DEPARTMENT OF EDUCATION

West Virginia Department of Education; Written Findings and Compliance Agreement

AGENCY: Office of Elementary and Secondary Education, Department of Education.

ACTION: Notice of written findings and compliance agreement.

SUMMARY: Section 457 of the General Education Provisions Act (GEPA) authorizes the U.S. Department of Education to enter into a compliance agreement with a recipient that is failing to comply substantially with Federal program requirements. In order to enter into a compliance agreement, the Department must determine, in written

findings, that the recipient cannot comply until a future date with the applicable program requirements and that a compliance agreement is a viable means of bringing about such compliance. On March 29, 2002, the Assistant Secretary for Elementary and Secondary Education (Assistant Secretary) entered into a compliance agreement with the West Virginia Department of Education (WVDE). Under section 457(b)(2) of GEPA, the written findings and compliance agreement must be published in the **Federal Register**.

SUPPLEMENTARY INFORMATION: Under Title I, Part A of the Elementary and Secondary Education Act of 1965 (Title I), each State, including the District of Columbia and Puerto Rico, was required to develop or adopt, by the 1997-98 school year, challenging content standards in at least reading/language arts and mathematics that describe what the State expects all students to know and be able to do. Each State also was required to develop or adopt performance standards, aligned with its content standards that describe three levels of proficiency to determine how well students are mastering the content standards. Finally, by the 2000-2001 school year, each State was required to develop or adopt a set of student assessments in at least reading/language arts and mathematics that would be used to determine the yearly performance of schools in enabling students to meet the State's performance standards.

WVDE submitted, and the Department approved, evidence that it has content standards in at least reading/language arts and mathematics. In August 2000, WVDE submitted evidence of its final assessment system and performance standards. The Department submitted that evidence to a panel of three assessment experts for peer review. Following that review, the Assistant

Secretary for Elementary and Secondary Education concluded that WVDE's proposed final assessment system and performance standards did not meet a number of the Title I requirements.

Section 454 of GEPA, 20 U.S.C. 1234c, sets out the remedies available to the Department when it determines that a recipient "is failing to comply substantially with any requirement of law" applicable to Federal program funds the Department administers. Specifically, the Department is authorized to—

- (1) Withhold funds;
- (2) Obtain compliance through a cease and desist order;
- (3) Enter into a compliance agreement with the recipient; or
- (4) Take any other action authorized by law. 20 U.S.C. 1234c(a)(1) through (a)(4).

In a letter dated November 8, 2000 to Dr. David Stewart, Superintendent of Schools for the West Virginia Department of Education, the Assistant Secretary notified WVDE that, in order to remain eligible to receive Title I funds, it must enter into a compliance agreement with the Department. The purpose of a compliance agreement is "to bring the recipient into full compliance with the applicable requirements of law as soon as feasible and not to excuse or remedy past violations of such requirements." 20 U.S.C. 1234f(a). In order to enter into a compliance agreement with a recipient, the Department must determine, in written findings, that the recipient cannot comply until a future date with the applicable program requirements, and that a compliance agreement is a viable means for bringing about such compliance.

On March 29, 2002, the Assistant Secretary issued written findings, holding that compliance by WVDE with the Title I standards and assessment requirements is genuinely not feasible until a future date. Having submitted its assessment system for peer review in August 2000, WVDE was not able to make the significant changes to its system that the Department's review required in time to meet the spring 2001 statutory deadline to have approved assessments in place. As a result, WVDE administered its unapproved assessment system in 2001. The Assistant Secretary also determined that a compliance agreement represents a viable means of bringing about compliance because of the steps WVDE has already taken to comply, its commitment of resources, and the plan it has developed for further action. The agreement sets out the action plan that WVDE must meet to come into compliance with the Title I

requirements. This plan, coupled with specific reporting requirements, will allow the Assistant Secretary to monitor closely WVDE's progress in meeting the terms of the compliance agreement. The Superintendent of WVDE, Dr. David Stewart, signed the agreement on March 22, 2002 and the Assistant Secretary signed it on March 29, 2002.

