[Program Announcement 03038]

Cooperative Agreement for Development of the National Violent Death Reporting System; Notice of Availability of Funds

A. Authority and Catalog of Federal Domestic Assistance Number

This program is authorized under section 301(a) (42 U.S.C. 241(a)) of the Public Health Service Act and section 391(a) (42 U.S.C. 280b(a)) of the Public Service Health Act, as amended. The catalog of Federal Domestic Assistance number is 93.136.

B. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2003 funds for a cooperative agreement surveillance program to expand the implementation of the National Violent Death Reporting System (NVDRS) as mandated in FY 2003 Senate appropriations language. NVDRS will assist State governments to understand the extent of the violence problem in their states and to develop and evaluate violence prevention program efforts. This program addresses the "Healthy People 2010" focus area of Injury and Violence Prevention.

In response to Congressional appropriations language in FY 2002, CDC began implementation of NVDRS in six states. The purpose of NVDRS is to generate public health surveillance information at the national, state, and local levels that is more detailed, useful, and timely than is currently available. This information will help develop, inform, and evaluate violence prevention strategies at the state level. The proposed system builds upon a pilot system, the National Violent Injury Statistics System (NVISS) that has been under development since 1999. Additional information on this pilot system can be found at: <http://www.NVISS.org>.

Measurable outcomes of the program will be in alignment with the following performance goal for the National Center for Injury Prevention and Control (NCIPC): Develop new or improved
