Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. SUPPLEMENTARY INFORMATION: On July 29, 2002, CE Obsidian Energy LLC (CEOE) filed an Application for Certification (AFC) seeking approval from the California Energy Commission (CEC) to construct and operate the Salton Sea Unit 6 Geothermal Energy Power Project (SSU6). The proposed geothermal project is a 185 MW geothermal electric generation facility located on private lands, approximately 1,000 feet southeast of the Salton Sea, and six miles northwest of Calipatria, CA, within an unincorporated area of Imperial County, California. The SSU6 Project will be owned by CEOE, and operated by an affiliate of CEOE. The IID will engineer, construct, own, operate, and maintain the transmission lines required for the facility. The proposed L-Line Interconnection is a new 16-mile double circuit 161 kV transmission line that would provide a direct inter-tie between the proposed SSU6 Project and IID's existing L-Line. The L-Line Interconnection would proceed south from the plant site along the east side of Severe Road, turning west along the south side of Kuns Road, then south along the east side of Crummer Road to Lindsey Road. The line would continue

west along the south side of Lindsey Road to Lack Road, and then along the east side of Lack Road to Bannister Road west to Highway 86, and then cross approximately 2.8 miles of BLM land to the existing L-Line.

BLM is soliciting comments only on the proposed plan amendment and the proposed right-of-way for the 2.8 miles of transmission line that would cross Federal lands. The CEC has the exclusive authority to certify the construction and operation of the SSU6 Geothermal Power Plant and related facilities. The CEC's thorough site certification process provides a timely review and analysis of all aspects of a proposed project, including need, public health and environmental impacts, safety, efficiency, and reliability. CEC's responsibilities are similar to those of a lead agency under the California Environmental Quality Act (CEQA).
