

additional test standards. OSHA's current scope of recognition for NSF may be found in the following informational web page: <http://www.osha-slc.gov/dts/otpca/nrtl/nsf.html>.

OSHA recognition of an NRTL signifies that the organization has met the legal requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products "properly certified" by the NRTL to meet OSHA standards that require testing and certification.

The Agency processes applications by an NRTL for initial recognition or for expansion or renewal of this recognition following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on an application. These notices set forth the NRTL's scope of recognition or modifications of this scope.

NSF submitted its application, dated June 25, 2002 (see Exhibit 10), to expand its recognition to use 12 additional test standards. The NRTL Program staff performed the on-site review (assessment) of the facility and provided a positive recommendation on the expansion in their report (see Exhibit 11). OSHA published the notice of its preliminary findings on the expansion request in the **Federal Register** on December 26, 2002 (67 FR 248). The notice requested submission of any public comments by January 10, 2003. OSHA did not receive any comments pertaining to the application.

The previous notice published by OSHA for NSF's recognition covered an expansion of recognition, which became effective on June 28, 2000 (65 FR 39944).

The current address of the NSF facility (site) already recognized by OSHA is: NSF International, 789 Dixboro Road, Ann Arbor, MI 48105

Final Decision and Order

The NRTL Program staff has examined the application, the assessor's report, and other pertinent information. Based upon this examination and the assessor's recommendation, OSHA finds that NSF International has met the

requirements of 29 CFR 1910.7 for expansion of its recognition to include the additional test standards, subject to the limitation and conditions, listed below. Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the recognition of NSF, subject to this limitation and these conditions.

Limitation

Expansion for Additional Standards

OSHA limits the expansion to testing and certification of products for demonstration of conformance to the following 12 test standards, and OSHA has determined the standards are "appropriate," within the meaning of 29 CFR 1910.7(c).

- UL 73 Motor-Operated Appliances
- UL 399 Drinking-Water Coolers
- UL 466 Electric Scales
- UL 514B Fittings for Cable and Conduit
- UL 514C Nonmetallic Outlet Boxes, Flush-Device Boxes and Covers
- UL 514D Cover Plates for Flush-Mounted Wiring Devices
- UL 541 Refrigerated Vending Machines
- UL 751 Vending Machines
- UL 982 Motor-Operated Household Food Preparing Machines
- UL 1453 Electric Booster and Commercial Storage Tank Water Heaters
- UL 1563 Electric Spas, Equipment Assemblies, and Associated Equipment
- UL 1795 Hydromassage Bathtubs

A few of the test standards listed above, are approved as American National Standards by the American National Standards Institute (ANSI). However, for convenience in compiling the list, we often use the designation of the standards developing organization (e.g., UL 751) for the standard, as opposed to the ANSI designation (e.g., ANSI/UL 751). Under our procedures, an NRTL recognized for an ANSI-approved test standard may use either the latest proprietary version of the test standard or the latest ANSI version of that standard, regardless of whether it is currently recognized for the proprietary or ANSI version. Contact "NSSN" (<http://www.nssn.org>), an organization partially sponsored by ANSI, to find out whether or not a test standard is currently ANSI-approved.

Conditions

NSF must also abide by the following conditions of the recognition, in addition to those already required by 29 CFR 1910.7:

OSHA must be allowed access to NSF's facility and records for purposes

of ascertaining continuing compliance with the terms of its recognition and to investigate as OSHA deems necessary;

If NSF has reason to doubt the efficacy of any test standard it is using under this program, it must promptly inform the test standard developing organization of this fact and provide that organization with appropriate relevant information upon which its concerns are based;

NSF must not engage in or permit others to engage in any misrepresentation of the scope or conditions of its recognition. As part of this condition, NSF agrees that it will allow no representation that it is either a recognized or an accredited Nationally Recognized Testing Laboratory (NRTL) without clearly indicating the specific equipment or material to which this recognition is tied, or that its recognition is limited to certain products;

NSF must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major changes in its operations as an NRTL, including details;

NSF will meet all the terms of its recognition and will always comply with all OSHA policies pertaining to this recognition;

NSF will continue to meet the requirements for recognition in all areas where it has been recognized.

Signed at Washington, DC, this 20th day of March, 2003.

John L. Henshaw,

Assistant Secretary.