As required by section 457(b)(2) of GEPA, 20 U.S.C. 1234f(b)(2), the text of the Assistant Secretary's written findings is set forth as appendix A and the compliance agreement is set forth as appendix B of this notice.

Appendix A—Text of the Written Findings of the Assistant Secretary for Elementary and Secondary Education

I. Introduction

The Assistant Secretary for Elementary and Secondary Education (Assistant Secretary) of the U.S. Department of Education (Department) has determined, pursuant to 20 U.S.C. 1234c and 1234f, that the West Virginia Department of Education (WVDE) has failed to comply substantially with certain requirements of Title I, Part A of the Elementary and Secondary Education Act of 1965 (Title I), 20 U.S.C. 6301 *et seq.*, and that it is not feasible for WVDE to achieve full compliance immediately. Specifically, the Assistant Secretary has determined that WVDE failed to meet a number of the Title I requirements concerning the development of performance standards and an aligned assessment system within the statutory timeframe.

For the following reasons, the Assistant Secretary has concluded that it would be appropriate to enter into a compliance agreement with WVDE to bring it into full compliance as soon as feasible. During the

effective period of the compliance agreement, which ends three years from the date of these findings, WVDE will be eligible to receive Title I funds as long as it complies with the terms and conditions of the agreement as well as the provisions of Title I, Part A and other applicable Federal statutory and regulatory requirements.

II. Relevant Statutory and Regulatory Provisions

A. Title I, Part A of the Elementary and Secondary Education Act of 1965

Title I, Part A of the Elementary and Secondary Education Act of 1965 (Title I), 20 U.S.C. 6301 *et seq.*, provides financial assistance, through State educational agencies, to local educational agencies to provide services in high-poverty schools to students who are failing or at risk of failing to meet the State's student performance standards. Under Title I, each State, including the District of Columbia and Puerto Rico, was required to develop or adopt, by the 1997-98 school year, challenging content standards in at least reading/language arts and mathematics that describe what the State expects all students to know and be able to do and performance standards, aligned with those content standards, that describe three levels of proficiency to determine how well students are mastering the content standards.

By the 2000-2001 school year, Title I required each State to develop or adopt a set of student assessments in at least reading/language arts and mathematics that would be used to determine the yearly performance of schools and school districts in enabling students to meet the State's performance standards. These assessments must meet the following requirements:

- The assessments must be aligned to a State's content and performance standards.
 - They must be administered annually to students in at least one grade in each of three grade ranges: grades 3 through 5, grades 6 through 9, and grades 10 through 12.
 - They must be valid and reliable for the purpose for which they are used and of high technical quality.
 - They must involve multiple measures, including measures that assess higher-order thinking skills.
 - They must provide for the inclusion of all students in the grades assessed, including students with disabilities and limited English proficient students.
 - They must provide individual reports.
 - Results from the assessments must be disaggregated and reported by major racial and ethnic groups and other categories.
- 20 U.S.C. 6311(b)(3).¹[1]

¹ On January 8, 2002, Title I of the Elementary and Secondary Education Act was reauthorized by the No Child Left Behind Act of 2001 (NCLB) (Pub. L. 107-110). The NCLB made several significant changes to the Title I standards and assessment requirements. First, it requires that each State develop academic content and student achievement standards in science by the 2005-06 school year. Second, by the 2005-06 school year, it requires a system of aligned assessments in each of grades 3 through 8 and once during grades 10 through 12. Third, it requires science assessments in at least three grade spans by the 2007-08 school year. Fourth, the NCLB significantly changes the

B. The General Education Provisions Act

The General Education Provisions Act (GEPA) provides a number of options when the Assistant Secretary determines a recipient of Department funds is "failing to comply substantially with any requirement of law applicable to such funds." 20 U.S.C. 1234c. In such case, the Assistant Secretary is authorized to—

- (1) Withhold funds;
- (2) Obtain compliance through a cease and desist order;
- (3) Enter into a compliance agreement with the recipient; or
- (4) Take any other action authorized by law. 20 U.S.C. 1234c(a)(1) through (a)(4).

