Proposed Amendments to the Regulations

It is proposed to amend part 181, Customs Regulations (19 CFR part 181), as set forth below.

PART 181—NORTH AMERICAN FREE TRADE AGREEMENT

1. The authority citation for part 181 would continue to read as follows:

Authority: 19 U.S.C. 66, 1202 (General Note 23, Harmonized Tariff Schedule of the United States), 1624, 3314.

2. Subpart L of part 181 is amended by adding a new § 181.132 to read as follows:

§ 181.132 Disassembly.

(a) *Treated as a production.* For purposes of implementing the rules of origin provisions of General Note 12, HTSUS, and Chapter Four of the NAFTA, except as provided in paragraph (b) of this section, disassembly is considered to be production, and a component recovered from a good disassembled in the territory of a Party will be considered to be originating as the result of such disassembly provided that:

(1) The recovered component satisfies all applicable requirements of Annex 401 and this part; and

(2) Where the rule in Annex 401 applicable to the recovered component does not include a regional value content requirement, the recovered component is thereafter advanced in value or improved in condition by means of additional processing operations other than those listed below. Merely processing by performing any or all of the following minor operations would not be sufficient to be considered production:

(i) Cleaning or sterilizing, including removal of rust, grease, paint, or other coatings;

(ii) Application of preservative or decorative coatings, including lubricants, protective encapsulation, preservative or decorative paint, or metallic coatings;

(iii) Trimming, filing or cutting off small amounts of excess materials (precision machining, however, is not considered a minor operation);

(iv) Unloading, reloading or any other operation necessary to maintain the good in good condition;

(v) Packing, re-packing, packaging or repackaging; or

(vi) Testing, marking, sorting, or grading.

(b) *Exception; new goods.*

Disassembly as provided in paragraph

(a) of this section will not be considered a production in the case of components that are recovered from new goods.

(c) *Automotive components/goods.* Notwithstanding the provisions of Schedule V (Automotive Goods) of the Appendix to this part, the rule set forth in this section applies for purposes of determining whether goods of that Schedule are originating.

Robert C. Bonner,

Commissioner of Customs.

Approved: February 18, 2003.

II. Background

On January 24, 2003, EPA, in conjunction with the Fish and Wildlife Service, U.S. Department of the Interior, and National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, issued a **Federal Register** document (68 FR 3785) (FRL-7287-3) seeking public comment on an ANPR for an endangered species and pesticide regulation.

Among the comments received thus far was a request, signed by 30 groups, for an extension of the comment period by 45 days. While the agencies appreciate the need to provide adequate opportunity for public input, the agencies believe a shorter extension is warranted for several reasons. First, numerous comments were already received during the original comment period. Second, the January 24, 2003 **Federal Register** notice was an ANPR. Thus, the public will have further opportunity to comment with future publication of a notice of proposed rulemaking.

III. What Action is EPA Taking?

Since EPA has an electronic docket system that allows distribution of materials more easily to interested persons, EPA agreed to take responsibility for all of the administrative duties related to publication of the ANPR and this document, including the creation of a public docket, receipt of public comments, and other related matters. Therefore, EPA, on behalf of the three agencies, hereby reopens the comment period, which ended on March 10, 2003. The new comment period will end March 25, 2003.

IV. What is the Agency's Authority for Taking this Action?

The ANPR was issued under the authority of section 7 of the Endangered Species Act (ESA), as amended, 16 U.S.C. 1531 *et seq.*, and the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. 136 *et seq.*

V. Do Any Statutory and Executive Order Reviews Apply to this Action?

No. This action merely extends the date by which public comments must be submitted to EPA on an ANPR that previously published in the **Federal Register** of January 24, 2003 (68 FR 3785). For information about the applicability of the regulatory assessment requirements to the ANPR, please refer to the discussion in Unit IV. of that document (68 FR 3785).
