

NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Wallace Environmental Testing Laboratories, Inc. of Houston, Texas ("WETL") (Registered Importer 90-005) has petitioned NHTSA to decide whether 1986 Chevrolet Blazer multipurpose passenger vehicles, originally manufactured for sale in European and other foreign markets, are eligible for importation into the United States. The vehicles which WETL believes are substantially similar are 1986 Chevrolet Blazer multipurpose passenger vehicles that were manufactured for sale in the United States and certified by their manufacturer, General Motors Corporation, as conforming to all applicable Federal motor vehicle safety standards.

The petitioner claims that it carefully compared non-U.S. certified 1986 Chevrolet Blazer multipurpose passenger vehicles to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most Federal motor vehicle safety standards.

WETL submitted information with its petition intended to demonstrate that non-U.S. certified 1986 Chevrolet Blazer multipurpose passenger vehicles, as originally manufactured, conform to many Federal motor vehicle safety standards in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that non-U.S. certified 1986 Chevrolet Blazer multipurpose passenger vehicles are identical to their U.S. certified counterparts with respect to compliance with Standard Nos. 101 *Controls and Displays*, 102 *Transmission Shift Lever Sequence * * **, 103 *Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 106 *Brake Hoses*, 108 *Lamps, Reflective Devices and Associated Equipment*, 113 *Hood Latch Systems*, 116 *Motor Vehicle Brake Fluids*, 119 *New Pneumatic Tires for Vehicles other than Passenger Cars*, 124 *Accelerator Control Systems*, 202 *Head Restraints*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Retention*, 214 *Side Impact Protection*, 219 *Windshield Zone Intrusion*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

Additionally, the petitioner states that non-U.S. certified 1986 Chevrolet Blazer multipurpose passenger vehicles comply with the Vehicle Identification Number plate requirement of 49 CFR part 565.

Petitioner further contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 111 Rearview Mirror: replacement of the passenger side rearview mirror, which is flat and has 1:1 magnification.

Standard No. 114 Theft Protection: installation of an audible warning module.

Standard No. 120 Tire Selection and Rims for Motor Vehicles other than Passenger Cars: installation of a tire information placard.

Standard No. 208 Occupant Crash Protection: installation of an audible safety belt warning system. The petitioner states that the vehicle is equipped with Type II seat belts in both front outboard seating positions and Type I seat belts in the rear outboard and center seating positions and that driver and front outboard passenger seating positions are not required to have air bags.

The petitioner also states that a certification label must be affixed to the driver's side door jamb to meet the requirements of 49 CFR Part 567.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Management, Room PL-401, 400 Seventh St., SW., Washington, DC 20590. [Docket hours are from 9 am to 5 pm]. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

[Docket No. NHTSA-2002-13933; Notice 2]

Decision That Nonconforming 1996-2002 Mercedes Benz E Class (W210) Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of decision by NHTSA that nonconforming 1996-2002 Mercedes Benz E Class (W210) passenger cars are eligible for importation.

SUMMARY: This notice announces the decision by NHTSA that 1996-2002 Mercedes Benz E Class (W210) passenger cars not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States because they are substantially similar to vehicles originally manufactured for importation into and sale in the United States and certified by their manufacturer as complying with the safety standards (the U.S. certified version of the 1996-2002 Mercedes Benz E Class (W210)), and they are capable of being readily altered to conform to the standards.

DATES: This decision is effective as of the date of its publication in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Coleman Sachs, Office of Vehicle Safety Compliance, NHTSA (202-366-3151).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and

affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Automobile Concepts, Inc. of Miami, Florida ("AMC") (Registered Importer 01-278) petitioned NHTSA to decide whether non-U.S. certified 1996-2002 Mercedes Benz E Class (W210) passenger cars are eligible for importation into the United States. NHTSA published notice of the petition on December 18, 2002 (67 FR 77556) to afford an opportunity for public comment. The reader is referred to that notice for a thorough description of the petition. No comments were received in response to the notice of the petition. Based on its review of the information submitted by the petitioner, NHTSA has decided to grant the petition.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final decision must indicate on the form HS-7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP-401 is the vehicle eligibility number assigned to vehicles admissible under this notice of final decision.

Final Decision

Accordingly, on the basis of the foregoing, NHTSA hereby decides that 1996-2002 Mercedes Benz E Class (W210) passenger cars that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are substantially similar to 1996-2002 Mercedes Benz E Class (W210) passenger cars originally manufactured for importation into and sale in the United States and certified under 49 U.S.C. 30115, and are capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: March 7, 2003.

[STB Finance Docket No. 34316]

The Burlington Northern and Santa Fe Railway Company-Trackage Rights Exemption-Union Pacific Railroad Company

Union Pacific Railroad Company (UP) has agreed to grant overhead trackage rights to The Burlington Northern and Santa Fe Railway Company (BNSF) over UP's Port Lavaca Subdivision extending from milepost 14.2 in Placedo, TX, to milepost 6.95 in Kamey, TX, a distance of approximately 7.25 miles. The purpose of the trackage rights is to allow BNSF access to the rail line it is constructing between Kamey and Seadrift, TX.¹ In addition, UP has agreed to grant BNSF temporary trackage rights² on UP's Port Lavaca Subdivision from UP milepost 15.4 to UP milepost 14.2 and from UP milepost 6.0 to UP milepost 6.95.

The transaction is scheduled to be consummated on or after February 27, 2003, the effective date of the exemption (7 days after the notice was filed).

As a condition to this exemption, any employees affected by the trackage rights will be protected by the conditions imposed in *Norfolk and Western Ry. Co.-Trackage Rights-BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.-Lease and Operate*, 360 I.C.C. 653 (1980).

This notice is filed under 49 CFR 1180.2(d)(7). If it contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket

No. 34316, must be filed with the Surface Transportation Board, 1925 K Street NW., Washington, DC 20423-0001. In addition, one copy of each pleading must be served on Sarah W.

¹ BSNF was granted authority to construct and operate this railroad line in *The Burlington Northern and Santa Fe Railway Company-Construction and Operation Exemption-Seadrift and Kamey, TX*, STB Finance Docket No. 34003 (STB served Jan. 25, 2002).

² On February 28, 2003, BNSF filed a petition for exemption in STB Finance Docket No. 34316 (Sub-No. 1), *The Burlington Northern and Santa Fe Railway Company-Trackage Rights Exemption-Union Pacific Railroad Company*, wherein BNSF requests that the Board permit the proposed temporary trackage rights arrangement described in this notice to expire upon completion of the construction of its rail line. That petition will be addressed by the Board in a separate decision.