Under section 457 of GEPA, the Assistant Secretary may enter into a compliance agreement with a recipient that is failing to comply substantially with specific program requirements. 20 U.S.C. 1234f. The purpose of a compliance agreement is "to bring the recipient into full compliance with the applicable requirements of the law as soon as feasible and not to excuse or remedy past violations of such requirements." 20 U.S.C. 1234f(a). Before entering into a compliance agreement with a recipient, the Assistant Secretary must hold a hearing at which the recipient, affected students and parents or their representatives, and other interested parties are invited to participate. At that hearing, the recipient has the burden of persuading the Assistant Secretary that full compliance with the applicable requirements of law is not feasible until a future date and that a compliance agreement is a viable means for bringing about such compliance. 20 U.S.C. 1234f(b)(1). If, on the basis of all the available evidence, the Assistant Secretary determines that compliance until a future date is genuinely not feasible and that a compliance agreement is a viable means for bringing about such compliance, the Assistant Secretary must make written findings to that effect and publish those findings, together with the substance of any compliance agreement, in the **Federal Register**. 20 U.S.C. 1234f(b)(2).

A compliance agreement must set forth an expiration date, not later than three years from the date of these written findings, by which time the recipient must be in full compliance with all program requirements. 20 U.S.C. 1234f(c)(1). In addition, a compliance agreement must contain the terms and conditions with which the recipient must comply during the period that agreement is in effect. 20 U.S.C. 1234f(c)(2). If the recipient fails to comply with any of the terms and conditions of the compliance agreement, the Assistant Secretary may consider the agreement no longer in effect and may take any of the compliance actions described previously. 20 U.S.C. 1234f(d).

definition of adequate yearly progress each State must establish to hold schools and school districts accountable, based on data from the 2001-02 test administration. Finally, by the 2002-03 school year, the NCLB requires State and school district report cards that include, among other things, assessment results disaggregated by various subgroups, two-year trend data, and percent of students tested.

III. Analysis

A. Overview of Issues To Be Resolved in Determining Whether a Compliance Agreement Is Appropriate

In deciding whether a compliance agreement between the Assistant Secretary and WVDE is appropriate, the Assistant Secretary must first determine whether compliance by WVDE with the Title I standards and assessment requirements is genuinely not feasible until a future date. 20 U.S.C. 1234f(b). The second issue that the Assistant Secretary must resolve is whether WVDE will be able, within a period of up to three years, to come into compliance with the Title I requirements. Not only must WVDE come into full compliance by the end of the effective period of the compliance agreement, it must also make steady and measurable progress toward that objective while the compliance agreement is in effect. If such an outcome is not possible, then a compliance agreement between the Assistant Secretary and WVDE would not be appropriate.

B. WVDE Has Failed To Comply Substantially With Title I Standards and Assessment Requirements

In August 2000, WVDE submitted evidence of its final assessment system. The Assistant Secretary submitted that evidence to a panel of three assessment experts for peer review. Following that review, the Assistant Secretary for Elementary and Secondary Education concluded that WVDE's proposed final assessment system did not meet a number of the Title I requirements. Specifically, the Assistant Secretary determined that WVDE must do the following:

- Develop or select an academic assessment system that represents the full range of the WVDE's academic content standards and academic achievement standards in at least reading/language arts and mathematics and is consistent with the Title I requirements for use of multiple measures of student achievement, including measures that assess higher-order thinking and understanding. Document the alignment of the assessment system with WVDE's academic content and student achievement standards.

- Provide evidence that the State assessment will be used for purposes for which such assessments are valid and reliable, and be consistent with relevant, nationally recognized professional and technical standards for such assessments.

- Provide evidence of performance standards aligned to content standards.

- Clarify how reasonable accommodations are provided to students with disabilities and limited English proficient students that allow for their scores to be included in the accountability system.

- Clarify how data for students who take the alternate assessment and students administered assessments with non-standard accommodations will be incorporated into the accountability system.

- Provide complete participation data for students with disabilities and limited English proficient students so that the State's inclusion policies relating to assessment,

reporting, and accountability can be evaluated.

- Provide individual reports of student achievement relative to the State performance standards.

