### Bureau of Land Management

**[NM091-9941-EK-HE931]**

#### Extension of Approved Information Collection, OMB Control Number 1004-0180

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) is requesting the Office of Management and Budget (OMB) to extend an existing approval to collect information from private parties who enter into agreements to recover and dispose of helium on Federal lands. BLM uses Form 3100-12, Gas Well Data Survey of Helium-Bearing Natural Gas, to collect this information. This information allows BLM to determine and evaluate the extent of any helium resources that may exist in natural gas.

**DATES:** You must submit your comments to BLM at the address below on or before May 6, 2003. BLM will not necessarily consider any comments received after the above date.

**ADDRESSES:** You may mail comments to: Bureau of Land Management, (WO-630), Eastern States Office, 7450 Boston Blvd., Springfield, Virginia 22153.

You may send comments via Internet to: [WOCComment@blm.gov](mailto:WOCComment@blm.gov). Please include "ATTN: 1004-0180" and your name and return address in your Internet message.

You may deliver comments to the Bureau of Land Management, Administrative Record, Room 401, 1620 L Street, NW., Washington, DC.

All comments will be available for public review at the L Street address during regular business hours (7:45 a.m. to 4:15 p.m.), Monday through Friday.

**FOR FURTHER INFORMATION CONTACT:** You may contact Brent Gage on (806) 324-2659 (Commercial or FTS). Persons who use a telecommunications device for the

deaf (TDD) may call the Federal Information Relay Service at 1-800-877-8330, 24 hours a day, seven days a week, to contact Mr. Gage.

**SUPPLEMENTARY INFORMATION:** 5 CFR 1320.12(a) requires BLM to provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Owners and operators of helium-bearing natural gas wells and transmission lines must submit Form 3100-12, Gas Well Data Survey of Helium-Bearing Natural Gas, to provide for gas sampling and analysis we use to locate helium occurrences in natural gases. BLM carries out this program under 74 Stat. 920, Public Law 104-273, Helium Privatization Act of 1996. The knowledge of helium occurrences is part of the Government's conservation program.

We request the following information on Form 3100-12:

(A) BLM needs the survey information to locate natural gas wells and evaluate the helium resources of the United States. Results of released gas well analyses and related data are published annually for Government, industry, and public use.

(B) *Field Survey Number:* The BLM, Helium Operations Office, assigns this number to record and catalog the gas sample. The number is necessary for reference and future identification of the gas sample.

(C) *State and County:* The geographical location is necessary to identify the source of the gas sample. After the gas source is identified, BLM uses this information to evaluate the potential for supplying helium.

(D) *Field, Well Name, and API Number:* This information identifies the source of the gas sample. Each producing state assigns official field designations to producing areas. BLM uses this information to determine