BILLING CODE 4510-26-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-354]

PSEG Nuclear, LLC; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission or NRC) has granted the request of PSEG Nuclear, LLC, (the licensee) to withdraw its April 16, 2002, application for proposed amendment to Facility Operating License No. NPF-57 for the Hope Creek Generating Station, Unit No. 1, located in Salem County, New Jersey.

The proposed amendment would have revised the Technical Specifications to delete the primary containment isolation valves and instrumentation associated with the

permanent removal of the reactor vessel head spray piping.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on October 29, 2002 (67 FR 66013). However, by letter dated March 19, 2003, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated April 16, 2002, and the licensee's letter dated March 19, 2003, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams/html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 28th day of March 2003.

For the Nuclear Regulatory Commission.

George F. Wunder,

Project Manager, Section 2, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-390]

Tennessee Valley Authority; Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations; Correction

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of consideration of issuance of amendment; correction.

SUMMARY: This document corrects a notice appearing in the **Federal Register** on March 18, 2003 (68 FR 12958), that referenced the incorrect year of Date of Amendment Request. This action is necessary to correct an erroneous date.

FOR FURTHER INFORMATION CONTACT: K. Jabbour, Project Manager, Office of

Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone (301) 415-1496, e-mail: knj@nrc.gov.

SUPPLEMENTARY INFORMATION: On page 12958, in the second column, third line up from bottom of page, it is corrected to read from "2003" to "2002."

Dated in Rockville, Maryland, this 27th day of March 2003.

For the Nuclear Regulatory Commission.

Kahtan N. Jabbour,

Senior Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-47591; File No. S7-30-02]

RIN 3235-AI60

Regulation Analyst Certification

AGENCY: Securities and Exchange Commission.

ACTION: Notice of OMB approval of collections of information.

SUMMARY: The Securities and Exchange Commission ("Commission") adopted new Regulation Analyst Certification ("Regulation AC") (17 CFR 242.500 through 242.505) under the Securities Exchange Act (17 U.S.C. 78, *et seq.*) on February 20, 2003. Regulation AC requires that brokers, dealers, and certain persons associated with a broker or dealer include in research reports certifications by the research analyst that the views expressed in the report accurately reflect his or her personal views, and disclose whether or not the analyst received compensation or other payments in connection with his or her specific recommendations or views. Broker-dealers would also be required to obtain periodic certifications by research analysts in connection with the analyst's public appearances. Certain provisions of the Regulation contain "collection of information" requirements within the meaning of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), and the Commission submitted the proposed collections of information to the Office of Management and Budget (OMB) for review. OMB has approved the collection of information requirements contained in Regulation AC.

EFFECTIVE DATE: April 14, 2003.

FOR FURTHER INFORMATION CONTACT: James Brigagliano, Thomas Eidt, or

Racquel Russell, at (202) 942-0772 in the Office of Risk Management and Control in the Division of Market Regulation, Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549-0506.

SUPPLEMENTARY INFORMATION:

I. Regulation Analyst Certification

Regulation Analyst Certification requires that broker-dealers and covered persons include in their research reports:

- A statement by the research analyst certifying that the views expressed in the research report accurately reflect such research analyst's personal views about the subject securities or issuers; and

- A statement by the research analyst certifying that no part of his or her compensation was, is, or will be directly or indirectly related to the specific recommendation or views contained in the research report; or

- A statement by the research analyst certifying that part or all of his or her compensation was, is, or will be directly or indirectly related to the specific recommendation or views contained in the research report. If the analyst did receive such related compensation, the statement must include the source and amount of such compensation, and the purpose of the compensation, and further disclose that such compensation may influence the recommendation in the research report.

Additionally, under Regulation AC, broker-dealers must make a record related to public appearances by research analysts. Specifically, a broker-dealer who publishes, circulates, or provides a research report prepared by a research analyst it or a covered person employs, would be required to make a record within thirty days after each calendar quarter in which the research analyst made the public appearance, that includes:

- A written statement by the research analyst certifying that the views expressed in each public appearance accurately reflected such research analyst's personal views about the subject securities or issuers; and

- A written statement by the research analyst certifying that no part of such research analyst's compensation was, is, or will be directly or indirectly related to any specific recommendations or views expressed in any public appearance.

In cases where the broker or dealer does not obtain a statement by the research analyst in connection with public appearances as described above, the broker-dealer must promptly notify its examining authority, designated