- Provide school, district, and State level reports using disaggregated data by all the required categories.

- Provide evidence that LEAs are completing and disseminating school and district profiles that include statistically sound disaggregated results.

- Clarify how the State defines "full academic year" for including students in determining adequate yearly progress.

C. WVDE Cannot Correct Immediately Its Noncompliance With the Title I Standards and Assessment Requirements

Under the Title I statute, WVDE was required to implement its final assessment system no later than the 2000–2001 school year. 20 U.S.C. 6311(b)(6). WVDE submitted evidence of its assessment system in August 2000, but the Assistant Secretary determined, on the basis of that evidence, that WVDE's system did not fully meet the Title I requirements. Due to the enormity and complexity of developing a new assessment system that addressed the Assistant Secretary's concerns, WVDE was not able to complete that task between the time it submitted its system for review and the spring 2001 assessment window. Thus, in spring 2001, WVDE administered the assessment that the Assistant Secretary had determined did not meet the Title I requirements. As a result, the Assistant Secretary finds that it is not genuinely feasible for WVDE to come into compliance until a future date.

D. WVDE Can Meet the Terms and Conditions of a Compliance Agreement and Come Into Full Compliance With the Requirements of Title I Within Three Years

At the public hearing, WVDE presented evidence of its commitment and capability to come into compliance with the Title I standards and assessment requirements within three years. For example, the following have been developed in the last 18 months: content standards and objectives for core courses grades K–12; performance standards, three levels performance descriptors for those three levels performance for core courses K–12; a comprehensive, completely revised plan for a statewide assessment system that meets both the old law and the provisions of the reauthorization.

Finally, WVDE has developed a comprehensive action plan, incorporated into the compliance agreement, that sets out a very specific schedule that WVDE has agreed to meet during the next three years for attaining compliance with the Title I standards and assessment requirements. As a result, WVDE is committed not only to coming into full compliance within three years, but to meeting a stringent, but reasonable, schedule for doing so. The action plan also demonstrates that WVDE will be well on its way to meeting the new standards and assessment requirements of the No Child Left Behind Act of 2001. The compliance agreement also sets out documentation and

reporting procedures that WVDE must follow. These provisions will allow the Assistant Secretary to ascertain promptly whether WVDE is meeting each of its commitments under the compliance agreement and is on schedule to achieve full compliance within the effective period of the agreement.

The task of developing an assessment system that meets the Title I requirements is not a quick or easy one. However, the Assistant Secretary has determined that, given the commitment of WVDE to comply with the terms and conditions of the compliance agreement, it is possible for WVDE to come into full compliance with the Title I standards and assessment requirements within three years.

IV. Conclusion

For the foregoing reasons, the Assistant Secretary finds the following: (1) That full compliance by WVDE with the standards and assessment requirements of Title I is not feasible until a future date; and (2) that WVDE can meet the terms and conditions of the attached compliance agreement and come into full compliance with the Title I standards and assessment requirements within three years of the date of these findings. Therefore, the Assistant Secretary has determined that it is appropriate to enter into a compliance agreement with WVDE. Under the terms of 20 U.S.C. 1234f, that compliance agreement becomes effective on the date of these findings.

Dated: March 29, 2002.

Assistant Secretary, Office of Elementary and Secondary Education.

Appendix B—Text of the Compliance Agreement

Compliance Agreement Under Title I of the Elementary and Secondary Education Act Between the United States Department of Education and the West Virginia Department of Education

Introduction

Title I of the Elementary and Secondary Education Act of 1965 (Title I) required each State, including the District of Columbia and Puerto Rico, to develop or adopt, by the 1997–98 school year, challenging content standards in at least reading/language arts and mathematics that describe what the State expects all students to know and be able to do. Title I also required each State to develop or adopt performance standards, aligned with those content standards, that describe three levels of proficiency to determine how well students are mastering the content standards. By the 2000–2001 school year, Title I required each State to develop or adopt a set of student assessments in at least reading/language arts and mathematics that would be used to determine the yearly performance of schools and school districts in enabling students to meet the State's performance standards.

