

maintain narrow and competitive quotation spreads. Consequently, the Commission believes that the ISE's proposal to establish a \$5 maximum spread on a pilot basis in 50 options classes is consistent with the Act.

The ISE is implementing the proposal on a six-month pilot basis. Prior to the conclusion of the pilot program, the ISE has agreed to submit a report to the Commission assessing the operation of the pilot program and, in particular, the quality of the quotations for the Pilot Options.⁷ The report will include: (1) The identity of the Pilot Options; (2) information concerning the frequency with which quotations for the Pilot Options were narrower than the current quote spread parameters for options at that price, at the current quote spread parameters for options at that price, and wider than the current quote spread parameters for options at that price; (3) the average quotation spread for each Pilot Option during each month of the pilot program; (4) the widest and narrowest quote spreads for each Pilot Option during each month of the pilot program; (5) any problems that developed during the pilot program and how the ISE addressed those problems; and (6) any additional information that would help the Commission assess the pilot program.

IV. Conclusion

For the foregoing reasons, the Commission finds that the proposal is consistent with the requirements of the Act and rules and regulations thereunder.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,⁸ that the proposed rule change (SR-ISE-2001-15) is approved as a six-month pilot program to expire on September 19, 2003.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁹
