[Docket 11-2003]

Foreign-Trade Zone 75—Phoenix, AZ; Application for Subzone, American Italian Pasta Company, Distribution of Dry Pasta Products, Tolleson, AZ

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of Phoenix, Arizona, grantee of FTZ 75, requesting special-purpose subzone status for the dry pasta products warehousing/distribution facility of the American Italian Pasta Company (AIPC), in Tolleson, Arizona. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on March 4, 2003.

The AIPC facility (288,000 sq. ft./1 bldg. on 22.7 acres) is located at 495 South 99th Avenue, Tolleson (Maricopa County), Arizona. It was expanded in 2002 and is expected to become fully operational during the first quarter of 2003. The facility (54 employees initially, with plans to increase to some 200) is used for warehousing, inspection, packaging and distribution

of dry pasta products received by all AIPC facilities located in the U.S. and Italy. About 1 percent of production is currently exported. The plant will also be used to manufacture dry pasta for U.S. and export markets, but manufacturing authority is not being requested at this time. Certain dry pasta imports from Italy are subject to anti-dumping/countervailing (AD/CVD) duties.

Zone procedures would exempt AIPC from Customs duty payments (including AD/CVD) on foreign products that are reexported. On domestic sales, the company would be able to defer payments until merchandise is shipped from the plant. FTZ status may also make a site eligible for benefits provided under state/local programs. The application indicates that the savings from zone procedures will help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

2. *Submissions Via the U.S. Postal Service:* Foreign-Trade-Zones Board, U.S. Department of Commerce, FCB—Suite 4100W, 1401 Constitution Ave., NW., Washington, DC 20230.

The closing period for their receipt is May 12, 2003. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to May 27, 2003).

Notice of Amended Final Results of Antidumping Duty Administrative Review: Bulk Aspirin from the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of amended final results of antidumping duty administrative review.

EFFECTIVE DATE: March 13, 2003.

FOR FURTHER INFORMATION CONTACT: Julie Santoboni or Cole Kyle, Office 1, AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone (202) 482-4194 or (202) 482-1503, respectively.

Scope of Review

The product covered by this review is bulk acetylsalicylic acid, commonly referred to as bulk aspirin, whether or not in pharmaceutical or compound form, not put up in dosage form (tablet, capsule, powders or similar form for direct human consumption). Bulk aspirin may be imported in two forms, as pure ortho-acetylsalicylic acid or as mixed ortho-acetylsalicylic acid. Pure ortho-acetylsalicylic acid can be either in crystal form or granulated into a fine powder (pharmaceutical form). This product has the chemical formula C₉H₈O₄. It is defined by the official monograph of the United States Pharmacopoeia ("USP") 23. It is classified under the Harmonized Tariff Schedule of the United States ("HTSUS") subheading 2918.22.1000.

Mixed ortho-acetylsalicylic acid consists of ortho-acetylsalicylic acid combined with other inactive substances such as starch, lactose, cellulose, or coloring materials and/or other active substances. The presence of other active substances must be in concentrations less than that specified for particular nonprescription drug combinations of bulk aspirin and active substances as published in the *Handbook of Nonprescription Drugs*, eighth edition, American Pharmaceutical Association. This product is classified under HTSUS subheading 3003.90.0000. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise under investigation is dispositive.

Amended Final Results

On February 4, 2003, the Department of Commerce ("the Department") determined that bulk aspirin from the People's Republic of China ("PRC") is not being sold in the United States at less than normal value, as provided in section 751(a) of the Tariff Act of 1930, as amended ("the Act"). See *Bulk Aspirin from the People's Republic of China; Final Results of Antidumping Duty Administrative Review* ("Final Results"), 68 FR 6710 (February 10, 2003). On February 7 and 10, 2003, Shandong Xinhua Pharmaceutical Co., Ltd. ("Shandong") and Rhodia, Inc. ("petitioner"), respectively, filed timely ministerial error allegations pursuant to 19 CFR 351.224(c)(2). On February 12, 2003 the petitioner filed a reply to Shandong's allegation and on February 18, 2003, Shandong filed a response to the petitioner's February 12, 2003 submission. The other respondent in this review, Jilin Henghe Pharmaceutical Company Ltd. ("Jilin"), did not file a ministerial error allegation.

The petitioner contends that the Department incorrectly rounded one of the surrogate values for caustic soda, incorrectly deducted taxes from the domestic price of acetic acid sold on the Mumbai Dyes Market and assigned the incorrect surrogate labor value for packing labor in Jilin's normal value calculations. The petitioner also alleges that the Department overstated the excise and sales taxes for all domestic values because the deduction of taxes

from the *International Chemical Weekly* ("ICW") domestic prices was based on the gross price, when instead it should have been based on the before-tax price. Furthermore the petitioner asserts that the Department did not calculate a portion of the normal value build up associated with one of the inputs. Neither Shandong nor Jilin responded to petitioner's comments.

Shandong contends that the Department incorrectly used a single surrogate value for virgin acetic acid to value all the acetic acid inputs in its calculation of the cost of acetic anhydride production, when instead it should have valued the virgin and recovered acetic acid separately. The petitioner contends that the Department correctly applied the surrogate value of virgin acetic acid to the full quantity of acetic acid used in the production process and that Shandong ignores the distinction between "recovered" acetic acid and "recycled" or "reused" acetic acid. In its response to the petitioner's comments, Shandong argues that recovered, recycled and reused acetic acid are identical and should have the same value.

In accordance with section 735(e) of the Act, we have determined that certain ministerial errors were made in our final results margin calculations. Specifically we find that the incorrect calculation of certain taxes from the ICW domestic prices and the incorrect surrogate value of Jilin's packing labor constitute clerical errors. For a detailed discussion of all of the ministerial error allegations and the Department's analysis, see Memorandum to Susan Kuhbach, "Antidumping Duty Administrative Review of Bulk Aspirin from the People's Republic of China; Allegations of Ministerial Errors" dated March 5, 2003, which is on file in the Central Records Unit, room B-099 of the main Department building.

In accordance with 19 CFR 351.224(e), we are amending the final results of the antidumping duty administrative review of bulk aspirin from the PRC to correct these ministerial errors. However, the amended weighted-average margins are identical to the weighted-average margins in the final results (see *Final Results*). The weighted-average dumping margins for Jilin and Shandong are listed below:

Producer/manufacturer/exporter	Original weighted-average margin percentage	Amended results weighted-average margin percentage
Jilin Henghe Pharmaceutical Company Ltd.	0.04 (<i>de minimis</i>)	0.04 (<i>de minimis</i>)
Shandong Xinhua Pharmaceutical Co., Ltd.	0.00	0.00
