SUMMARY: Split Rock Energy, LLC (Split Rock) has applied for authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before April 21, 2003.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal &

Power Import/Export (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350 (FAX 202-287-5736).

FOR FURTHER INFORMATION CONTACT:

Rosalind Carter (Program Office) 202-586-7983 or Michael Skinker (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On August 15, 2000, the Office of Fossil Energy (FE) of the Department of Energy (DOE) issued Order No. EA-225 authorizing Split Rock to transmit electric energy from the United States to Canada as a power marketer using the international electric transmission facilities owned and operated by Basin Electric Power Cooperative, Bonneville Power Administration, Citizen Utilities, Eastern Maine Electric Cooperative, International Transmission Company (formally The Detroit Edison Company), Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power Inc., Minnkota Power Cooperative, New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power, and Vermont Electric Transmission Company. That two-year authorization expired on August 15, 2002.

On February 3, 2003, DOE received an application from Split Rock to renew its authorization to transmit electric energy from the United States to Canada for a period of five (5) years.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Federal Energy Regulatory Commission's rules of practice and procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the Split Rock application to export electric energy to Canada should be clearly marked with Docket EA-225-A. Additional copies are to be filed directly with Steven W. Tyacke, Esq., 30 West Superior Street, Duluth, MN 55802, (218) 723-3955.

DOE notes that the circumstances described in this application are virtually identical to those for which export authority had previously been

granted in FE Order No. EA-225. Consequently, DOE believes that it has adequately satisfied its responsibilities under the National Environmental Policy Act of 1969 through the documentation of a categorical exclusion in the FE Docket EA-225 proceeding.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the FE home page at <http://www.fe.de.gov>. Upon reaching the FE home page, select "Electricity Regulation" and then "Pending Proceedings" from the options menus.

Issued in Washington, DC, on March 17, 2003.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Coal & Power Import/Export, Office of Coal & Power Systems, Office of Fossil Energy.

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: Westmin Resources, Inc. (WRI) and Boliden Westmin (Canada) Limited (BWCL) jointly applied to transfer Presidential Permit PP-85-A from WRI to BWCL.

DATES: Comments, protests, or requests to intervene must be submitted on or before April 7, 2003.

ADDRESSES: Comments, protests, or requests to intervene should be addressed as follows: Office of Coal & Power Import/Export, FE-27, Forrestal Building, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Rosalind Carter (Program Office) at 202-586-7983 or Michael T. Skinker (Program Attorney) at 202-586-2793.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

Existing Presidential permits are not transferable or assignable. However, in the event of a proposed voluntary transfer of facilities, in accordance with the regulations at 10 CFR 205.323, the existing permit holder and the transferee are required to file a joint application for transfer of the permit that includes a statement of reasons for the transfer.

On October 5, 1988, DOE issued Presidential Permit PP-85 to WRI for a 35,000-volt alternating current transmission line which crosses the U.S. international border from British Columbia, Canada, passes through the State of Alaska, and re-enters British Columbia at a second point on the U.S. international border. On November 13, 1989, at the request of WRI, DOE reissued the Presidential permit (PP-85-A) in the name of Westmin Mines, Inc.

On October 22, 2002, WRI and BWCL jointly filed an application to transfer Presidential Permit PP-85-A from WRI to BWCL. BWCL is a Canadian corporation and an indirect, wholly-owned subsidiary of Boliden Mineral AB, a Swedish corporation. BWCL, will own and operate the U.S. portion of the transmission facilities.

Before a Presidential permit may be issued or amended, the DOE must determine that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system. In addition, DOE must consider the environmental impacts of the proposed action (*i.e.*, granting the Presidential permit, with any conditions and limitations, or denying the permit) pursuant to the National Environmental Policy Act of 1969. DOE also must obtain the concurrence of the Secretary

of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above.
