

Rivers Conservancy once the license is surrendered and the project is removed, and used to protect and conserve fish and wildlife habitat, public access, and recreation opportunities in the Sandy River Basin. Project water rights would be relinquished and would revert to instream use.

l. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659. A copy is also available for inspection and reproduction at the address in item g above.

m. *Scoping Process*; The Commission intends to prepare an Environmental Impact Statement (EIS) on the project in accordance with the National Environmental Policy Act. The EIS will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

PGE and Commission staff conducted scoping prior to PGE's preparation of a draft environmental assessment that was filed with the Commission as part of the surrender application. Scoping document 1 was issued on July 30, 1999, and scoping document 2 was issued on November 4, 1999. Scoping meetings were held on September 1, 1999. We are requesting comments on any additional issues or alternatives that should be analyzed in the EIS.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[OAR-2003-0015; FRL-7475-7]

Agency Information Collection Activities; Submission of EPA ICR No. 1696.04 (OMB No. 2060-0297) to OMB for Review and Approval; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information

Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Fuels and Fuel Additives—Health-Effects Research Protocols—40 CFR part 79, subpart F. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before May 2, 2003.

ADDRESSES: Follow the detailed instructions in **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

James W. Caldwell, Transportation and Regional Programs Division, Office of Transportation and Air Quality (6406J), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (202) 564-9303; fax number: (202) 565-2085; e-mail address: caldwell.jim@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On December 12, 2002 (67 FR 76399), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OAR-2003-0015, which is available for public viewing at the Office of Air and Radiation Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Office of Air and Radiation Docket is (202) 566-1742. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice, and according to the following detailed instructions: (1) Submit your comments to EPA online using EDOCKET (our preferred method), by e-mail to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental

Protection Agency, Mailcode: 6102T, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001, and (2) Mail your comments to OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to www.epa.gov/edocket.

Title: Fuels and Fuel Additives—Health-Effects Research Protocols—40 CFR part 79, subpart F, (OMB Control Number 2060-0297, EPA ICR Number 1696.04). This is a request to renew an existing approved collection that is scheduled to expire on May 31, 2003. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: In accordance with the regulations at 40 CFR part 79, subparts A, B, C, and D, Registration of Fuels and Fuel Additives, manufacturers (including importers) of gasoline and diesel fuel, and manufacturers (including importers) of additives for gasoline or diesel fuel, are required to have their products registered by EPA prior to their introduction into commerce. Registration involves providing a chemical description of the fuel or additive, and certain technical, marketing, and health-effects information. The development of health-effects data, as required by 40 CFR part 79, subpart F, is the subject of this ICR. The information collection requirements for subparts A through D, and the supplemental notification requirement of subpart F (indicating how the manufacturer will satisfy the

research requirements) are covered by a separate ICR (EPA ICR Number 0309.10, OMB Control Number 2060-0150). The health-effects information will be used to determine if there are any products whose evaporative or combustion emissions pose an unreasonable risk to public health, thus meriting further investigation and potential regulation. This information is required for specific groups of fuels and additives as defined in the regulations. For example, all gasolines and gasoline additives which consist of only carbon, hydrogen, oxygen, nitrogen, and/or sulphur, and which involve a gasoline oxygen content of less than 1.5 weight percent, fall into a "baseline" group. Oxygenates, such as ethanol and methyl tertiary butyl ether (MTBE), when used in gasoline at oxygen levels of at least 1.5 weight percent, define separate "nonbaseline" groups for each oxygenate. Additives which contain elements other than carbon, hydrogen, oxygen, nitrogen, and/or sulphur fall into separate "atypical" groups. There are similar grouping requirements for diesel fuels and additives.

Manufacturers may perform the research independently or may join with other manufacturers to share in the costs for each applicable group. Several research consortiums (groups of manufacturers) have been formed. The largest consortium, organized by the American Petroleum Institute (API), represents most of the manufacturers of baseline and nonbaseline gasolines, diesel fuels, and additives. The research is structured into three tiers of requirements for each group. Tier 1 requires an emissions characterization and a literature search for information on the health effects of those emissions. Voluminous Tier 1 data were submitted by API and others in 1997. Tier 1 data were submitted for biodiesel and a water/diesel fuel emulsion in 1998 and 2000, respectively. Tier 2 requires short-term inhalation exposures of laboratory animals to emissions to screen for adverse health effects. Alternative Tier 2 testing can be required in lieu of the standard Tier 2 if EPA concludes that such testing would be more appropriate. The EPA reached that conclusion with respect to gasoline and gasoline-oxygenate blends, and alternative requirements have been established for the API consortium for baseline gasoline and six gasoline-oxygenate blends. A similar situation exists with the Ethyl Corporation and its manganese additive MMT, and alternative requirements have been established. The API submitted Tier 2 data for diesel in 1997. Tier 2 data were submitted for biodiesel

and a water/diesel fuel emulsion in 2000 and 2002, respectively. Tier 3 provides for follow-up research, if necessary. No Tier 3 requirements have been established, and it is unlikely that any will be during the next three years. Thus, Tier 3 is not addressed in this ICR. Under section 211 of the Clean Air Act, (1) submission of the information is necessary for a manufacturer to obtain registration of a new fuel or additive, and thus be allowed to introduce that product into commerce, and (2) the information shall not be considered confidential.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 15,175 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers of Fuels and Fuel Additives.

Estimated Number of Respondents: 8.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 60,700.

Estimated Total Annual Cost: \$6.8 million, includes \$1.4 million annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 6,767 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to the incorrect allocation of hours to some of the capital/start-up costs and operating and maintenance costs in the previous ICR.

Dated: March 13, 2003.

Oscar Morales,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[RCRA-1999-0050, FRL-7475-8]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Part B Permit Application, Permit Modifications, and Special Permits

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Part B Permit Application, Permit Modifications, and Special Permits, EPA ICR # 1573.10, OMB No. 2050-0009, expires on March 31, 2003. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before May 2, 2003.

ADDRESSES: Follow the detailed instructions in **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: David Eberly, Office of Solid Waste (5303W), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 308-8645, or by e-mail at eberly.david@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has established a public docket for this ICR under Docket ID No. RCRA-1999-0050, which is available for public viewing at the RCRA Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the RCRA Docket is (202) 566-0270. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use
