[Program Announcement 03034]

Public Health Laboratory Biomonitoring Implementation Program; Notice of Availability of Funds

Application Deadline: July 2, 2003.

A. Authority and Catalog of Federal Domestic Assistance Number

This program is authorized under sections 301 and 317 of the Public Health Service Act, 42 U.S.C. 241 and 247b, as amended. The catalog of Federal Domestic Assistance number is 93.283.

B. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2003 funds for cooperative agreements to establish or expand state public health laboratory biomonitoring capacity. This program addresses the "Healthy People 2010" focus areas of Environmental Health and Public Health Infrastructure. This program builds upon biomonitoring planning conducted by State public health laboratories during FY 2001 and FY 2002 under Program Announcement (PA) 01072, Public Health Laboratory Biomonitoring Planning Grant. PA 01072 can be viewed at http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=2001_register&docid=01-11215-filed.

The purpose of this program is to implement and expand State laboratory-based biomonitoring programs to assess human exposure to environmental toxicants, help prevent disease resulting from exposure to toxic substances, and determine estimates of background exposure to naturally occurring and industrial chemicals that have the potential to cause harm.

Measurable outcomes of the program will be in alignment with one or more of the following performance goals for

the National Center for Environmental Health (NCEH):

1. Develop laboratory capacity to monitor human exposures to environmental chemicals.
2. Periodically determine the number of Americans exposed to environmental chemicals and the degree of their exposure.
3. Increase the capacity of State and local health departments to deliver environmental health services in their communities.

C. Eligible Applicants

Assistance will be provided only to public health laboratories of States or lead States of consortia that were recipients of CDC grants for biomonitoring planning in FY2001 and FY2002 under PA 01072 (see Attachment 3 as posted on the CDC Web site for a listing of funded grantees under PA 01072). No other applications are solicited.

Applications are only sought from those grantees under PA 01072, who have developed a biomonitoring plan and the necessary relationships and contacts to implement their plan. These grantees have spent two years on the development of their biomonitoring plans. New applicants would not have those plans in place, and therefore would not be ready to move into the implementation phase being funded by this new announcement.

States, territories, or protectorates that do not meet the preceding requirement may participate by entering into a consortium or other agreement with an eligible State or an eligible consortium of States.

Only one application per State or consortium may be submitted. A State may apply as an individual State or as the lead member of a consortium, but not both. Members of a consortium may not apply as individual States.

Note: Title 2 of the United States Code section 1611 states that an organization described in section 501c(4) of the Internal Revenue Code that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant or loan.
