## INTERNATIONAL TRADE COMMISSION

[Investigation 332-452]

### Steel-Consuming Industries: Competitive Conditions With Respect to Steel Safeguard Measures

**AGENCY:** International Trade  
Commission.

**ACTION:** Institution of investigation and  
scheduling of public hearing.

**EFFECTIVE DATE:** April 4, 2003.

**SUMMARY:** Following receipt of a request on March 18, 2003, from the Committee on Ways and Means (Committee), U.S. House of Representatives, the Commission instituted investigation No. 332-452, Steel-Consuming Industries: Competitive Conditions with Respect to Steel Safeguard Measures, under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)).

On March 5, 2003, the Commission instituted an investigation under section 204(a) of the Trade Act of 1974 (Inv. No. TA-204-9) in order to prepare a report on the results of its monitoring of developments relating to the domestic steel industry since the President imposed tariffs and tariff-rate quotas on imports of certain steel products (68 FR 12380, March 14, 2003). In its letter, the Committee on Ways and Means requests that the Commission provide its report in this section 332 investigation and its monitoring report in the section 204(a) investigation in a single document. In a March 27, 2003 letter to the Commission, the Office of the United States Trade Representative (USTR) referenced the format requested by the Committee and informed the Commission that USTR has no objection to receiving the section 204(a)(2) report and the section 332(g) report in a single document. Accordingly, the Commission will transmit to the President and the Congress these two separate reports in the requested format.

### Background

As requested by the Committee, the Commission will investigate the current competitive conditions facing the steel-consuming industries in the United States, with respect to tariffs and tariff-rate quotas imposed by the President on March 5, 2002, and with respect to foreign competitors not subject to such measures. As requested, the Commission will conduct its analysis along sectoral lines in order to assess the impact on differing segments of the U.S. manufacturing sector; and also examine the data as related to steel products on which the President imposed steel safeguard measures. To the extent possible, the investigation will address the effects of the safeguard measures on steel consuming industries and on industries that rely on steel imports such as the ports, including the following:

- (1) Changes in employment, wages, profitability, sales, productivity, and capital investment of steel-consuming industries;
- (2) An examination of the reported effects of the safeguard remedies on factors such as steel prices paid by consuming industries, steel shortages/availability, the ability of steel consumers to obtain required products or quality specifications, lead times and delivery times, contract abrogation, sourcing of finished parts from overseas by customers of steel consumers, and the relocation or shift of U.S. downstream production to foreign plants or facilities;
- (3) The impact of international competitive factors, such as relative differences in steel costs to foreign steel-consuming industries, on steel consumers' exports and imports of steel-containing products;
- (4) An examination of any shifts in steel-consuming patterns in the United States, *i.e.*, how much steel was purchased from domestic steel producers by U.S. steel-consuming industries before the safeguard action, and how has this sourcing changed following the implementation of the safeguard measures; and
- (5) A discussion of the likely impact on employment, profitability, capital

investment, and international competitiveness of steel-consuming industries of (i) continuation of the safeguard measures for the period September 2003-March 2005 and (ii) termination of the safeguard measures effective September 20, 2003.

In addition, as requested, the Commission will provide an analysis of the potential economy-wide effects of these safeguard measures (*e.g.*, on costs borne by steel consumers, tariff revenues entering the U.S. Treasury, income to steel producers, and the net effect on the U.S. economy) using appropriate simulation models.

The Committee asked that the Commission furnish its report by September 20, 2003, along with the Commission's section 204 steel monitoring report in a single document. The Committee also requested that the Commission make its report available to the public, consistent with procedures set forth in section 332(g) of the Tariff Act of 1930 concerning the release of confidential business information.
