Bulk Aspirin from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce is currently conducting an administrative review of the antidumping duty order on bulk aspirin from the People's Republic of China. The period of review is July 1, 2001, through June 30, 2002. This review covers imports of subject merchandise from two producer/exporters.

We preliminarily find that sales have been made at not less than normal value. If these preliminary results are adopted in our final results of review, we will instruct the Customs Service to liquidate entries of bulk aspirin produced and exported by Shandong Xinhua Pharmaceutical Co., Ltd., and Jilin Henghe Pharmaceutical Company Ltd., without regard to antidumping duties.

We invite interested parties to comment on these preliminary results. We will issue the final results no later than 120 days from the date of publication of this notice.

EFFECTIVE DATE: April 9, 2003.

FOR FURTHER INFORMATION CONTACT: Julie Santoboni or Blanche Ziv, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4194, or (202) 482-4207, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 11, 2000, the Department of Commerce ("Department") published an antidumping order on bulk aspirin from the People's Republic of China ("PRC"). See *Notice of Antidumping Duty Order: Bulk Aspirin from the People's Republic of China*, 65 FR 42673 (July 11, 2000). On July 1, 2002, the Department published in the **Federal Register** an *Antidumping or Countervailing Duty Order, Finding, or Suspended*

Investigation; Opportunity To Request Administrative Review, 67 FR 77172 (July 1, 2002).

On July 10 and 30, 2002, in accordance with 19 CFR 351.213(b), two producer/exporters of the subject merchandise, Shandong Xinhua Pharmaceutical Co., Ltd. ("Shandong"), and Jilin Henghe Pharmaceutical Company Ltd. ("Jilin"), respectively, requested that the Department conduct an administrative review of this order. On July 31, 2002, Rhodia, Inc. ("petitioner") also requested an administrative review for Jilin and Shandong.

On August 27, 2002, we published a notice of initiation of the administrative review. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocations in Part*, 67 FR 55000 (August 27, 2002). The period of this review ("POR") is July 1, 2001, through June 30, 2002.

We issued questionnaires to Jilin and Shandong on September 24, 2002. We received responses to the questionnaires from Shandong and Jilin on November 22 and December 4, 2002, respectively.

On December 18, 2002, the Department invited interested parties to comment on surrogate country selection and to provide publicly available information for valuing the factors of production. We received responses from the petitioner on January 22 and 27, 2003. Jilin provided surrogate value information to the Department on January 28 and March 13, 2003.

We issued supplemental questionnaires to Jilin and Shandong between December 2002, and March 2003. We received responses to the supplemental questionnaires from both respondents from January through March 2003.

Scope of the Order

The product covered by this review is bulk acetylsalicylic acid, commonly referred to as bulk aspirin, whether or not in pharmaceutical or compound form, not put up in dosage form (tablet, capsule, powders or similar form for direct human consumption). Bulk aspirin may be imported in two forms, as pure ortho-acetylsalicylic acid or as mixed ortho-acetylsalicylic acid. Pure ortho-acetylsalicylic acid can be either in crystal form or granulated into a fine powder (pharmaceutical form). This product has the chemical formula $C_9H_8O_4$. It is defined by the official monograph of the United States Pharmacopoeia 23 ("USP"). It is currently classifiable under the *Harmonized Tariff Schedule of the United States* ("HTSUS") subheading 2918.22.1000.

Mixed ortho-acetylsalicylic acid consists of ortho-acetylsalicylic acid combined with other inactive substances such as starch, lactose, cellulose, or coloring materials and/or other active substances. The presence of other active substances must be in concentrations less than that specified for particular nonprescription drug combinations of aspirin and active substances as published in the *Handbook of Nonprescription Drugs*, eighth edition, American Pharmaceutical Association. This product is currently classifiable under HTSUS subheading 3003.90.0000.

Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise under review is dispositive.

Separate Rates

It is the Department's standard policy to assign all exporters of the merchandise subject to review in nonmarket economy ("NME") countries a single rate unless an exporter can demonstrate an absence of government control, both in law and in fact, with respect to exports. To establish whether an exporter is sufficiently independent of government control to be entitled to a separate rate, the Department analyzes the exporter in light of the criteria established in the *Final Determination of Sales at Less Than Fair Value: Sparklers from the People's Republic of China*, 56 FR 20588 (May 6, 1991) ("Sparklers"), as amplified in the *Final Determination of Sales at Less Than Fair Value: Silicon Carbide from the People's Republic of China*, 59 FR 22585 (May 2, 1994) ("Silicon Carbide").

Absence of De Jure Control

Evidence supporting, though not requiring, a finding of *de jure* absence of government control over export activities includes: 1) an absence of restrictive stipulations associated with an individual exporter's business and export licenses; 2) any legislative enactments decentralizing control of companies; and 3) any other formal measures by the government decentralizing control of companies. See *Sparklers*, 56 FR at 20589.

Absence of De Facto Control

A *de facto* analysis of absence of government control over exports is based on four factors—whether the respondent: 1) sets its own export prices independently of the government and other exporters; 2) retains the proceeds from its export sales and makes independent decisions regarding the disposition of profits or financing of
