

10.421—Indian Tribes and Tribal Corporation Loans.

Discussion of the Proposed Rule

This proposed rule revises and clarifies the write-down servicing policies of the Farm Service Agency's Indian Tribal Land Acquisition Loan Program. The first proposed change is to clarify "rental value". Applicants and borrowers have misunderstood this term. Therefore, a definition is added in the proposed rule at § 770.2(b). A second revision changes the current appraisal needed to apply for a rental value write-down. An appraisal provides a substantial amount of information at the borrower's expense that is not necessary for calculating rental value write-downs. The information FSA needs can be provided by a rental value market study report prepared by a certified general appraiser. This change will dramatically reduce the borrower's costs. Also, since it requires less work for the appraiser, it reduces the appraiser's delay in completing the report, thus reducing FSA's processing time.

A third change is proposed in the eligibility requirements for both ITLAP land value and rental value write-downs. The eligibility requirements currently in the reamortization paragraph at § 770.10(a)(1) are being proposed for the write-down sections as well in §§ 770.10(e)(3)(v) and (e)(4)(v). These standards would require borrowers to submit complete application forms and establish that the delinquency is beyond the borrowers' control which cannot be brought current within one year and borrowers cannot meet the annual loan payments. These eligibility requirements will help assure that write-downs will be provided only to those financially distressed borrowers who are faced with circumstances outside their control. Several FSA loan servicing programs contain similar eligibility requirements. See 7 CFR 1951.909(c).

For rental value write-downs, the current rule at § 770.10(e)(4)(iv) prevents additional write-downs only when the specific ITLAP loan has received a rental value write-down previously and the specific loan has received a land value write-down within the last 5 years. The proposed rule would modify this paragraph to preclude an additional rental value write-down when any loan has ever received a rental value write-down or any loan has received a land value write-down within the last 5 years. The proposed revisions will limit FSA's losses when it provides rental value write-downs.

Similarly, the proposed rule seeks to add an additional loan eligibility requirement to § 770.3. Since write-downs are the consequence of a borrower's seriously deteriorating financial condition, the proposed rule adds a requirement for additional ITLAP loan eligibility requiring that borrowers must not have received an ITLAP rental value or land value write-down within the last five years. The additional eligibility requirement will enable FSA to make more creditworthy loans and decrease the possibility of further Agency losses.

The proposed rule will result in better service and substantial monetary and time savings for borrowers who apply for a write-down based on rental value. In addition, it will increase the protection of the taxpayers from potential loss and reduce the agency official's burden in administering the servicing of the Indian Tribal Land Acquisition Program Loans.

Cotton Board Rules and Regulations: Adjusting Supplemental Assessment on Imports, (2003 Amendments)

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Agricultural Marketing Service (AMS) is proposing to amend the Cotton Board Rules and Regulations by lowering the value assigned to imported cotton for the purpose of calculating supplemental assessments collected for use by the Cotton Research and Promotion Program. An adjustment is required on an annual basis to ensure that the assessments collected on imported cotton and the cotton content of imported products remain similar to those paid on domestically produced cotton.

DATES: Comments must be received on or before April 14, 2003.

ADDRESSES: Interested persons are invited to submit written comments

concerning this proposed rule to Whitney Rick, Chief, Research and Promotion Staff, Cotton Program, Agricultural Marketing Service, USDA, STOP 0224, Washington, DC 20250-0224. Comments should be submitted in triplicate. Comments may also be submitted electronically to: cottoncomments@usda.gov. All comments should reference the docket number and the date and page number of this issue of the **Federal Register**. All comments received will be made available for public inspection at Cotton Program, AMS, USDA, Room 2641-S, 1400 Independence Ave., SW., Washington, DC 20250 during regular business hours. A copy of this notice may be found at: www.ams.usda.gov/cotton/rulemaking.htm.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

The Office of Management and Budget has waived the review process required by Executive Order 12866 for this action.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect. This proposed rule would not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Cotton Research and Promotion Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 12 of the Act, any person subject to an order may file with the Secretary a petition stating that the order, any provision of the plan, or any obligation imposed in connection with the order is not in accordance with law and requesting a modification of the order or to be exempted therefrom. Such person is afforded the opportunity for a hearing on the petition. After the hearing, the Secretary would rule on the petition. The Act provides that the District Court of the United States in any district in which the person is an inhabitant, or has his principal place of business, has jurisdiction to review the Secretary's ruling, provided a complaint is filed within 20 days from the date of the entry of ruling.

Regulatory Flexibility Act

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) AMS has considered the economic impact of this action on small entities and has determined that its implementation will not have a significant economic impact on a substantial number of small businesses.

There are an estimated 10,000 importers who are presently subject to rules and regulations issued pursuant to the Cotton Research and Promotion Order. This proposed rule would affect importers of cotton and cotton-containing products. The majority of these importers are small businesses under the criteria established by the Small Business Administration. This proposed rule would lower the assessments paid by the importers under the Cotton Research and Promotion Order. Even though the assessment would be lowered, the decrease is small and will not significantly affect small businesses. The current assessment on imported cotton is \$0.00862 per kilogram of imported cotton. The proposed assessment is \$0.008267, a decrease of \$0.000353 or a 4.1 percent decrease. From January through December 2002 approximately \$24 million was collected. Should the volume of cotton products imported into the U.S. remain at the same level in 2003, one could expect the decreased assessment to generate approximately \$23 million or a 4.1 percent decrease from 2002.