The West Virginia Department of Education (WVDE) was not able to meet these requirements by the statutory deadlines. In order to be eligible to continue to receive

Title I funds while working to comply with the statutory requirements, Dr. David Stewart, Superintendent of WVDE, indicated WVDE's interest in entering into a compliance agreement with the Office of Elementary and Secondary Education (OESE) of the United States Department of Education. On February 4, 2002 OESE conducted a public hearing regarding WVDE's ability to come into compliance with the Title I standards and assessment requirements within three years. Based on testimony at that hearing, Mr. William Luff, Deputy State Superintendent, testified that compliance by WVDE with the Title I standards and assessment requirements was not possible by this school year. According to the Deputy State Superintendent, when the current State Superintendent was advised, "by the U.S. office, in late spring, that our assumptions about use of the existing assessments were incorrect, he immediately directed the department staff to come into full compliance with the law as quickly as possible."

Pursuant to this Compliance Agreement under 20 U.S.C. 1234f, WVDE must be in full compliance with the requirements of Title I no later than three years from the date of the Assistant Secretary's written findings, a copy of which is attached to, and incorporated by reference into, this Agreement. Specifically, WVDE must meet, and document that it has met, the following requirements:

1. Develop or select an academic assessment system that represents the full range of the WVDE's academic content standards and academic achievement standards in at least reading/language arts and mathematics and is consistent with the Title I requirements for use of multiple measures of student achievement, including measures that assess higher-order thinking and understanding. Document the alignment of the assessment system with WVDE's

academic content and student achievement standards.

2. Provide evidence that the State assessment shall be used for purposes for which such assessments are valid and reliable, and be consistent with relevant, nationally recognized professional and technical standards for such assessments.

3. Provide evidence of performance standards aligned to content standards.

4. Clarify how reasonable accommodations are provided to students with disabilities and limited English proficient students that allow for their scores to be included in the accountability system.

5. Clarify how data for students who take the alternate assessment and students administered assessments with non-standard accommodations will be incorporated into the accountability system.

6. Provide complete participation data for students with disabilities and LEP students so that the State's inclusion policies relating to assessment, reporting, and accountability can be evaluated.

7. Provide individual reports of student achievement relative to the state performance standards.

8. Provide school, district, and State level reports using disaggregated data by all the required categories.

9. Provide evidence that LEAs are completing and disseminating school and district profiles that include statistically sound disaggregated results.

10. Clarify how the State defines "full academic year" for including students in determining adequate yearly progress.

During the period that this Compliance Agreement is in effect, WVDE is eligible to receive Title I, Part A funds if it complies with the terms and conditions of this Agreement, as well as the provisions of Title I, Part A and other applicable Federal statutory and regulatory requirements. Specifically, the Compliance Agreement sets

forth the action steps WVDE must meet to come into compliance with the Title I standards and assessment requirements (See attached). WVDE must submit documentation concerning its compliance with these action steps.

The action steps, hereby incorporated into this Compliance Agreement by reference may be amended by joint agreement of the parties, provided full compliance can still be accomplished by the expiration date of the Agreement.

In addition to all of the terms and conditions set forth above, WVDE agrees that its continued eligibility to receive Title I, Part A funds is predicated upon compliance with statutory and regulatory requirements of that program that have not been addressed by this Agreement, including the requirements of the No Child Left Behind Act of 2001.

If WVDE fails to comply with any of the terms and conditions of this Compliance Agreement, including the action steps attached hereto the USED may consider the Agreement no longer in effect and may take any action authorized by law, including the withholding of funds or the issuance of a cease and desist order following notice and opportunity to be heard in accordance with 20 U.S.C. § 1234d. 20 U.S.C. § 1234f(d).

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does This Action Apply to Me?

This action is directed to the public in general. This action may be of particular interest to anyone who may be affected if the AEGL values are adopted by government agencies for emergency planning, prevention, or response programs, such as EPA's Risk Management Program under the Clean Air Act and Amendments Section 112. It is possible that other Federal agencies besides EPA, as well as State agencies and private organizations, may adopt the AEGL values for their programs. As such, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the DFO listed under **FOR FURTHER INFORMATION CONTACT**.
