Part I. Background Information: Reducing Family and Intimate Violence Through Coordinated Prevention and Services Strategies

The Importance of Coordination of Services

Family and intimate violence has serious and far-reaching consequences for individuals, families, and communities. Estimates from the Department of Justice National Crime Victimization Survey (NCVS) indicate that, in 1998, about 1 million violent crimes were committed against persons by their current or former spouses, boyfriends, or girlfriends. Such crimes termed intimate partner violence are committed primarily against women. It is important to note that, regardless of the demographic characteristics considered, women experienced intimate partner violence at higher rates than men between 1993 and 1998 (Bureau of Justice Statistics 2000).

The impact of family and intimate violence includes physical injury and

death of primary or secondary victims, psychological trauma, isolation from family and friends, harm to children witnessing or experiencing violence in homes, in which the violence occurs, increased fear, reduced mobility and employability, homelessness, substance abuse, and a host of other health and related mental health consequences.

It is estimated that between 12 percent and 35 percent of women visiting emergency rooms with injuries are there because of battering. Estimates of the number of women who are homeless because of battering range from 27 percent to 41 percent to 63 percent of all homeless women. The significant correlation between domestic violence and child abuse, and the use of welfare by battered women as an "economic escape route" also suggest the need to coordinate domestic violence intervention activities with those addressing child abuse and the welfare program under the Temporary Assistance for Needy Families (TANF) program at the State and local levels.

When programs that seek to address these issues operate independently of each other, a fragmented, and consequently less effective, service delivery and prevention system may result. Coordination and collaboration among the police, prosecutors, the courts, victim services providers, child welfare and family preservation services, faith and community-based organizations, and medical and mental health service providers is needed to provide more responsive and effective services to victims of domestic violence and their families. It is essential that all interested parties be involved in the design and improvement of intervention and prevention activities.

To help bring about a more effective response to the problem of domestic violence, the Department of Health and Human Services urges State and Native American tribes receiving funds under this grant announcement to coordinate activities funded under this grant with other new and existing resources for the prevention of family and intimate violence and related issues.

Part II. General Programmatic and Funding Information

A. Background

Title III of the Child Abuse Amendments of 1984 (Pub. L. 98-457, 42 U.S.C. 10401 *et seq.*) is entitled the "Family Violence Prevention and Services Act" (the Act). The Act was first implemented in FY 1986, reauthorized and amended in 1992 by Pub. L. 102-295, in 1994 by Pub. L. 103-322, the Violent Crime Control and

Law Enforcement Act, and in 1996 by Pub. L. 104-235, the Child Abuse Prevention and Treatment Act (CAPTA) of 1996. The Act was most recently amended by the "Victims of Trafficking and Violence Protection Act" (Pub. L. 106-386, October 28, 2000).

The purpose of this legislation is to assist States, Native American tribes, and tribal organizations in supporting the establishment, maintenance, and expansion of programs and projects to prevent incidents of domestic violence and to provide immediate shelter and related assistance for victims of domestic violence and their dependents.

During FY 2002, 200 grants were awarded to States and Native American tribes. The Department also awarded 53 family violence prevention grants to nonprofit State domestic violence coalitions.

Additionally, the Department supports the National Resource Center (NRC) for Domestic Violence and four Special Issue Resource Centers (SIRCs). The SIRCs are the Battered Women's Justice Project, the Resource Center on Child Custody and Protection, Sacred Circle Resource Center for the Elimination of Domestic Violence Against Native Women and the Health Resource Center on Domestic Violence. The purpose of the NRC and the SIRCs is to provide resource information, training, and technical assistance to Federal, State, and Native American agencies, local domestic violence prevention programs, and other professionals who provide services to victims of domestic violence.

In February 1996, the Department funded the national domestic violence hotline to ensure that every woman has access to information and emergency assistance wherever and whenever she needs it. The national domestic violence hotline is a 24-hour, toll-free service, which provides crisis assistance, counseling, and local shelter referrals to women across the country. Hotline counselors are also available for non-English speaking persons and for people who are hearing-impaired. The hotline number is 1-800-799-SAFE; the TDD number for the hearing impaired is 1-800-787-3224. As of June 30, 2002 the National Domestic Violence Hotline has answered more than 700,000 calls.

