Permit Operation of NGSO FSS Systems Co-Frequency With GSO and Terrestrial Systems in the Ku-Band Frequency Range

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document the Commission seeks comment on the appropriate service area definition for the Multichannel Video Distribution and Data Service (MVDDS) in the 12.2-12.7 GHz band (12 GHz band). This action is taken in response to comments received in response to a January 30, 2003, auction public notice which sought comment on an MVDDS auction based on either CEAs or DMAs. Given that we are revisiting the service area definition, we also take this opportunity to explore whether the current build out requirement sufficiently promotes expeditious deployment of service. By these actions, we seek to deploy the new MVDDS in a manner that most efficiently and effectively allows for flexible use of the spectrum.

DATES: Comments are due on or before April 28, 2003, and reply comments are due on or before May 5, 2003.

ADDRESSES: Federal Communications Commission, 445 12th Street, SW., TW-A325, Washington, DC 20554. See **SUPPLEMENTARY INFORMATION** for filing instructions.