Paperwork Reduction

In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*) the information collection requirements contained in the regulation to be amended have been previously approved by OMB and were assigned control number 0581-0093.

Background

The Cotton Research and Promotion Act Amendments of 1990 enacted by Congress under Subtitle G of Title XIX of the Food, Agriculture, Conservation and Trade Act of 1990 on November 28, 1990, contained two provisions that authorized changes in the funding procedures for the Cotton Research and Promotion Program.

These provisions are: (1) The assessment of imported cotton and cotton products; and (2) termination of the right of cotton producers to demand a refund of assessments.

An amended Cotton Research and Promotion Order was approved by

producers and importers voting in a referendum held July 17-26, 1991, and the amended Order was published in the **Federal Register** on December 10, 1991, (56 FR 64470). A proposed rule implementing the amended Order was published in the **Federal Register** on December 17, 1991, (56 FR 65450). Implementing rules were published on July 1 and 2, 1992, (57 FR 29181) and (57 FR 29431), respectively.

This proposed rule would decrease the value assigned to imported cotton in the Cotton Board Rules and Regulations (7 CFR 1205.510(b)(2)). This value is used to calculate supplemental assessments on imported cotton and the cotton content of imported products. Supplemental assessments are the second part of a two-part assessment. The first part of the assessment is levied on the weight of cotton produced or imported at a rate of \$1 per bale of cotton which is equivalent to 500 pounds or \$1 per 226.8 kilograms of cotton.

Supplemental assessments are levied at a rate of five-tenths of one percent of the value of domestically produced cotton, imported cotton, and the cotton content of imported products. The agency has adopted the practice of assigning the calendar year weighted average price received by U.S. farmers for Upland cotton to represent the value of imported cotton. This is done so that the assessment on domestically produced cotton and the assessment on imported cotton and the cotton content of imported products remain similar. The source for the average price statistic is "Agricultural Prices", a publication of the National Agricultural Statistics Service (NASS) of the Department of Agriculture. Use of the weighted average price figure in the calculation of supplemental assessments on imported cotton and the cotton content of imported products yields an assessment that approximates assessments paid on domestically produced cotton in the prior calendar year.

The current value of imported cotton as published in the **Federal Register** (67 FR 36793) on May 28, 2002, for the purpose of calculating supplemental assessments on imported cotton is \$.8422 per kilogram. This number was calculated using the annual weighted average price received by farmers for Upland cotton during the calendar year 2001 which was \$0.382 per pound and multiplying by the conversion factor 2.2046. Using the Average Weighted Price received by U.S. farmers for Upland cotton for the calendar year 2002, which is \$0.35 per pound, the new value of imported cotton is \$0.7716 per kilogram. The proposed value is

\$.0706 per kilogram less than the previous value.

An example of the complete assessment formula and how the various figures are obtained is as follows:

One bale is equal to 500 pounds.

One kilogram equals 2.2046 pounds.

One pound equals 0.453597 kilograms.

*One Dollar Per Bale Assessment
Converted to Kilograms*

A 500 pound bale equals 226.8 kg. (500 x .453597).

\$1 per bale assessment equals \$0.002000 per pound (1/500) or \$0.004409 per kg. (1/226.8).

*Supplemental Assessment of 5/10 of
One Percent of the Value of the Cotton
Converted to Kilograms.*

The 2002 calendar year weighted average price received by producers for Upland cotton is \$0.35 per pound or \$0.7716 per kg. (0.35 x 2.2046).

Five tenths of one percent of the average price in kg. equals \$0.003858 per kg. (0.7716 x .005).

Total Assessment

The total assessment per kilogram of raw cotton is obtained by adding the \$1 per bale equivalent assessment of \$0.004409 per kg. and the supplemental assessment \$0.003858 per kg. which equals \$0.008267 per kg.

The current assessment on imported cotton is \$0.008620 per kilogram of imported cotton. The proposed assessment is \$0.008267, a decrease of \$0.000353 per kilogram. This decrease reflects the decrease in the Average Weighted Price of Upland Cotton received by U.S. Farmers during the period January through December 2002.

Since the value of cotton is the basis of the supplemental assessment calculation and the figures shown in the right hand column of the Import Assessment Table 1205.510(b)(3) are a result of such a calculation, the figures in this table have been revised. These figures indicate the total assessment per kilogram due for each Harmonized Tariff Schedule (HTS) number subject to assessment.

A thirty day comment period is provided to comment on the changes to the Cotton Board Rules and Regulations proposed herein. This period is deemed appropriate because this proposal would lower the assessments paid by importers under the Cotton Research and Promotion Order. Accordingly, the change proposed in this rule, if adopted, should be implemented as soon as possible.

Advertising, Agricultural research, Cotton, Marketing agreements, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble 7 CFR part 1205 is proposed to be amended as follows:

PART 1205—COTTON RESEARCH AND PROMOTION

1. The authority citation for part 1205 continues to read as follows:

Authority: 7 U.S.C. 2101–2118.

2. In § 1205.510, paragraph (b)(2) and the table in paragraph (b)(3)(ii) are revised to read as follows:

§ 1205.510 Levy of assessments.

* * * * *

(b) * * *

(2) The 12-month average of monthly weighted average prices received by U.S. farmers will be calculated annually. Such weighted average will be used as the value of imported cotton for the purpose of levying the supplemental assessment on imported cotton and will be expressed in kilograms. The value of imported cotton for the purpose of levying this supplemental assessment is \$0.8267 per kilogram.
