow standard accreditation procedures. Members of the press who have questions about these procedures should contact the NASA Headquarters newsroom (202/358-1600).

**June W. Edwards,**

*Advisory Committee Management Officer,  
National Aeronautics and Space  
Administration.*

## NATIONAL CREDIT UNION ADMINISTRATION

### Sunshine Act; Meeting

**TIME AND DATE:** 10 a.m., Thursday, February 20, 2003.

**PLACE:** Board Room, 7th Floor Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

**STATUS:** Open.

#### MATTERS TO BE CONSIDERED:

1. Request from a Federal Credit Union to Convert to a Community Charter.
2. Proposed Rule: Part 709 of NCUA's Rules and Regulations, Addition to Swap Agreement to the Definition of a Qualified Financial Contract.

**RECESS:** 11:15 am.

**TIME AND DATE:** 11:30 a.m., Thursday, February 20, 2003.

**PLACE:** Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

**STATUS:** Closed.

#### MATTERS TO BE CONSIDERED:

1. Administrative Action under Section 205 of the Federal Credit Union Act. Closed pursuant to Exemptions (8), (9)(A)(ii), and (9)(B).
2. One (1) Insurance Appeal. Closed pursuant to Exemption (6).

#### FOR FURTHER INFORMATION CONTACT:

Becky Baker, Secretary of the Board, Telephone: 703-518-6304.

**Becky Baker,**

*Secretary of the Board.*

[FR Doc. 03-4041 Filed 2-13-03; 4:08 pm]

**BILLING CODE 7535-01-M**

## NATIONAL TRANSPORTATION SAFETY BOARD

### Meetings; Sunshine Act; Agenda

**TIME AND PLACE:** 9:30 a.m., Wednesday, February 26, 2003.

**PLACE:** NTSB Conference Center, 429 L'Enfant Plaza, SW., Washington, DC 20594.

**STATUS:** The one item is open to the public.

#### MATTERS TO BE CONSIDERED:

- 7532 Highway Accident Report—Collision of Greyhound Lines, Inc., Motorcoach and DelCar Trucking Truck Tractor-Semitrailer, Loraine, Texas, on June 9, 2002.

News Media Contact: Telephone (202) 314-6100.

Individuals requesting specific accommodations should contact Ms. Carolyn Dargan at (202) 314-6305 by Friday, February 21, 2003.

#### FOR FURTHER INFORMATION CONTACT:

Vicky D'Onofrio, (202) 314-6410.

Dated: February 14, 2003.

**Vicky D'Onofrio,**

*Federal Register Liaison Officer.*

[FR Doc. 03-4084 Filed 2-14-03; 12:15 pm]

**BILLING CODE 7533-01-M**

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR Part 60—"Disposal of High-Level Radioactive Wastes in Geologic Repositories".
2. *Current OMB approval number:* 3150-0127.

3. *How often the collection is required:* The information need only be submitted one time.

4. *Who is required or asked to report:* State or Indian Tribes, or their representatives, requesting consultation with the NRC staff regarding review of a potential high-level radioactive waste

geologic repository site, or wishing to participate in a license application review for a potential geologic repository (other than a potential geologic repository site at Yucca Mountain, Nevada, currently under investigation by the U.S. Department of Energy, which is now regulated under 10 CFR Part 63).

5. *The number of annual respondents:* 1; however, none are expected in the next three years.

6. *The number of hours needed annually to complete the requirement or request:* 121 hours; however, none are expected in the next three years.

7. *Abstract:* Part 60 requires States and Indian Tribes to submit certain information to the NRC if they request consultation with the NRC staff concerning the review of a potential repository site, or wish to participate in a license application review for a potential repository (other than the Yucca Mountain, Nevada site proposed by the U.S. Department of Energy). Representatives of States or Indian Tribes must submit a statement of their authority to act in such a representative capacity. The information submitted by the States and Indian Tribes is used by the Director of the Office of Nuclear Material Safety and Safeguards as a basis for decisions about the commitment of NRC staff resources to the consultation and participation efforts. As provided in § 60.1, the regulations in 10 CFR Part 60 no longer apply to the licensing of a geologic repository at Yucca Mountain. All of the information collection requirements pertaining to Yucca Mountain were included in 10 CFR Part 63, and were approved by the Office of Management and Budget under control number 3150-0199 (§ 63.8). The Yucca Mountain site is regulated under 10 CFR Part 63 (66 FR 55792, November 2, 2001).

