A. What Is the Background of This Action?

EPA is approving revisions to Indiana's SIP for PSD. IDEM submitted these revisions to EPA on February 1, 2002, following an informal review by EPA in which a number of issues were identified and resolved by the two agencies. On January 15, 2003, EPA published a direct final rule conditionally approving these revisions (68 FR 1970). On the same date, EPA also proposed to approve the revisions (68 FR 1998). In a separate action, we withdrew the direct final rule because we received adverse comments. The proposed approval remained in effect. Today we are responding to those comments and taking final action to conditionally approve Indiana's SIP revision request.

In our January 15, 2003 direct final rulemaking, we discussed the history of Indiana's PSD program, the contents of the State's submission and our analysis. Please consult that document for further information on those matters.

On December 31, 2002, EPA published revisions to its New Source
