

Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the Congressional Review Act if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary, or contrary to the public interest. This determination must be supported by a brief statement (5 U.S.C. 808(2)). As stated previously, the EPA has made such a good cause finding, including the reasons therefore, and established an effective date of April 7, 2003. The EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the correction in the **Federal Register**. This correction is not a "major rule" as defined by 5 U.S.C. 804(2).

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 03-826; MM Docket No. 01-159; RM-10164; RM-10395]

Radio Broadcasting Services; Comanche, Mullin and Mason, TX

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document denies a petition for rule making filed at the request of Charles Crawford, proposing the allotment of FM Channel 224A at Comanche, Texas as that community's second local FM transmission service (RM-10164). See 66 FR 39473, July 31, 2001. In response to a counterproposal filed by Mullin Broadcasters (RM-10395) this document allots Channel 224C3 to Mullin, Texas, as that community's first local aural transmission service. Our determination was based on the Commission's allotment priorities (see *Revisions of FM Assignment Policies and Procedures*, 90 FCC 2d 88 (1982)), and is consistent with the Commission's policy to allot the highest class channel requested to a community that complies with the technical requirements of the Rules. Additionally, Channel 259A is allotted to Mason, Texas, as a replacement for vacant Channel 224A to accommodate the Mullin, Texas allotment. Coordinates used for Channel 224C3 at Mullin, Texas, are 31-33-24 NL and 98-39-55 WL. Coordinates used for replacement Channel 259A at Mason, Texas, remain unchanged at 30-45-00 NL and 99-14-00 WL. As Mason is located within 320 kilometers of the U.S.-Mexico border, the Mexican government will be advised of the channel substitution at that community. With this action, this docketed proceeding is terminated.

DATES: Effective May 5, 2003. A filing window for Channel 224C3 at Mullin, Texas, and for Channel 259A at Mason, Texas, will not be opened at this time. Instead, the issue of opening this allotment for auction will be addressed by the Commission in a subsequent Order.

Radio Broadcasting Services; Buffalo, Oklahoma

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Audio Division, at the request of Robert Fabian, allots Channel 224C2 to Buffalo, Oklahoma, as the community's first local aural transmission service. See 68 FR 532, January 6, 2003. Channel 224C2 can be allotted to Buffalo, in compliance with the Commission's minimum distance separation requirements, provided there is a site restriction of 19.8 kilometers (12.3 miles) east of the community. The reference coordinates for Channel 224C2 at Buffalo are 36-50-36 North Latitude and 99-24-30 West Longitude. A filing window for Channel 224C2 at Buffalo, Oklahoma, will not be opened at this time. Instead, the issue of opening a filing window for this channel will be

addressed by the Commission in a subsequent order.

DATES: Effective May 5, 2003.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 021101264-3016-02; I.D. 032503A]

RIN 0648 AQ33

Fisheries of the Northeastern United States; Atlantic Herring Fishery; 2003 Atlantic Herring Specifications; Clarification and Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification and Clarification of Seasonal Allocation for Area 1A for Atlantic Herring Specifications; correction.

SUMMARY: Pursuant to the Magnuson-Stevens Fishery Conservation and Management Act, NMFS clarifies the measures in the final rule implementing the final specifications for the 2003 Atlantic herring fishery. In that final rule, NMFS listed the 2003 total allowable catch (TAC) of Atlantic herring for Area 1A. However, the two seasonal TACs for the area were inadvertently omitted. The intent of this notification is to announce the 2003 seasonal allocation of Atlantic herring in Area 1A and correct the Table reflecting the 2003 Atlantic Herring Specifications published in the **Federal Register** on February 6, 2003.

DATES: The Atlantic herring specifications for fishing year 2003 published February 6, 2003 (68 FR 6088) are corrected, effective April 4, 2003, through December 31, 2003.

FOR FURTHER INFORMATION CONTACT: Paul H. Jones, Fishery Policy Analyst, 978-281-9273, fax 978-281-9135, e-mail paul.h.jones@noaa.gov.

SUPPLEMENTARY INFORMATION:

Need for Correction/Clarification

Final specifications for the 2003 Atlantic herring fishery were published on February 6, 2003 (68 FR 6088). In the rule, the preamble contained a table showing the Area TACs for the 2003 Atlantic herring fishery. However, the table inadvertently omitted the listing of the Area 1A TAC into two seasonal quotas. The final rule implementing Framework 1 to the Atlantic Herring Fishery Management Plan required annual specification of herring quotas into two seasonal fishing periods for Management Area 1A (January - May, and June - December). In the preamble

of both the proposed specifications for the 2003 Atlantic herring fishery, published on November 15, 2002 (67 FR 69181), and the final specifications, the rules stated that there were only two changes from the specifications approved by NMFS for the 2002 fishery: A transfer of 10,000 mt from the Area 2 TAC reserve to the Area 3 TAC, resulting in an Area 3 TAC of 60,000 mt and an Area 2 TAC reserve of 70,000 mt; and a restriction on U.S. at-sea processing vessels to fish in Areas 2 and 3, only. Omitting the two seasonal quotas for Area 1A was not a change from the 2002 specifications.

Accordingly, in rule, FR Doc. 03-2798 published on February 6, 2003, on page 6089, in the first and second columns, the final specifications for the 2003 Atlantic herring fishery are corrected to read as follows, with specific reference to the seasonal quota allocation for Area 1A:

FINAL SPECIFICATIONS AND AREA TACS FOR THE 2003 ATLANTIC HERRING FISHERY

Specification	Final Allocation (mt)
ABC	300,000
OY	250,000
DAH	250,000
DAP	226,000
JVPt	20,000
JVP	10,000
	(Area 2 and 3 only)
IWP	10,000
USAP	20,000
	(Area 2 and 3 only)
BT	4,000
TALFF	0
Reserve	0
TAC—Area 1A	60,000
	January 1, 2003–May 31, 2003, landings cannot exceed 6,000
TAC—Area 1B	10,000
TAC—Area 2	50,000
	(TAC reserve: 70,000)
TAC—Area 3	60,000

This action is being taken pursuant to 50 CFR 648.200 and 648.202.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 1, 2003.

John Oliver,

Deputy Assistant Administrator for Operations, National Marine Fisheries Service.
