ACTION: Notice of availability of Federal assistance.

SUMMARY: NOAA invites applications to establish a cooperative agreement with two of NOAA's centers, the National Climatic Data Center (NCDC) and the Coastal Services Center (CSC). In general terms, the agreement will be established to provide a collaborative environment between the National Climatic Data Center, the Coastal Services Center, and the recipient, within which a broad-based research program will be conducted that links climate and weather processes, the formation of severe events, and the impacts of these events for the region of the South Atlantic Bight, including the coastal ocean to the mountain environment. This announcement provides guidelines for the proposed cooperative agreement, and includes details for the technical program, proposal development, evaluation criteria, and competitive selection procedures. NOAA will collaborate on cooperative research and development activities and provide financial support to enhance the public benefits to be derived from the research results, including practical applications for the needs of coastal and inland communities. The selected applicant and NOAA will work together to engage the support of both the science and management communities, and ensure that a broad group of constituents will benefit from the products as well as contribute to their design and use. The agreement will be established based on ease and effectiveness of interaction and collaboration with the National Climatic Data Center and the Coastal Services Center, and/or expertise in areas related to the missions of NOAA, particularly the National Climatic Data Center and the Coastal Services Center. The selected applicant will also be expected to identify, and as appropriate, establish relationships with other NOAA program offices that may benefit from, or collaborate in, the work conducted under the cooperative agreement.

DATES: Complete applications must be received by the National Climatic Data Center no later than 4 p.m. May 22, 2003. Final selection is anticipated to be completed by approximately June 15, 2003. The anticipated start date is September 1, 2003.