Submit, by April 21, 2003, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room located at One White Flint North, 11555 Rockville Pike, Rockville, MD. OMB clearance requests are available at the

NRC worldwide Web site <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 E 6, Washington, DC 20555-0001, by telephone at (301) 415-7233, or by Internet electronic mail at [INFOCOLLECTS@NRC.GOV](mailto:INFOCOLLECTS@NRC.GOV).

Dated at Rockville, Maryland, this 12th day of February, 2003.

For the Nuclear Regulatory Commission.

**Brenda Jo. Shelton,**

*NRC Clearance Officer, Office of the Chief Information Officer.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-263]

### **Nuclear Management Company, LLC; Monticello Nuclear Generating Plant; Environmental Assessment and Finding of No Significant Impact**

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from Title 10 of the *Code of Federal Regulations* (10 CFR) Part 50, Section 50.60, "Acceptance criteria for fracture prevention measures for light-water nuclear power reactors for normal operation," and 10 CFR Part 50, Appendix G, "Fracture Toughness Requirements," for Facility Operating License No. DPR-22, issued to the Nuclear Management Company, LLC (the licensee), for operation of the Monticello Nuclear Generating Plant, located in Wright County, Minnesota. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

### **Environmental Assessment**

#### *Identification of the Proposed Action*

The proposed action would exempt the licensee from the requirements of 10 CFR Part 50, Section 50.60(a) and Appendix G, which would allow the use of American Society of Mechanical Engineers *Boiler and Pressure Vessel Code* (ASME Code) Code Case N-640 as the basis for revised reactor vessel pressure and temperature (P/T) limit curves in the Monticello Technical Specifications (TSs).

The regulation at 10 CFR Part 50, Section 50.60(a), requires, in part, that except where an exemption is granted by the Commission, all light-water nuclear power reactors must meet the fracture toughness requirements for the reactor coolant pressure boundary set forth in Appendices G and H to 10 CFR Part 50. Appendix G to 10 CFR Part 50 requires that P/T limits be established for reactor pressure vessels (RPVs) during normal operating and hydrostatic or leak-rate testing conditions. Specifically, 10 CFR Part 50, Appendix G, states, "The appropriate requirements on both the pressure-temperature limits and the minimum permissible temperature must be met for all conditions." Appendix G of 10 CFR Part 50 specifies that the requirements for these limits are the ASME Code, Section XI, Appendix G, limits.

ASME Code Case N-640 permits the use of alternate reference fracture toughness (*i.e.*, use of "K<sub>IC</sub> fracture toughness curve" instead of "K<sub>IA</sub> fracture toughness curve," where K<sub>IC</sub> and K<sub>IA</sub> are "Reference Stress Intensity Factors," as defined in ASME Code, Section XI, Appendices A and G, respectively) for reactor vessel materials in determining the P/T limits. Since the K<sub>IC</sub> fracture toughness curve shown in ASME Code, Section XI, Appendix A, Figure A-2200-1, provides greater allowable fracture toughness than the corresponding K<sub>IA</sub> fracture toughness curve of ASME Code, Section XI, Appendix G, Figure G-2210-1, using ASME Code Case N-640 to establish the P/T limits would be less conservative than the methodology currently endorsed by 10 CFR Part 50, Appendix G. Therefore, an exemption to apply ASME Code Case N-640 is required.

The proposed action is in accordance with the licensee's application dated April 22, 2002, as supplemented by letter dated September 16, 2002.

#### *The Need for the Proposed Action*

The proposed exemption is needed to allow the licensee to implement ASME Code Case N-640 in order to revise the method used to determine the P/T limits because continued use of the present curves unnecessarily restricts the P/T operating window. Since the P/T operating window is defined by the P/T operating and test limit curves developed in accordance with the ASME Code, Section XI, Appendix G, procedure, continued operation of Monticello with these P/T curves without the relief provided by ASME Code Case N-640 would unnecessarily require the RPV to maintain a temperature exceeding 212 °F in a limited operating window during the
