

While public participation in this analysis is welcome at any time, comments received within 14 days of the publication of this notice will be especially useful in the preparation of the draft environmental impact statement. The scoping process will include identifying potential issues, significant issues to be analyzed in depth, alternatives to the proposed action, and potential environmental effects of the proposal and alternatives.

Comment Requested

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement.

Early Notice of Importance of Public Participation in Subsequent Environmental Review

A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or

chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

SUPPLEMENTARY INFORMATION: The passenger transportation portion of the RBEG program is authorized by section 310B(c)(2) of the Consolidated Farm and Rural Development Act (CONACT) (7 U.S.C. 1932(c)(2)). The RBEG program is administered on behalf of RBS at the State level by the Rural Development State Offices. The primary objective of the program is to improve the economic

conditions of rural areas. Assistance provided to rural areas under this program may include on-site technical assistance to local and regional governments, public transit agencies, and related nonprofit and for-profit organizations in rural areas; the development of training materials; and the provision of necessary training assistance to local officials and agencies in rural areas.

Awards under the RBEG passenger transportation program are made on a competitive basis using specific selection criteria contained in 7 CFR part 1942, subpart G, and in accordance with section 310B(c)(2) of the CONACT. That subpart also contains the information required to be in the preapplication package. For the \$248,375 grant, at least 75 percent of the benefits of the project must be received by members of Federally Recognized Tribes. The project that scores the greatest number of points based on the selection criteria and Administrator's points will be selected for each grant. Preapplications will be tentatively scored by the State Offices and submitted to the National Office for review, final scoring, and selection.

To be considered "national", a qualified organization is required to provide evidence that it operates in multi-State areas. There is not a requirement to use the grant funds in a multi-State area. Under this notice, grants will be made to qualified, private, non-profit organizations for the provision of technical assistance and training to rural communities for the purpose of improving passenger transportation services or facilities. Public bodies are not eligible for passenger transportation RBEG grants.

The information collection requirements contained within this Notice have received approval by the Office of Management and Budget (OMB) under OMB Control Number 0570-0022 (7 CFR part 1942, subpart G).

Fiscal Year 2003 Preapplications Submission

Each preapplication received in a Rural Development State Office will be reviewed to determine if this preapplication is consistent with the eligible purposes contained in section 310B(c)(2) of the CONACT. Each selection priority criterion outlined in 7 CFR part 1942, subpart G, section 1942.305(b)(3), must be addressed in the preapplication. Failure to address any of the criteria will result in a zero-point score for that criterion and impact the overall evaluation of the preapplication. Copies of 7 CFR part 1942, subpart G, will be provided to any interested

applicant making a request to a Rural Development State Office listed in this notice. All projects to receive technical assistance through these passenger transportation grant funds are to be identified when the preapplications are submitted to the Rural Development State Office. Multiple project preapplications must identify each individual project, indicate the amount of funding requested for each individual project, and address the criteria as stated above for each individual project. For multiple-project preapplications, the average of the individual project scores will be the score for that preapplication.

All eligible preapplications, along with tentative scoring sheets and the Rural Development State Director's recommendation, will be referred to the National Office no later than June 13, 2003, for final scoring and selection for award.

The National Office will score preapplications based on the grant selection criteria and weights contained in 7 CFR part 1942, subpart G and will select a grantee subject to the grantee's satisfactory submission of a formal application and related materials in the manner and time frame established by RBS in accordance with 7 CFR part 1942, subpart G. It is anticipated that the grantees will be selected by July 31, 2003. All applicants will be notified by RBS of the Agency's decision on the awards.

Dated: April 3, 2003.

John Rosso,

Administrator, Rural Business-Cooperative Service.