B. Funds Available

Of the total appropriation for the Family Violence Prevention and Services program for FY 2003, the Department of Health and Human Services will allocate 70 percent to the designated State agencies administering Family Violence Prevention and Services programs (section 310 (a)) of

the Act. The Department will allocate 10 percent to the tribes and tribal organizations for the establishment and operation of shelters, safe houses, and the provision of related services (section 310 (a)) of the Act. Additionally, we will allocate 10 percent to the State Domestic Violence Coalitions to continue their work within the domestic violence community by providing technical assistance and training, advocacy services with other local domestic violence programs, and to encourage appropriate responses to domestic violence within the States.

Five percent of our FY 2003 appropriation will be available to continue the support for the National Resource Center and the four Special Issue Resource Centers. The remaining five percent of the FY 2003 family violence prevention and services funding will be used to support demonstration programs in the areas of training and technical assistance, collaborative projects with advocacy organizations and service providers, data collection efforts, public education activities, and research and other demonstration activities at the national level.

C. State Allocations

Family Violence grants to the States, the District of Columbia, and the Commonwealth of Puerto Rico are based on a population formula. Each State shall be allotted a base grant of \$600,000. The remaining balance of FVPSA funds are to be distributed according to the State population ratio (this ratio reflects the States population to the total populations of all States).

For the purpose of computing allotments, the statute provides that Guam, American Samoa, the Virgin Islands, and the Northern Mariana Islands will each receive grants of not less than one-eighth of one percent of the amounts appropriated.

D. Native American Tribal Allocations

Of the funds available for FY 2003, the Department of Health and Human Services will allocate ten percent for grants to Native American Tribes. Native American Tribes and Tribal Organizations are eligible for funding under this program if they meet the definition of such entities as found in the Indian Self-Determination and Education Assistance Act, 25 U.S.C. 450 b, and are able to demonstrate their capacity to carry out a family violence prevention and services program.

Any Native American tribe that believes it meets the above eligibility criteria and should be included in the list of eligible tribes should provide

supportive documentation in its application and a request for inclusion (see Native American Tribal Application Requirements in part V).

In computing Native American tribal allocations, we will use the latest available population figures from the Census Bureau. Where Census Bureau data are unavailable, we will use figures from the Bureau Indian Affairs Indian Population and Labor Force Report.

Because section 304 of the Act specifies a minimum base amount for State allocations, we have set a base amount for Native American tribal allocations. Since FY 1986, we have found in practice that the establishment of a base amount has facilitated our efforts to make a fair and equitable distribution of limited grant funds.

Native American tribes and tribal organizations that meet application requirements are awarded base grants in amounts determined by the following chart:

Category number	Tribal population	Will receive a base amount of—
1	1–1,500	\$2,000
2	1,501–3,000	3,500
3	3,001–4,000	4,500

31	100,001–150,000	175,000
32	150,001 and over.	225,000

Once the base amounts have been distributed to the tribes that have applied for family violence funding, the ratio of the tribe's population to the total population of all the applicant tribes is then considered in allocating the remainder of the funds. By distributing

a proportional amount plus a base amount to the tribes we have accounted for the variance in actual population and scope of the family violence programs. As in previous years, tribes are encouraged to apply as consortia for the family violence funding.

Part III. General Grant Requirements Applicable to States and Native American Tribes

The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

Attachment D

CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below. 2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act. 3. For grantees other than individuals, Alternate I applies. 4. For grantees who are individuals, Alternate II applies. 5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements. 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios). 7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five). 8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15); *Conviction* means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance; *Employee* means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Alternate I. (Grantees Other Than Individuals) The grantee certifies that it will or will continue to provide a drug-free workplace by:

(1) The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction.

Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted --

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

(B) The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)
